AMENDED CLASS ACTION COMPLAINT FOR VIOLATION OF THE FEDERAL SECURITIES LAWS

Case No.: 08-cv-1830 (WHA)

1 Lead Plaintiff Edward Lee and plaintiffs Edward Arsenault, Emil De Bacco, Richard  
 2 Hinton, Arnold Kreek and Margret Macht (collectively “Plaintiffs”) by and through their  
 3 counsel, allege the following based upon the investigation of counsel, which included a review of  
 4 United States Securities and Exchange Commission (“SEC”) filings, as well as other regulatory  
 5 filings, reports, and advisories, press releases, and media reports about Wells Fargo & Company  
 6 and its related entities also named herein as defendants (collectively “Defendants” or “Wells  
 7 Fargo”). Plaintiffs believe that substantial additional evidentiary support will exist for the  
 8 allegations set forth herein after a reasonable opportunity for discovery.

9 **INTRODUCTION**

10 1. This is a federal class action arising out of Defendants’ failure to disclose their  
 11 unlawful and deceitful course of conduct that was designed to improperly enrich Defendants to  
 12 the detriment of Plaintiffs and other members of the Class. This action is brought by Plaintiffs  
 13 against Wells Fargo on behalf of a Class (defined below) consisting of all persons or entities who  
 14 purchased one or more of the Wells Fargo Funds (except the Wells Fargo Diversified Equity  
 15 Fund, Montgomery Emerging Markets Fund and Small Cap Growth Fund), from November 4,  
 16 2000 through April 11, 2006, inclusive (the “Class Period”).

17 2. This case is premised upon the allegations in the Third Amended Complaint in the  
 18 matter of *Siemers v. Wells Fargo & Co., et al.*, case no. 05-cv-4518 that the Court in its April 17,  
 19 2007 Order held stated a claim for violation of the federal securities law. *See Siemers v. Wells*  
 20 *Fargo*, case no. 05-cv-04518 WHA, 2007 U.S. Dist. LEXIS 31287 (N.D. Cal. April 17, 2007).  
 21 This case is intended to provide relief for all Wells Fargo mutual fund investors not covered by  
 22 the class certification order and subsequent settlement in *Siemers*.

23 3. Defendants created undisclosed material conflicts of interest with members of the  
 24 Class by entering into revenue-sharing agreements with brokerages and selling agents who sold  
 25 the Wells Fargo Funds. Defendants financed these arrangements by illegally charging excessive  
 26 and improper fees to the Wells Fargo Funds and their investors that should have been invested in  
 27 the underlying portfolio. Defendants did not disclose to investors, at the time of purchase, their  
 28 pre-existing and ongoing revenue sharing arrangements, but rather knowingly hid such

1 information by way of material omissions and half-truths in the prospectuses and other offering  
2 documents.

3           4.       Wells Fargo Investments, LLC (“Wells Fargo Investments”), a Wells Fargo  
4 broker/dealer, solicited investments in the Wells Fargo Funds and recommended such  
5 investments to its clients, without disclosing that it was a recipient of such kickbacks. The  
6 NASD has fined and censured Wells Fargo Investments millions of dollars for its conduct  
7 accepting such kickbacks, which included its role in this scheme. Likewise, the NASD and SEC  
8 have fined and censured broker-dealers such as American Express for failure to disclose the  
9 kickbacks paid to the broker-dealers by Defendants.

10        5. Defendants' sales practices created a material insurmountable conflict of interest  
11 between themselves and their clients by using investor assets to provide monetary incentives to  
12 broker/dealers to sell Wells Fargo Funds, sales of which increased Defendants' overall profits,  
13 but improperly diminished investors' returns. Defendants failed to disclose its kickback scheme,  
14 knowing that if the truth were revealed, no reasonable investor would invest in the Wells Fargo  
15 Funds. This conflict of interest created by Defendants' failure to disclose these incentives  
16 violates federal securities laws. Furthermore, Plaintiffs and other members of the Class paid fees  
17 that they would not have paid otherwise had the kickback scheme been disclosed, and, as result,  
18 received lower returns from their investments.

19 6. In engaging in this conduct, Defendants violated the Securities Exchange Act of  
20 1934.

## **JURISDICTION AND VENUE**

22       7.     This Court has jurisdiction over the subject matter of this action pursuant to  
23 Section 27 of the Securities Exchange Act of 1934 (the “Exchange Act”), 15 U.S.C. § 78aa; and  
24 28 U.S.C. §§ 1331, 1337 and 1367(a).

25 8. Venue is proper in this District pursuant to Section 27 of the Exchange Act (15  
26 U.S.C. § 78aa) and 28 U.S.C. § 1391. Substantial acts in furtherance of the alleged fraud,  
27 including the preparation and dissemination of materially false and misleading information,  
28 occurred within this District. Defendant Wells Fargo is headquartered in San Francisco.

9. In connection with the acts alleged herein, Defendants, directly or indirectly, used the means and instrumentalities of interstate commerce, including but not limited to the mails, interstate telephone communications, and the facilities of the national securities markets.

## **PARTIES**

## PLAINTIFFS

10. Court appointed Lead Plaintiff Edward Lee purchased shares of the Wells Fargo Funds during the Class Period and was thereby damaged. The Wells Fargo Funds acquired by Mr. Lee are included in Mr. Lee's certification attached hereto as Exhibit A.

11. Edward Arsenault purchased shares of the Wells Fargo Funds during the Class Period and was thereby damaged. The Wells Fargo Funds acquired by Mr. Arsenault are included in Mr. Arsenault's certification attached hereto as Exhibit A.

12. Emil De Bacco purchased shares of the Wells Fargo Funds during the Class Period and was thereby damaged. The Wells Fargo Funds acquired by Mr. De Bacco are included in Mr. De Bacco's certification attached hereto as Exhibit A.

13. Richard Hinton purchased shares of the Wells Fargo Funds during the Class Period and was thereby damaged. The Wells Fargo Funds acquired by Mr. Hinton are included in Mr. Hinton's certification attached hereto as Exhibit A.

14. Arnold Creek purchased shares of the Wells Fargo Funds during the Class Period and was thereby damaged. The Wells Fargo Funds acquired by Mr. Creek are included in Mr. Creek's certification attached hereto as Exhibit A.

15. Margaret Macht purchased shares of the Wells Fargo Funds during the Class Period and was thereby damaged. The Wells Fargo Funds acquired by Ms. Macht are included in Ms. Macht's certification attached hereto as Exhibit A.

## DEFENDANTS

## The Parent Company

16. Wells Fargo & Company is the ultimate parent of all Defendants named in this Complaint and is incorporated in Delaware. Wells Fargo & Company is a diversified financial services company providing banking, insurance, investments, mortgage and consumer finance

1 services. Through its subsidiaries, Wells Fargo & Company also markets, sponsors, and  
 2 provides investment advisory, distribution, and administrative services to mutual funds,  
 3 including the Wells Fargo Funds. Defendant Wells Fargo & Company is headquartered at 420  
 4 Montgomery Street, San Francisco, California 94104. It was the ultimate beneficiary of the  
 5 secret plan and scheme to drive new investors into the Wells Fargo Funds through the kickback  
 6 scheme alleged herein. Defendant Wells Fargo & Company is herein referred to as the “Control  
 7 Person Defendant.”

8 **The Investment Adviser**

9 17. Defendant Wells Fargo Funds Management, LLC (“the Investment Adviser  
 10 Defendant” or “WFFM”) is a Delaware corporation registered as an investment adviser under the  
 11 Investment Advisers Act. Its offices are located at 525 Market St., San Francisco, California  
 12 94105. It is an indirect, wholly-owned subsidiary of Wells Fargo & Company. Prior to March 1,  
 13 2001, WFFM existed as a division or department of Wells Fargo Bank, N.A., rather than as a  
 14 separate legal entity, but at all times it has acted in the capacities described herein. For example,  
 15 in the prospectuses dated February 1, 2001, WFFM stated that it had been created in “early  
 16 2001” but referenced its existence as a fund manager (under the ownership of Wells Fargo &  
 17 Company) prior to that date, stating, “As of September 30, 2000, Funds Management and its  
 18 affiliates managed over \$514 billion in assets.”

19 18. The Investment Adviser Defendant is responsible for implementing the  
 20 investment policies and guidelines for the Wells Fargo Funds and for supervising the sub-adviser  
 21 responsible for their day-to-day management, including the placing of orders for the purchase  
 22 and sale of portfolio securities. In return, the Investment Adviser Defendant receives fees  
 23 calculated as percentage of net assets under management.

24 19. As of June 30, 2004, the Investment Adviser Defendant managed over \$75 billion  
 25 in Wells Fargo Funds mutual fund assets. In breach of its fiduciary duties, the Investment  
 26 Adviser Defendant provided self-serving information to the Funds’ Board of Trustees and  
 27 created a secret plan with broker/dealers to promote the Wells Fargo Funds which resulted in the  
 28 Funds’ investors footing the bill.

1            **The Registrant**

2            20.      Defendant Wells Fargo Funds Trust is the Registrant of all the Wells Fargo Funds  
 3 for the purposes of filing financials with the SEC, under which the Wells Fargo Funds are  
 4 organized as several portfolios/series. Defendant Wells Fargo Funds Trust is an open-ended  
 5 management company incorporated in Delaware and is registered with the SEC under the  
 6 Investment Company Act. Wells Fargo Funds Trust has its principal executive offices at 525  
 7 Market Street, San Francisco, California 94105. Defendant Wells Fargo Funds Trust is herein  
 8 referred to as the “Registrant Defendant.”

9            **SUBSTANTIVE ALLEGATIONS**

10            **Background**

11            21.      Wells Fargo provides banking, insurance, investments, mortgage and consumer  
 12 finance services to more than 23 million customers through an international network of over  
 13 6,160 financial services offices, the internet and other distribution channels. Wells Fargo has  
 14 \$435 billion in assets and over 150,000 employees. Wells Fargo calls its financial consultants  
 15 “team members” and states on its website that the “team members” will “provide sound financial  
 16 advice for customers ... and create new wealth for them.” *WellsFargo.com, Vision and Values:*  
 17 *What is Wells Fargo*, [http://www.wellsfargo.com/invest\\_relations/vision\\_values/4](http://www.wellsfargo.com/invest_relations/vision_values/4).

18            22.      Investors often turn to financial consultants for guidance on savings and  
 19 retirement vehicles that will maximize the growth of their assets. Brokers, such as those at Wells  
 20 Fargo Investments, refer to themselves as financial consultants. Wells Fargo states on its website  
 21 that among its core values are that its employees “[v]alue and reward open, honest, two-way  
 22 communication...[a]void any actual or perceived conflict of interest...[and] [c]omply with the  
 23 letter and the spirit of the law.” *WellsFargo.com, Vision and Values: What Are Our Values*,  
 24 [http://www.wellsfargo.com/invest\\_relations/vision\\_values/11](http://www.wellsfargo.com/invest_relations/vision_values/11). Indeed, the “Wells Fargo Team  
 25 Members Code of Ethics and Business Conduct” states that team members must avoid conflicts  
 26 of interest or the appearance of conflicts of interest, and also notes that it is unlawful for team  
 27 members to accept anything of value from any person intending to be influenced or rewarded in  
 28 connection with any business or transaction of Wells Fargo. *WellsFargo.com, Wells Fargo*

1 *Team Members Code of Ethics and Business Conduct*, June 1, 2004, at 6,  
2 <http://www.wellsfargo.com/>  
3 [pages/about/corporate/ethics/team\\_member\\_code\\_of\\_ethics\\_2004.pdf](http://www.wellsfargo.com/pages/about/corporate/ethics/team_member_code_of_ethics_2004.pdf). These internally-  
4 published prohibitions on conflicts of interest are, of course, in addition to the matrix of market  
5 regulations governing broker/dealers and mutual fund companies that prohibit such conduct.

6        23.     However, Defendants' mutual funds sales practices clearly contradict their  
7 statements made to investors. Undisclosed conflict of interests were rampant in the relationships  
8 between Defendants and mutual fund investors who are members of the Class.

9        24. The kickbacks paid by the Wells Fargo Funds were in the form of “revenue  
10 sharing.” Revenue sharing occurs when a mutual fund’s investment adviser or its affiliate makes  
11 cash payments to a broker/dealer in exchange for the broker/dealer pushing shares of that fund  
12 over other funds. Revenue sharing arrangements are problematic because they reduce the assets  
13 of the funds for a purpose that is not disclosed to investors. In addition, broker/dealers cannot  
14 uphold their fiduciary responsibilities when they choose to include or exclude a fund based on  
15 the fund’s participation in a revenue sharing arrangement rather than based on the benefit to the  
16 investor. The SEC has stated that “[r]evenue sharing arrangements not only pose potential  
17 conflicts of interest, but also may have the indirect effect of reducing investors’ returns by  
18 increasing the distribution-related costs incurred by funds.” 69 Fed. Reg. 6438, 6441 n.21  
19 (Feb.10, 2004)

20        25. According to internal Wells Fargo documents, payments from the Wells Fargo  
21 Funds were based upon the amount of assets of the Wells Fargo Fund held under management,  
22 as well as on the amount of sales of the Wells Fargo Funds.

**THE WELLS FARGO FUNDS' PROSPECTUSES, THEIR STATEMENTS OF ADDITIONAL INFORMATION AND DEFENDANTS' PUBLIC STATEMENTS WERE MATERIALLY FALSE AND MISLEADING REGARDING THE KICKBACK ARRANGEMENTS**

26        26.      The kickback activities engaged in by Defendants as described herein created  
27 conflicts of interest with respect to the financial consultants' investment advice given to their  
28 clients and the management of their client accounts. These conflicts of interest were not

1 disclosed to Plaintiffs and the Class, and were actively concealed from investors. Disclosure of  
 2 these sales incentives and compensation structures were necessary for Wells Fargo's clients to  
 3 make informed investment decisions.

4       27.   Wells Fargo disclosed information to its customers concerning mutual fund  
 5 purchases primarily through supplying customers with the prospectuses and if requested, the  
 6 statements of additional information ("SAIs") issued by the mutual funds.

7       28.   A mutual fund's prospectus and its SAIs are required to disclose all material facts  
 8 in order to provide investors with information that will assist them in making an informed  
 9 decision about whether to invest in a mutual fund. The law requires that such disclosures be in  
 10 straightforward and easy to understand language such that it is readily comprehensible to the  
 11 average investor. *See Plain English Disclosure*, SEC Release Nos. 33-7497, 34-39593 (Oct. 1,  
 12 1998) (to be codified at 17 C.F.R. pts. 228, 229, 230, 239 and 274).

13       29.   Prior to investing in any of the Wells Fargo Funds, Plaintiffs and each member of  
 14 the Class were entitled to receive the appropriate prospectuses. The SAIs are not distributed to  
 15 investors, but are available to them on request. The prospectuses and SAIs were deceptive and  
 16 misleading as they failed to disclose Defendants' practice of steering investors into Wells Fargo  
 17 Funds.

18       30.   Each of the Wells Fargo Funds prospectuses and their SAIs issued during the  
 19 Class Period failed to adequately disclose to investors material information about the mutual  
 20 funds and the fees and costs associated with them. As seen below, each of the prospectuses and  
 21 their SAIs contained the same materially false and misleading statements and omissions  
 22 regarding revenue sharing.

23       31.   Wells Fargo issued prospectuses annually for its Wells Fargo Funds. These  
 24 prospectuses were written by the Investment Adviser Defendant. Accordingly to sworn  
 25 deposition testimony in the *Siemers* action by a WFFM F.R.C.P. 30(b)(6) corporate  
 26 representative (Karla Rabusch – President of Defendant WFFM during the Class Period) – the  
 27 prospectuses were created using a common template such that the language contained in the  
 28 various prospectuses was consistent. Moreover, during the Class Period, the Investment Adviser

1 Defendant often issued a single annual prospectus that pertained to a number of different Wells  
 2 Fargo Funds.

3 **Exemplar Prospectus: February 1, 2000 Stock Funds**

4 32. On or about February 1, 2000 Wells Fargo issued a single prospectus that  
 5 covered the following Wells Fargo Funds: Wells Fargo Diversified Equity Fund, Diversified  
 6 Small Cap Fund, Equity Income Fund, Equity Index Fund, Equity Value Fund, Growth Fund,  
 7 Growth Equity Fund, International Fund, International Equity Fund, Large Company Growth  
 8 Fund, Small Cap Growth Fund, and Small Cap Opportunities Fund (collectively "Stock Funds").  
 9 The February 1, 2000 Stock Fund Prospectus provided in relevant part as follows:

10 33. First, the prospectus discussed the funds' "Fund—Objective—Principal Strategy"  
 11 and stated:

12 Diversified Equity Fund. Seeks long-term capital appreciation with moderate annual  
 13 return volatility. The Fund is a Gateway fund that invests in five different equity  
 14 investment styles--an index style, an equity income style, a large company style, a  
 15 diversified small cap style and an international style to minimize the volatility and risk of  
 16 investing in a single equity investment style. The Fund currently invests in 10 core  
 17 portfolios.

18 Diversified Small Cap Fund. Seeks long-term capital appreciation with moderate annual  
 19 return volatility. The Fund is a Gateway fund that invests in several different small  
 20 capitalization equity styles in order to reduce the risk of price and return volatility  
 21 associated with reliance on a single style. The Fund currently invests in 4 core portfolios.

22 Equity Income Fund. Seeks long-term capital appreciation and above-average dividend  
 23 income. The Fund is a Gateway fund that invests in the common stocks of large, high-  
 24 quality domestic companies with above-average return potential and above-average  
 25 dividend income. We consider "large" companies to be those whose market capitalization  
 26 is greater than the median of the Russell 1000 Index, which is considered a mid- to large-  
 27 capitalization index.

28 Equity Index Fund. Seeks to approximate the total rate of return of substantially all  
 29 common stock comprising the S&P 500 Index. The Fund invests in common stocks to  
 30 replicate the S&P 500 Index. We invest in each company comprising the S&P 500 Index  
 31 in proportion to its weighting in the S&P 500 Index. Regardless of market conditions, the  
 32 Fund attempts to achieve a 95% correlation between the performance of the S&P 500  
 33 Index and the Fund's investment results.

34 Equity Value Fund. Seeks long-term capital appreciation. We invest in equity securities  
 35 that we believe are undervalued in relation to the overall stock markets.

1 Growth Fund. Seeks long-term capital appreciation. We invest in common stocks and  
 2 other equity securities of domestic and foreign companies whose market capitalization  
 3 falls within the range of the Russell 1000 Index, which is considered a mid- to large-  
 4 capitalization index. We buy stocks of companies that have a strong earnings growth  
 5 trend and above-average prospects for future growth, or that we believe are undervalued.  
 6

7 Growth Equity Fund. Seeks long-term capital appreciation with moderate annual return  
 8 volatility. The Fund is a Gateway fund that invests in three different equity investment  
 9 styles--a large company growth style, a diversified small cap style, and an international  
 10 style to minimize the volatility and risk of investing in a single equity investment style.  
 11 The Fund currently invests in 7 core portfolios.

12 International Fund. Seeks long-term capital appreciation. The Fund is a Gateway fund  
 13 that invests in an international equity investment style. The Fund invests in common  
 14 stock of high-quality companies based outside of the United States.

15 International Equity Fund. Seeks total return, with an emphasis on capital appreciation  
 16 over the long-term. We invest in equity securities of companies based in developed non-  
 17 U.S. countries and in emerging markets of the world. We expect that the securities held  
 18 by the Fund will be traded on a stock exchange or other market in the country in which  
 19 the issuer is based, but they also may be traded in other countries, including the U.S. We  
 20 apply a fundamentals-driven, value-oriented analysis to identify companies with above-  
 21 average potential for long-term growth and total return capabilities.

22 Large Company Growth Fund. Seeks long-term capital appreciation. The Fund is a  
 23 Gateway fund that invests in the common stock of large, high- quality domestic  
 24 companies that have superior growth potential. We consider "large" companies to be  
 25 those whose market capitalization is greater than the median of the Russell 1000 Index,  
 26 which is considered a mid- to large- capitalization index.

27 Small Cap Growth Fund. Seeks long-term capital appreciation. We invest in common  
 28 stocks issued by companies whose market capitalization falls within the range of the  
 Russell 2000 Index, which is considered a small capitalization index. We invest in the  
 common stocks of domestic and foreign issuers we believe have above-average prospects  
 for capital growth, or that may be involved in new or innovative products, services and  
 processes.

29 Small Cap Opportunities Fund. Seeks long-term capital appreciation. The Fund invests in  
 30 equity securities of U.S. companies that, at the time of purchase, have market  
 31 capitalizations of \$1.5 billion or less. We buy stocks of companies we believe can  
 32 generate above-average earnings growth and sell at favorable prices in relation to book  
 33 values and earnings.

34. This discussion of the funds' objectives and principal strategies is false and  
 35 misleading in that it does not disclose that an additional objective to increase investments in the  
 36 fund by use of a strategy of paying revenue-sharing kickbacks of fund assets to selling agents to  
 37 incentivize new investments.

35. Next, the prospectus discusses “Shareholder Fees” and “Annual Fund Operating Expenses.” See Exhibit B attached hereto for a copy of this section of the Prospectus.

36. The table setting forth “Shareholder Fees” and “Annual Fund Operating Expenses” is false and misleading because it fails to state that portions of the “Annual Fund Operating Expenses” are in fact paid as kickbacks to selling agents as described in this complaint and because it implies that the only compensation to selling agents paid by shareholders’ fees are the “sales charges.”

37. The prospectus next discusses “Organization and Management of the Funds” as follows:

10 A number of different entities provide services to the Funds. This section shows how  
11 the Funds are organized, lists the entities that perform different services, and explains  
how these service providers are compensated. Further information is available in the  
Statement of Additional Information for the Funds.

## About Wells Fargo Funds Trust

14 Wells Fargo Funds Trust (the "Trust") was organized as a Delaware business trust on  
15 March 10, 1999. The Board of Trustees of the Trust supervises each Fund's activities,  
monitors its contractual arrangements with various service providers and decides  
upon matters of general policy.

\* \* \*

17 The Board of Trustees of the Trust supervises the Funds' activities and approves the  
18 selection of various companies hired to manage the Funds' operation. The major  
19 service providers are described in the diagram below. Except for the advisors, which  
require shareholder vote to change, if the Board believes that it is in the best interest  
of the shareholders it may make a change in one of these companies.

\* \* \*

## The Investment Advisor

22 Wells Fargo Bank provides portfolio management and fundamental security analysis  
23 services as the advisor for the Funds. Wells Fargo Bank, founded in 1852, is the  
24 oldest bank in the western United States and is one of the largest banks in the United  
25 States. Wells Fargo Bank is a wholly owned subsidiary of Wells Fargo & Company, a  
national bank holding company. As of September 30, 1999, Wells Fargo Bank and its  
affiliates managed over \$129 billion in assets. For providing these services, Wells  
Fargo Bank is entitled to receive fees as described in the "Summary of Expenses"  
section at the front of this Prospectus.

27 The Diversified Equity, Diversified Small Cap and Growth Equity are Gateway funds  
28 that invest in various core portfolios. Wells Fargo Bank is entitled to receive an  
investment advisory fee of 0.25% of each Fund's average annual net assets for providing

1 services to each Fund including the determination of the asset allocations of each Fund's  
 2 investments in the various core portfolios. Wells Fargo Bank also acts as the Advisor to,  
 3 and is entitled to receive a fee from, each core portfolio. The total amount of investment  
 4 advisory fees paid to Wells Fargo Bank as a result of a Fund's investments varies  
 5 depending on the Fund's allocation of assets among the various core portfolios.

6 **Dormant Investment Advisory Arrangements**

7 Under the existing investment advisory contract for the Funds, Wells Fargo Bank has  
 8 been retained as an investment advisor for Gateway Fund assets redeemed from a  
 9 core portfolio and invested directly in a portfolio of securities. Wells Fargo Bank does  
 10 not receive any compensation under this arrangement as long as a Gateway Fund  
 11 invests substantially all of its assets in one or more core portfolios. If a Gateway Fund  
 12 redeems assets from a core portfolio and invests them directly, Wells Fargo Bank  
 13 receives an investment advisory fee from the Gateway Fund for the management of  
 14 those assets.

15 **The Sub-Advisors**

16 Wells Capital Management Incorporated ("WCM"), a wholly owned subsidiary of  
 17 Wells Fargo Bank, N.A., is the sub-advisor for the Equity Income, Equity Index,  
 18 Equity Value, Growth, International Equity and Small Cap Growth Funds. In this  
 19 capacity, it is responsible for the day-to-day investment management activities of  
 20 these Funds. As of June 30, 1999, WCM provided advisory services for over \$71  
 21 billion in assets.

22 Peregrine Capital Management, Inc. ("Peregrine"), a wholly owned subsidiary of  
 23 Norwest Bank Minnesota, N.A., is the sub-advisor for the Large Company Growth  
 24 Fund. Peregrine, which is located at LaSalle Plaza, 800 LaSalle Avenue, Suite 1850,  
 25 Minneapolis, Minnesota 55402, is an investment advisor subsidiary of Norwest Bank  
 26 Minnesota, N.A. Peregrine provides investment advisory services to corporate and  
 27 public pension plans, profit sharing plans, savings investment plans and 401(k) plans.  
 28 As of December 31, 1999, Peregrine managed approximately \$8.1 billion in assets.

29 Schroder Investment Management North America, Inc. ("Schroder"), is the sub-  
 30 advisor for the International Core Portfolio. Schroder, whose principal business  
 31 address is 787 7th/ Avenue, New York, NY 10019, is a registered investment  
 32 adviser. Schroder provides investment management services to company retirement  
 33 plans, foundations, endowments, trust companies and high net worth individuals. As  
 34 of September 30, 1999, Schroder managed \$ 36.1 billion in assets.

35 Smith Asset Management Group, LP ("Smith Group"), whose principal business  
 36 address is 300 Crescent Court, Suite 750, Dallas, Texas 75201 is a registered  
 37 investment adviser. Smith Group provides investment management services to  
 38 company retirement plans, foundations, endowments, trust companies, and high net  
 39 worth individuals using a disciplined equity style. As of December 31, 1999, the  
 40 Smith Group managed over \$1 billion in assets.

41 WCM, Peregrine, Schroders and Smith Group are each sub-advisors to certain of the  
 42 core portfolios in which the Diversified Equity, Diversified Small Cap, and Growth  
 43 Equity Funds invest.

## The Administrator

Wells Fargo Bank provides the Funds with administration services, including general supervision of each Fund's operation, coordination of the other services provided to each Fund, compilation of information for reports to the SEC and the state securities commissions, preparation of proxy statements and shareholder reports, and general supervision of data compilation in connection with preparing periodic reports to the Trust's Trustees and officers. Wells Fargo Bank also furnishes office space and certain facilities to conduct each Fund's business. For providing these services, Wells Fargo Bank is entitled to receive a fee of 0.15% of the average annual net assets of each Fund.

## Shareholder Servicing Plan

We have a shareholder servicing plan for each Fund class. We have agreements with various shareholder servicing agents to process purchase and redemption requests, to service shareholder accounts, and to provide other related services. For these services, each Fund pays 0.25% of its average net assets, except the Asset Allocation Fund which pays 0.10%.

# The Transfer Agent

Boston Financial Data Services, Inc. ("BFDS") provides transfer agency and dividend disbursing services to the Funds. For providing these services, BFDS receives an annual fee, certain transaction-related fees, and is reimbursed for out-of-pocket expenses incurred on behalf of the Funds.

38. The section discussing Organization and Management of the Funds is false and misleading in at least the following respects: (1) It states that the fee paid to the investment advisor is for “providing [investment advisory] services” when in fact a portion of that fee is not for such services at all, but rather used to market the funds by way of kickbacks to selling agents; (2) It states that the Fund pays a set percentage of assets for “shareholder servicing” when in fact the amounts paid, including the kickbacks, were much larger; (3) It states that the transfer agent receives fees for its services; in fact a portion of these fees were not for such services but were redirected to selling agents as kickbacks; (4) It fails to disclose the existence of agreements with selling agents by which a portion of fees paid by the funds were sent to those selling agents as kickbacks or to state the amount of the kickbacks; (5) It states that the Board supervises the activities of the Advisers when in fact it did not supervise or put a stop to revenue sharing practices; and (6) It implies that the Board is an independent entity when in fact it acts as an arm of the Investment Adviser Defendant.

39. Finally, the prospectus discusses the “Distribution Plan” as follows:

1                   **Distribution Plan**

2                   We have adopted a Distribution Plan (“Plan”) pursuant to Rule 12b-1 of the 1940 Act for  
 3                   the Class B and Class C shares of the Funds. The Plan authorizes the payment of all or  
 4                   part of the cost of preparing and distributing prospectuses and distribution-related  
 5                   services, including ongoing compensation to *selling agents*. The Plan also provides that,  
 6                   if and to the extent any shareholder servicing payments are recharacterized as payments  
 7                   for distribution-related services, they are approved and payable under the Plan. The fees  
 8                   paid under this Plan are as follows:

FUND	CLASS B	CLASS C
Diversified Equity	0.75%	0.75%
Diversified Small Cap	0.75%	N/A
Equity Income	0.75%	0.75%
Equity Index	0.75%	N/A
Equity Value	0.75%	0.75%
Growth Fund	0.75%	N/A
Growth Equity	0.75%	0.75%
International	0.75%	N/A
International Equity	0.75%	0.75%
Large Company Growth	0.75%	0.75%
Small Cap Growth	0.75%	0.75%
Small Cap Opportunities	0.75%	N/A

20                   [In later prospectuses discussed *infra* in this Complaint, this chart was replaced with the  
 21                   simple sentence: “For these services, the Class B and Class C shares of the Funds pay  
 22                   0.75% of their average daily net assets on an annual basis.”]

23                   These fees are paid out of the Funds’ assets on an ongoing basis. Over time, these fees  
 24                   will increase the cost of your investment and may cost you more than paying other types  
 25                   of sales charges.

26                   This passage was false and misleading in the following respects: (1) By mentioning only Class  
 27                   B and C shares, it implies that no ongoing fees were being paid for distribution-related services  
 28                   by Class A shareholders, when in fact all shareholders were footing the bill for such services  
 29                   through revenue sharing kickbacks; (2) It states that improperly paid shareholder servicing fees

1 will be subject to the rule 12b-1 cap, when in fact they were not, because they were paid along  
 2 with other revenue sharing kickbacks to the same selling agents; and (3) Defendants did not  
 3 comply with rule 12b-1 because they paid revenue sharing kickbacks without following the  
 4 requirements of that rule for Board approval, findings of benefit to investors, and full investor  
 5 disclosure.

6 **Additional Prospectuses**

7 **February 1, 2001 Stock Funds**

8 40. The February 1, 2001 prospectus for the Stock Funds is substantially identical to  
 9 the 2000 prospectus and is false and misleading for the same reasons stated above.

10 **February 1, 2002 Stock Funds**

11 41. The February 1, 2002 prospectus for the Stock Funds is substantially identical to  
 12 the 2000 prospectus and is false and misleading for the same reasons stated above.

13 42. Additionally, the February 1, 2002 Prospectus adds a brief statement about  
 14 “additional payments” as follows:

15 In addition to payments received from the Funds, selling or  
 16 shareholder servicing agents may receive significant additional  
 17 payments directly from the Adviser, the Distributor, or their affiliates  
 18 in connection with the sale of Fund shares.

19 This additional disclosure is false and misleading in the following respects. First, the language  
 20 was not placed anywhere near the applicable text regarding strategies, shareholder fees, or  
 21 organization and management of the funds. Instead, it appeared on a page near the end of the  
 22 prospectus. The placement of the text seems deliberately designed to hide it from investors who  
 23 might be looking for it. Second, the statement that selling agents “may” receive additional fees  
 24 is materially misleading because in fact there already were set agreements to pay such fees, in  
 25 specific amounts to specific firms. Third, the statement does not disclose the amount of the  
 26 additional fees, nor the fact that the “additional fees” were *greater than* the amount of fees for  
 27 disclosed purposes such as shareholder servicing and 12b-1 fees, as set forth *infra*. Fourth, the  
 28 statement does not disclose that the source of the “additional payments” were fees charged to the  
 investors by the funds, and then sent by the funds to the investment advisor, or that the

1 investment advisor's only source of income was fees earned from the funds. Fifth, the statement  
 2 does not disclose to whom the additional payments were being made, which made it impossible  
 3 for investors to determine if the selling agents with whom they were dealing had a conflict of  
 4 interest or were potentially biased. Sixth, the statement does not disclose that the payments were  
 5 made in exchange for preferential marketing treatment by the selling agents.

6 **February 1, 2003 Stock Funds**

7 43. The February 1, 2003 prospectus for the Wells Fargo Stock Funds is substantially  
 8 identical to the February 1, 2002 prospectus and is false and misleading for the same reasons.

9 **June 9, 2003 Stock Funds**

10 44. The June 9, 2003 prospectus for the Wells Fargo Stock Funds is substantially  
 11 identical to the February 1, 2002 prospectus and is false and misleading for the same reasons.

12 **February 1, 2004 Stock Funds**

13 45. The February 1, 2004 prospectus for the Wells Fargo Stock Funds is substantially  
 14 identical to the February 1, 2002 prospectus and is false and misleading for the same reasons.

15 46. Additionally, the February 1, 2004 prospectus adds a brief statement about  
 16 "additional payments" which is slightly longer than the February 1, 2002 prospectus. It provides  
 17 as follows:

18 In addition to payments received from the Funds, selling or  
 19 shareholder servicing agents may receive significant additional  
 20 payments directly from the adviser, the distributor, or their affiliates in  
 21 connection with the sale of Fund shares. These amounts may be fixed  
 22 dollar amounts or a percentage of sales or both, and may be up-front or  
 23 ongoing payments or both. Agents may agree to provide a marketing  
 24 or servicing advantages to the Funds in return for the payments.  
 25 Selling or shareholder servicing agents, in turn, may pay some or all of  
 these amounts to their employees who recommend or sell Fund shares  
 or make investment decisions on behalf of clients. Payments made  
 with respect to the Funds may differ from those made with respect to  
 other mutual funds available through the agent and could influence the  
 agent's recommendations or decisions. Prospective investors should  
 consult with their selling or shareholder servicing agent if they wish to  
 request further information regarding these matters.

26 This additional disclosure is false and misleading in nearly all the same respects as the shorter  
 27 disclosure used between February 1, 2002 and January 31, 2004. First, the language was not  
 28 placed anywhere near the applicable text regarding strategies, shareholder fees, or organization

1 and management of the funds. Instead, it appeared on a page near the end of the prospectus. The  
 2 placement of the text seems deliberately designed to hide it from investors who might be looking  
 3 for it. Second, the statement that selling agents “may” receive additional fees is materially  
 4 misleading because in fact there already were set agreements to pay such fees, in specific  
 5 amounts to specific firms. Third, the statement does not disclose the amount of the additional  
 6 fees, nor the fact that the “additional fees” were *greater than* the amount of fees for disclosed  
 7 purposes such as shareholder servicing and 12b-1 fees, as set forth *infra*. Fourth, the statement  
 8 does not disclose that the source of the “additional payments” were fees charged to the investors  
 9 by the funds, and then sent by the funds to the investment advisor, or that the investment  
 10 advisor’s only source of income was fees earned from the funds. Fifth, the statement does not  
 11 disclose to whom the additional payments were being made, which made it impossible for  
 12 investors to determine if the selling agents with whom they were dealing had a conflict of  
 13 interest or were potentially biased.

14 **February 1, 2005 Stock Funds**

15 47. The February 1, 2005 prospectus for the Wells Fargo Stock Funds is substantially  
 16 identical to the February 1, 2004 prospectus and is false and misleading for the same reasons.

17 **April 11, 2005 Stock Funds<sup>1</sup>**

18 48. The April 11, 2005 Stock Funds prospectus is substantially identical to the  
 19 February 1, 2004 prospectus and is false and misleading for the same reasons.

20 49. Finally, the April 11, 2005 Stock Funds prospectus discusses “additional  
 21 payments” with a slightly longer passage than the February 1, 2004 Stock Funds prospectus, as  
 22 follows:

23 In addition to payments received from the Funds for distribution and  
 24 shareholder servicing, the Adviser, the Funds’ distributor or their  
 25 affiliates, may pay out of their own assets, and at no cost to the Funds,  
 significant amounts to selling or shareholder servicing agents in  
 connection with the sale and distribution of shares of the Funds or for

26 <sup>1</sup> Beginning with the April 11, 2005 prospectus, the Stock Funds prospectus was broken into five  
 27 categories: the Large Cap Stock Funds, the Small and Mid Cap Stock Funds, the International  
 Stock Funds, the Specialty Funds and the Equity Gateway Funds. All five prospectuses are  
 28 substantially identical and are referred to herein as the “April 11, 2005 Stock Funds prospectus.”

1 services to the Funds and their shareholders.

2 In return for these payments, the Funds may receive certain marketing  
 3 or servicing advantages including, without limitation, inclusion of the  
 4 Funds on a selling agent's "preferred list"; providing "shelf space" for  
 5 the placement of the funds on a list of mutual funds offered as  
 6 investment options to its clients; granting access to a selling agent's  
 7 registered representatives; providing assistance in training and  
 8 educating the selling agent's registered representatives and furnishing  
 9 marketing support and other related services. Additionally, the Funds  
 10 and their shareholders may receive certain services including, but not  
 11 limited to, establishing and maintaining accounts and records;  
 12 answering inquiries regarding purchases, exchanges and redemptions;  
 13 processing and verifying purchase, redemption and exchange  
 14 transactions; furnishing account statements and confirmations of  
 15 transactions; processing and mailing monthly statements, prospectuses,  
 16 shareholder reports and other SEC-required communications, and  
 17 providing services that might typically be provided by a Fund's  
 18 transfer agent (e.g., the maintenance of omnibus or omnibus-like  
 19 accounts, the use of the National Securities Clearing Corporation for  
 20 the transmission of transaction information and the transmission of  
 21 shareholder mailings).

22 Payments made by the Funds' Adviser, distributor or their affiliates,  
 23 for the advantages and services described above, may be fixed dollar  
 24 amounts, may be based on a percentage of sales and/or assets under  
 25 management or a combination of the above, and may be up-front or  
 26 ongoing payments or both. Such payments may be based on the  
 27 number of customer accounts maintained by the selling or shareholder  
 28 servicing agent, or based on a percentage of the value of shares sold to,  
 or held by, customers of the selling or shareholder servicing agent, and  
 may differ among selling and shareholder servicing agents.

29 In addition, representatives of the Funds' distributor visit selling  
 30 agents on a regular basis to educate their registered representatives and  
 31 to encourage the sale of Fund shares. The costs associated with such  
 32 visits and any arrangement, such as sponsoring various contests and  
 33 promotions to encourage the sale of Fund shares, may be paid for by  
 34 the Adviser, the Funds' distributor or its affiliates, subject to  
 35 applicable NASD regulations.

36 This additional disclosure is false and misleading in the nearly all the same respects as the  
 37 shorter disclosures used between February 1, 2002 and April 10, 2005. First, the language was  
 38 not placed anywhere near the applicable text regarding strategies, shareholder fees, or  
 39 organization and management of the funds. Instead, it appeared on a page near the end of the  
 40 prospectus. The placement of the text seems deliberately designed to hide it from investors who  
 41 might be looking for it. Second, the statement that selling agents "may" receive additional fees  
 42 is materially misleading because in fact there already were set agreements to pay such fees, in

1 specific amounts to specific firms. Third, the statement does not disclose the amount of the  
 2 additional fees, nor the fact that the “additional fees” were *greater than* the amount of fees for  
 3 disclosed purposes such as shareholder servicing and 12b-1 fees, as set forth *infra*. Fourth, the  
 4 statement does not disclose that the source of the “additional payments” were fees charged to the  
 5 investors by the funds, and then sent by the funds to the investment advisor, or that the  
 6 investment advisor’s only source of income was fees earned from the funds. Instead it states  
 7 falsely that the provision of these payments are at “no cost to the Funds.” Fifth, the statement  
 8 does not disclose to whom the additional payments were being made, which made it impossible  
 9 for investors to determine if the selling agents with whom they were dealing had a conflict of  
 10 interest or were potentially biased.

11 **February 1, 2006 Stock Funds**

12 50. The February 1, 2006 prospectus for the Wells Fargo Stock Funds is substantially  
 13 identical to the April 11, 2005 prospectus and is false and misleading for the same reasons.

14 **Exemplar Prospectus: February 1, 2000 Asset Allocation Funds**

15 51. On or about February 1, 2000, Wells Fargo issued a single prospectus that  
 16 covered the following Wells Fargo Funds: Wells Fargo Asset Allocation Fund, Growth Balanced  
 17 Fund, and Index Allocation Fund (collectively “Asset Allocation Funds”). The February 1, 2000  
 18 Asset Allocation Fund Prospectus provided in relevant part as follows:

19 52. First, the prospectus discussed the funds’ “Fund—Objective—Principal Strategy”  
 20 and stated:

21 Asset Allocation Fund. Seeks long-term total return, consistent with reasonable risk. We  
 22 do not select individual securities for investment, rather, we buy substantially all of the  
 23 securities of various indexes to replicate the total return of the index. We use an asset  
 24 allocation model to allocate and reallocate assets among common stocks (S&P 500  
 25 Index), U.S. Treasury bonds (Lehman Brothers 20+ Bond Index) and money market  
 instruments, operating from a target allocation of 60% stocks and 40% bonds. We invest  
 in asset classes that we believe are undervalued in order to achieve better long-term, risk-  
 adjusted returns.

26 Growth Balanced Fund. Seeks a combination of current income and capital appreciation  
 27 by diversified investments in stocks and bonds. The Fund is a Gateway fund that invests  
 28 65% in equity securities and 35% in fixed-income securities by investing in selected core  
 portfolios representing various investment styles. We invest the equity portion of the

1 Fund with an emphasis in large company, income equity and S&P 500 Index securities,  
 2 and also invest in small cap and international portfolios. We invest the fixed-income  
 3 portion of the Fund with an emphasis on investment grade securities with intermediate  
 (3-5 years) maturities.

4 Index Allocation Fund. Seeks to earn a high level of total return, consistent with the  
 5 assumption of reasonable risk. We do not select individual securities for investment,  
 6 rather, we buy substantially all of the securities of various indexes to replicate the total  
 7 return of the index. We use an asset allocation model to allocate and reallocate assets  
 8 among common stocks (S&P 500 Index), U.S. Treasury bonds (Lehman Brothers 20+  
 Bond Index) and money market instruments, operating from a target allocation of 100%  
 stocks. We invest in asset classes that we believe are undervalued in order to achieve  
 better long-term, risk-adjusted returns.

9 53. This discussion of the funds' objectives and principal strategies is false and  
 10 misleading in that it does not disclose that an additional objective to increase investments in the  
 11 fund by use of a strategy of paying revenue-sharing kickbacks of fund assets to selling agents to  
 12 incentivize new investments.

13 54. Next, the prospectus discusses "Shareholder Fees" and "Annual Fund Operating  
 14 Expenses." *See Exhibit B attached hereto.*

15 55. The table setting forth "Shareholder Fees" and "Annual Fund Operating  
 16 Expenses" is false and misleading because it fails to state that portions of the "Annual Fund  
 17 Operating Expenses" are in fact paid as kickbacks to selling agents as described in this complaint  
 18 and because it implies that the only compensation to selling agents paid by shareholders' fees are  
 19 the "sales charges."

20 56. The prospectus next discusses "Organization and Management of the Funds" as  
 21 follows:

22 A number of different entities provide services to the Funds. This section shows how  
 23 the Funds are organized, lists the entities that perform different services, and explains  
 24 how these service providers are compensated. Further information is available in the  
 Statement of Additional Information for the Funds.

25 **About Wells Fargo Funds Trust**

26 Each Fund is one of over 60 Funds of Wells Fargo Funds Trust (the "Trust"), an open-  
 27 end management investment company. The Trust was organized as a Delaware business  
 28 trust on March 10, 1999. The Board of Trustees of the Trust supervises each Fund's  
 activities, monitors its contractual arrangements with various service providers and  
 decides upon matters of general policy.

1 \* \* \*

2 The Board of Trustees of the Trust supervises the Funds' activities and approves the  
 3 selection of various companies hired to manage the Funds' operation. The major  
 4 service providers are described in the diagram below. Except for the advisors, which  
 require shareholder vote to change, if the Board believes that it is in the best interests  
 of the shareholders it may make a change in one of these companies.

5 \* \* \*

6 **The Investment Advisor**

7 Wells Fargo Bank provides portfolio management and fundamental security analysis  
 8 services as the Advisor for the Funds. Wells Fargo Bank, founded in 1852, is the oldest  
 bank in the western United States and is one of the largest banks in the United States.  
 9 Wells Fargo Bank is a wholly owned subsidiary of Wells Fargo & Company, a national  
 bank holding company. As of September 30, 1999, Wells Fargo Bank and its affiliates  
 10 managed over \$129 billion in assets. For providing investment advisory services to the  
 Asset Allocation and Index Allocation Funds, Wells Fargo is entitled to receive a fee of  
 11 0.80% of each Fund's average annual net assets.

12 The Growth Balanced Fund is a Gateway Fund that invests in various core portfolios.  
 13 Wells Fargo Bank is entitled to receive an investment advisory fee of 0.25% of the Fund's  
 average annual net assets for providing advisory services, including the determination of  
 14 the asset allocations of the Fund's investments in various core portfolios. Wells Fargo  
 Bank also acts as the Advisor to, and is entitled to receive a fee from, the core portfolios.  
 15 The total amount of investment advisory fees paid to Wells Fargo Bank as a result of the  
 Fund's investments varies depending on the Fund's allocation of assets among the various  
 16 core portfolios.

17 **Dormant Investment Advisory Arrangements**

18 Under the existing investment advisory contract for the Funds, Wells Fargo Bank has  
 19 been retained as an investment advisor for Gateway Fund assets redeemed from a core  
 portfolio and invested directly in a portfolio of securities. Wells Fargo Bank does not  
 20 receive any compensation under this arrangement as long as a Gateway Fund invests  
 substantially all of its assets in one or more core portfolios. If a Gateway Fund redeems  
 21 assets from a core portfolio and invests them directly, Wells Fargo Bank receives an  
 investment advisory fee from the Gateway Fund for the management of those assets.

22 **The Sub-Advisors**

23 Barclays Global Fund Advisors ("BGFA"), a wholly owned subsidiary of Barclays  
 24 Global Investors, N.A. ("BGI"), is the sub-advisor for the Asset Allocation and Index  
 Allocation Funds. In this capacity, it is responsible for the model that is used to manage  
 25 the investment portfolio and the selection of securities for the portfolio. As of November  
 30, 1999, BGI managed or provided investment advice for assets aggregating in excess of  
 26 \$738 billion.

1 Wells Capital Management Incorporated ("WCM"), Galliard Capital Management, Inc.  
 2 ("Gilliard"), Peregrine Capital Management, Inc. ("Peregrine"), wholly-owned  
 3 subsidiaries of Norwest Bank Minnesota, N.A., Smith Asset Management Group, LP  
 4 ("Smith Group") and Schroder Investment Management North America, Inc.  
 ("Schroder") are each sub-advisors to certain core portfolios in which the Growth  
 Balanced Fund invests.

5 WCM, which is located at 525 Market Street, 10th Floor, San Francisco, California  
 6 94163, is a wholly owned investment advisor subsidiary of Wells Fargo Bank, N.A.  
 7 WCM provides advisory services for registered mutual funds, company retirement plans,  
 foundations, endowments, trust companies, and high net worth individuals. As of  
 December 31, 1999, WCM provided advisory services for over \$71 billion in assets.

8 Peregrine, which is located at LaSalle Plaza, 800 LaSalle Avenue, Suite 1850,  
 9 Minneapolis, Minnesota 55402, is an investment adviser subsidiary of Norwest Bank  
 10 Minnesota, N.A. Peregrine provides investment advisory services to corporate and public  
 11 pension plans, profit sharing plans, savings investment plans and 401(k) plans. As of  
 December 31, 1999, Peregrine managed approximately \$8.1 billion in assets.

12 Galliard, which is located at LaSalle Plaza, 800 LaSalle Avenue, Suite 2060,  
 13 Minneapolis, Minnesota 55479, is an investment adviser subsidiary of Norwest Bank  
 14 Minnesota, N.A. Galliard provides investment advisory services to bank and thrift  
 15 institutions, pension and profit sharing plans, trusts and charitable organizations and  
 corporate and other business entities. As of December 31, 1999, Galliard managed  
 approximately \$6.1 billion in assets.

16 Smith Group, whose principal business address is 300 Crescent Court, Suite 750, Dallas,  
 17 Texas 75201 is a registered investment adviser. Smith Group provides investment  
 18 management services to company retirement plans, foundations, endowments, trust  
 companies, and high net worth individuals using a disciplined equity style. As of  
 December 31, 1999, the Smith Group managed over \$1 billion in assets.

19 Schroder is the sub-advisor for the International Core Portfolio. Schroder, whose  
 20 principal business address is 787 7th Avenue, New York, NY 10019, is a registered  
 21 investment adviser. Schroder provides investment management services to company  
 22 retirement plans, foundations, endowments, trust companies and high net worth  
 individuals. As of September 30, 1999, Schroder managed \$36.1 billion in assets.

### 23 The Administrator

24 Wells Fargo Bank provides the Funds with administration services, including general  
 25 supervision of each Fund's operation, coordination of the other services provided to  
 26 each Fund, compilation of information for reports to the SEC and the state securities  
 27 commissions, preparation of proxy statements and shareholder reports, and general  
 28 supervision of data compilation in connection with preparing periodic reports to the  
 Trust's Trustees and officers. Wells Fargo Bank also furnishes office space and  
 certain facilities to conduct each Fund's business. For providing these services, Wells  
 Fargo Bank is entitled to receive a fee of 0.15% of the average annual net assets of  
 each Fund.

## Shareholder Servicing Plan

We have a shareholder servicing plan for each Fund class. We have agreements with various shareholder servicing agents to process purchase and redemption requests, to service shareholder accounts, and to provide other related services. For these services, each Fund pays 0.25% of its average net assets, except the Asset Allocation Fund which pays 0.10%.

## The Transfer Agent

Boston Financial Data Services, Inc. ("BFDS") provides transfer agency and dividend disbursing services to the Funds. For providing these services, BFDS receives an annual fee, certain transaction-related fees, and is reimbursed for out-of-pocket expenses incurred on behalf of the Funds.

57. The section discussing Organization and Management of the Funds is false and misleading in at least the following respects: (1) It states that the fee paid to the investment advisor is for “providing investment advisory services” when in fact a portion of that fee is not for such services at all, but rather used to market the funds by way of kickbacks to selling agents; (2) It states that the Fund pays a set percentage of assets for “shareholder servicing” when in fact the amounts paid, including the kickbacks, were much larger; (3) It states that the transfer agent receives fees for its services; in fact a portion of these fees were not for such services but were redirected to selling agents as kickbacks; (4) It fails to disclose the existence of agreements with selling agents by which a portion of fees paid by the funds were sent to those selling agents as kickbacks or to state the amount of the kickbacks; (5) It states that the Board supervises the activities of the Advisers when in fact it did not supervise or put a stop to revenue sharing practices; and (6) It implies that the Board is an independent entity when in fact it acts as an arm of the Investment Adviser Defendant.

58. Finally, the prospectus discusses the “Distribution Plan” as follows:

## Distribution Plan

We have adopted a Distribution Plan ("Plan") pursuant to Rule 12b-1 under the Investment Company Act of 1940 for the Class B and Class C shares of the Funds. The Plan authorizes the payment of all or part of the cost of preparing and distributing Prospectuses and distribution-related services, including ongoing compensation to selling agents. The Plan also provides that, if and to the extent any shareholder servicing payments are recharacterized as payments for distribution-related services, they are approved and payable under the Plan. For these services, the Class B and Class C shares of the Funds pay 0.75% of their average daily net assets on an annual basis.

1 These fees are paid out of the Funds' assets on an ongoing basis. Over time, these fees  
 2 will increase the cost of your investment and may cost you more than paying other types  
 of sales charges.

3

4 This passage was false and misleading in the following respects: (1) By mentioning only Class  
 5 B and C shares, it implies that no ongoing fees were being paid for distribution-related services  
 6 by Class A shareholders, when in fact all shareholders were footing the bill for such services  
 7 through revenue sharing kickbacks; (2) It states that improperly paid shareholder servicing fees  
 8 will be subject to the rule 12b-1 cap, when in fact they were not, because they were paid along  
 9 with other revenue sharing kickbacks to the same selling agents; and (3) Defendants did not  
 10 comply with rule 12b-1 because they paid revenue sharing kickbacks without following the  
 11 requirements of that rule for Board approval, findings of benefit to investors, and full investor  
 12 disclosure.

13 **Additional Prospectuses**

14 **February 1, 2001 Asset Allocation Funds**

15 59. The February 1, 2001 prospectus for the Asset Allocation Funds is substantially  
 16 identical to the 2000 prospectus and is false and misleading for the same reasons stated above.

17 **February 1, 2002 Asset Allocation Funds**

18 60. The February 1, 2002 prospectus for the Asset Allocation Funds is substantially  
 19 identical to the 2000 prospectus and is false and misleading for the same reasons stated above.

20 61. Additionally, the February 1, 2002 prospectus adds a brief statement about  
 21 "additional payments" as follows:

22 In addition to payments received from the Funds, selling or  
 23 shareholder servicing agents may receive significant additional  
 24 payments directly from the Adviser, the Distributor, or their affiliates  
 in connection with the sale of Fund shares.

25 This additional disclosure is false and misleading in the following respects. First, the language  
 26 was not placed anywhere near the applicable text regarding strategies, shareholder fees, or  
 27 organization and management of the funds. Instead, it appeared on a page near the end of the  
 28 prospectus. The placement of the text seems deliberately designed to hide it from investors who

1 might be looking for it. Second, the statement that selling agents “may” receive additional fees  
 2 are materially misleading because in fact there already were set agreements to pay such fees, in  
 3 specific amounts to specific firms. Third, the statement does not disclose the amount of the  
 4 additional fees, nor the fact that the “additional fees” were *greater than* the amount of fees for  
 5 disclosed purposes such as shareholder servicing and 12b-1 fees, as set forth *infra*. Fourth, the  
 6 statement does not disclose that the source of the “additional payments” were fees charged to the  
 7 investors by the funds, and then sent by the funds to the investment advisor, or that the  
 8 investment advisor’s only source of income was fees earned from the funds. Fifth, the statement  
 9 does not disclose to whom the additional payments were being made, which made it impossible  
 10 for investors to determine if the selling agents with whom they were dealing had a conflict of  
 11 interest or were potentially biased. Sixth, the statement does not disclose that the payments were  
 12 made in exchange for preferential marketing treatment by the selling agents.

13 **February 1, 2003 Asset Allocation Funds**

14 62. The February 1, 2003 prospectus for the Wells Fargo Asset Allocation Funds is  
 15 substantially identical to the February 1, 2002 prospectus and is false and misleading for the  
 16 same reasons.

17 **February 1, 2004 Asset Allocation Funds**

18 63. The February 1, 2004 prospectus for the Wells Fargo Asset Allocation Funds is  
 19 substantially identical to the February 1, 2002 prospectus and is false and misleading for the  
 20 same reasons.

21 64. Additionally, the February 1, 2004 prospectus for the Wells Fargo Asset  
 22 Allocation Funds adds a brief statement about “additional payments” which is slightly longer  
 23 than the February 1, 2002 prospectus. It provides as follows:

24 In addition to payments received from the Funds, selling or  
 25 shareholder servicing agents may receive significant additional  
 26 payments directly from the adviser, the distributor, or their affiliates in  
 27 connection with the sale of Fund shares. These amounts may be fixed  
 28 dollar amounts or a percentage of sales or both, and may be up-front or  
 ongoing payments or both. Agents may agree to provide a marketing  
 or servicing advantages to the Funds in return for the payments.  
 Selling or shareholder servicing agents, in turn, may pay some or all of  
 these amounts to their employees who recommend or sell Fund shares

1 or make investment decisions on behalf of clients. Payments made  
 2 with respect to the Funds may differ from those made with respect to  
 3 other mutual funds available through the agent and could influence the  
 4 agent's recommendations or decisions. Prospective investors should  
 5 consult with their selling or shareholder servicing agent if they wish to  
 6 request further information regarding these matters.

7  
 8 This additional disclosure is false and misleading in the nearly all the same respects as the  
 9 shorter disclosure used between February 1, 2002 and January 31, 2004. First, the language was  
 10 not placed anywhere near the applicable text regarding strategies, shareholder fees, or  
 11 organization and management of the funds. Instead, it appeared on a page near the end of the  
 12 prospectus. The placement of the text seems deliberately designed to hide it from investors who  
 13 might be looking for it. Second, the statement that selling agents "may" receive additional fees  
 14 are materially misleading because in fact there already were set agreements to pay such fees, in  
 15 specific amounts to specific firms. Third, the statement does not disclose the amount of the  
 16 additional fees, nor the fact that the "additional fees" were *greater than* the amount of fees for  
 17 disclosed purposes such as shareholder servicing and 12b-1 fees, as set forth *infra*. Fourth, the  
 18 statement does not disclose that the source of the "additional payments" were fees charged to the  
 19 investors by the funds, and then sent by the funds to the investment advisor or that the  
 20 investment advisor's only source of income was fees earned from the funds. Fifth, the statement  
 21 does not disclose to whom the additional payments were being made, which made it impossible  
 22 for investors to determine if the selling agents with whom they were dealing had a conflict of  
 23 interest or were potentially biased.

**February 1, 2005 Asset Allocation Funds**

24 65. The February 1, 2005 prospectus for the Wells Fargo Asset Allocation Funds is  
 25 substantially identical to the February 1, 2004 prospectus and is false and misleading for the  
 26 same reasons.

**April 11, 2005 Asset Allocation Funds**

27 66. The April 11, 2005 prospectus for the Wells Fargo Asset Allocation Funds is  
 28 substantially identical to the February 1, 2004 prospectus and is false and misleading for the  
 same reasons.

1       67. Finally, the April 11, 2005 Asset Allocation Funds prospectus discusses  
 2 “additional payments” with a slightly longer passage than the February 1, 2004 Asset Allocation  
 3 Funds prospectus, as follows:

4       In addition to payments received from the Funds for distribution and  
 5 shareholder servicing, the Adviser, the Funds’ distributor or their  
 6 affiliates, may pay out of their own assets, and at no cost to the Funds,  
 7 significant amounts to selling or shareholder servicing agents in  
 8 connection with the sale and distribution of shares of the Funds or for  
 9 services to the Funds and their shareholders.

10       In return for these payments, the Funds may receive certain marketing  
 11 or servicing advantages including, without limitation, inclusion of the  
 12 Funds on a selling agent’s “preferred list”; providing “shelf space” for  
 13 the placement of the funds on a list of mutual funds offered as  
 14 investment options to its clients; granting access to a selling agent’s  
 15 registered representatives; providing assistance in training and  
 16 educating the selling agent’s registered representatives and furnishing  
 17 marketing support and other related services. Additionally, the Funds  
 18 and their shareholders may receive certain services including, but not  
 19 limited to, establishing and maintaining accounts and records;  
 20 answering inquiries regarding purchases, exchanges and redemptions;  
 21 processing and verifying purchase, redemption and exchange  
 22 transactions; furnishing account statements and confirmations of  
 23 transactions; processing and mailing monthly statements, prospectuses,  
 24 shareholder reports and other SEC-required communications, and  
 25 providing services that might typically be provided by a Fund’s  
 26 transfer agent (e.g., the maintenance of omnibus or omnibus-like  
 accounts, the use of the National Securities Clearing Corporation for  
 the transmission of transaction information and the transmission of  
 shareholder mailings).

18       Payments made by the Funds’ Adviser, distributor or their affiliates,  
 19 for the advantages and services described above, may be fixed dollar  
 20 amounts, may be based on a percentage of sales and/or assets under  
 21 management or a combination of the above, and may be up-front or  
 22 ongoing payments or both. Such payments may be based on the  
 23 number of customer accounts maintained by the selling or shareholder  
 24 servicing agent, or based on a percentage of the value of shares sold to,  
 25 or held by, customers of the selling or shareholder servicing agent, and  
 26 may differ among selling and shareholder servicing agents.

23       In addition, representatives of the Funds’ distributor visit selling  
 24 agents on a regular basis to educate their registered representatives and  
 25 to encourage the sale of Fund shares. The costs associated with such  
 26 visits and any arrangement, such as sponsoring various contests and  
 promotions to encourage the sale of Fund shares, may be paid for by  
 the Adviser, the Funds’ distributor or its affiliates, subject to  
 applicable NASD regulations.

27       This additional disclosure is false and misleading in the nearly all the same respects as the  
 28 shorter disclosures used between February 1, 2002 and April 10, 2005. First, the language was

1 not placed anywhere near the applicable text regarding strategies, shareholder fees, or  
 2 organization and management of the funds. Instead, it appeared on a page near the end of the  
 3 prospectus. The placement of the text seems deliberately designed to hide it from investors who  
 4 might be looking for it. Second, the statement that selling agents “may” receive additional fees  
 5 is materially misleading because in fact there already were set agreements to pay such fees, in  
 6 specific amounts to specific firms. Third, the statement does not disclose the amount of the  
 7 additional fees, nor the fact that the “additional fees” were *greater than* the amount of fees for  
 8 disclosed purposes such as shareholder servicing and 12b-1 fees, as set forth *infra*. Fourth, the  
 9 statement does not disclose that the source of the “additional payments” were fees charged to the  
 10 investors by the funds, and then sent by the funds to the investment advisor, or that the  
 11 investment advisor’s only source of income was fees earned from the funds. Instead it states  
 12 falsely that the provision of these payments are at “no cost to the Funds.” Fifth, the statement  
 13 does not disclose to whom the additional payments were being made, which made it impossible  
 14 for investors to determine if the selling agents with whom they were dealing had a conflict of  
 15 interest or were potentially biased.

16 **February 1, 2006 Asset Allocation Funds**

17 68. The February 1, 2006 prospectus for the Wells Fargo Asset Allocation Funds is  
 18 substantially identical to the April 11, 2005 prospectus and is false and misleading for the same  
 19 reasons.

20 **Exemplar Prospectus: August 1, 2000 Money Market Funds**

21 69. On or about August 1, 2000 Wells Fargo issued a single prospectus that covered  
 22 the following Wells Fargo Funds: Wells Fargo California Tax-Free Money Market Fund,  
 23 Government Money Market Fund, Minnesota Money Market Fund, Money Market Fund,  
 24 National Tax-Free Money Market Fund, Treasury Plus Money Market Fund, and 100% Treasury  
 25 Money Market Fund (collectively “Money Market Funds”). The August 1, 2000 Money Market  
 26 Fund Prospectus provided in relevant part as follows:

27 70. First, the prospectus discussed the funds’ “Fund—Objective—Principal Strategy”  
 28 and stated:

1 California Tax-Free Money Market Fund. Seeks current income exempt from federal  
 2 income tax and California personal income tax, while preserving capital and liquidity.  
 3 We invest primarily in high-quality, short-term California municipal securities.

4 Government Money Market Fund. Seeks current income, while preserving capital and  
 5 liquidity. We invest in short-term U.S. Government obligations, including repurchase  
 agreements.

6 Minnesota Money Market Fund. Seeks current income exempt from federal income tax  
 7 and Minnesota personal income tax, while preserving capital and liquidity. We invest  
 8 primarily in high quality, short-term Minnesota municipal securities.

9 Money Market Fund. Seeks current income, while preserving capital and liquidity. We  
 invest primarily in high-quality money market instruments.

10 National Tax-Free Money Market Fund. Seeks current income exempt from federal  
 11 income taxes, while preserving capital and liquidity. We invest primarily in high quality,  
 12 short-term municipal securities.

13 Treasury Plus Money Market Fund. Seeks current income, while preserving capital and  
 14 liquidity. We invest primarily in obligations issued or guaranteed by the U.S. Treasury,  
 including repurchase agreements.

15 100% Treasury Money Market Fund. Seeks current income that is exempt from most  
 16 state and local personal income taxes, while preserving capital and liquidity. We invest  
 only in obligations issued or guaranteed by the U.S. Treasury.

17 71. This discussion of the funds' objectives and principal strategies is false and  
 18 misleading in that it does not disclose that an additional objective to increase investments in the  
 19 fund by use of a strategy of paying revenue-sharing kickbacks of fund assets to selling agents to  
 20 incentivize new investments.

21 72. Next, the prospectus discusses "Shareholder Fees" and "Annual Fund Operating  
 22 Expenses." *See Exhibit B attached hereto.*

23 73. The table setting forth "Shareholder Fees" and "Annual Fund Operating  
 24 Expenses" is false and misleading because it fails to state that portions of the "Annual Fund  
 25 Operating Expenses" are in fact paid as kickbacks to selling agents as described in this complaint  
 26 and because it implies that the only compensation to selling agents paid by shareholders' fees are  
 27 the "sales charges."

74. The prospectus next discusses “Organization and Management of the Funds” as follows:

A number of different entities provide services to the Funds. This section shows how the Funds are organized, lists the entities that perform different services, and explains how these service providers are compensated. Further information is available in the Statement of Additional Information for the Funds.

## **About Wells Fargo Funds Trust**

Wells Fargo Funds Trust (the "Trust") was organized as a Delaware business trust on March 10, 1999. The Board of Trustees of the Trust supervises each Fund's activities, monitors its contractual arrangements with various service providers and decides upon matters of general policy.

\* \* \*

The Board of Trustees of Wells Fargo Funds Trust supervises the Funds' activities and approves the selection of various companies hired to manage the Funds' operation. The major service providers are described in the diagram below. Except for the advisors, which require shareholder vote to change, if the Board believes that it is in the best interest of the shareholders, it may make a change in one of these companies.

\* \* \*

## The Investment Advisor

Wells Fargo Bank provides portfolio management and fundamental security analysis services as the advisor for each of the Funds. Wells Fargo Bank, founded in 1852, is the oldest bank in the western United States and is one of the largest banks in the United States. Wells Fargo Bank is a wholly owned subsidiary of Wells Fargo & Company, a national bank holding company. As of March 31, 2000, Wells Fargo Bank and its affiliates managed over \$168 billion in assets. For providing these services, Wells Fargo Bank is entitled to receive fees as shown in the table of Annual Fund Operating Expenses under "Management Fees" in the front of this Prospectus.

## The Sub-Advisor

Wells Capital Management Incorporated ("WCM"), a wholly owned subsidiary of Wells Fargo Bank, is the sub-advisor for each of the Funds. As of March 31, 2000, WCM provided investment advice for assets aggregating in excess of \$80 billion.

## The Administrator

Wells Fargo Bank provides the Funds with administration services, including general supervision of each Fund's operation, coordination of the other services provided to each Fund, compilation of information for reports to the SEC and the state securities commissions, preparation of proxy statements and shareholder reports, and general supervision of data compilation in connection with preparing periodic reports to the Trustees and officers. Wells Fargo Bank also furnishes office space and certain facilities to conduct each Fund's business. For providing these services Wells Fargo Bank is entitled to receive a fee of 0.15% of the average annual net assets of each Fund.

## Shareholder Servicing Plan

We have a shareholder servicing plan for each Fund. Under this plan, we have agreements with various shareholder servicing agents to process purchase and redemption requests, to service shareholder accounts, and to provide other related services. For these services, each Fund pays 0.25% of its average net assets.

## The Transfer Agent

Boston Financial Data Services, Inc. ("BFDS") provides transfer agency and dividend disbursing services to the Funds. For providing these services, BFDS receives an annual fee, certain transaction-related fees, and is reimbursed for out-of-pocket expenses incurred on behalf of the Funds.

75. The section discussing Organization and Management of the Funds is false and misleading in at least the following respects: (1) It states that the fee paid to the investment advisor is for “providing [investment advisory] services” when in fact a portion of that fee is not for such services at all, but rather used to market the funds by way of kickbacks to selling agents; (2) It states that the Fund pays a set percentage of assets for “shareholder servicing” when in fact the amounts paid, including the kickbacks, were much larger; (3) It states that the transfer agent receives fees for its services; in fact a portion of these fees were not for such services but were redirected to selling agents as kickbacks; (4) It fails to disclose the existence of agreements with selling agents by which a portion of fees paid by the funds were sent to those selling agents as kickbacks or to state the amount of the kickbacks; (5) It states that the Board supervises the activities of the Advisers when in fact it did not supervise or put a stop to revenue sharing practices; and (6) It implies that the Board is an independent entity when in fact it acts as an arm of the Investment Adviser Defendant.

76. Finally, the prospectus discusses the “Distribution Plan” as follows:

## Distribution Plan

We have adopted a Distribution Plan ("Plan") pursuant to Rule 12b-1 of the 1940 Act for the Class B shares of the Money Market Fund. The Plan authorizes the payment of all or part of the cost of preparing and distributing Prospectuses and distribution-related services including ongoing compensation to selling agents. The Plan also provides that, if and to the extent any shareholder servicing payments are recharacterized as payments for distribution-related services, they are approved and payable under the distribution plan. For these services the Class B shares of the Money Market Fund pay 0.75% of its average net assets.

1 These fees are paid out of the Money Market Fund's assets attributable to the Class B  
 2 shares on an ongoing basis. Over time, these fees will increase the cost of your  
 3 investment and may cost you more than paying other types of sales charges.

4 Money Market Fund Class B shares are available only through certain Class B share  
 5 exchanges and for direct purchase in certain accounts.

6 This passage was false and misleading in the following respects: (1) By mentioning only Class  
 7 B and C shares, it implies that no ongoing fees were being paid for distribution-related services  
 8 by Class A shareholders, when in fact all shareholders were footing the bill for such services  
 9 through revenue sharing kickbacks; (2) It states that improperly paid shareholder servicing fees  
 10 will be subject to the rule 12b-1 cap, when in fact they were not, because they were paid along  
 11 with other revenue sharing kickbacks to the same selling agents; and (3) Defendants did not  
 12 comply with rule 12b-1 because they paid revenue sharing kickbacks without following the  
 13 requirements of that rule for Board approval, findings of benefit to investors, and full investor  
 14 disclosure.

15 **Additional Prospectuses**

16 **July 20, 2001 Money Market Funds**

17 77. The July 20, 2001 prospectus for the Money Market Funds is substantially  
 18 identical to the 2000 prospectus and is false and misleading for the same reasons stated above.

19 **August 1, 2002 Money Market Funds**

20 78. The August 1, 2002 prospectus for the Money Market Funds is substantially  
 21 identical to the 2000 prospectus and is false and misleading for the same reasons stated above.

22 79. Additionally, the August 1, 2002 prospectus adds a brief statement about  
 23 "additional payments" as follows:

24 In addition to payments received from the Funds, selling or  
 25 shareholder servicing agents may receive significant additional  
 26 payments directly from the Adviser, the Distributor, or their affiliates  
 27 in connection with the sale of Fund shares.

28 This additional disclosure is false and misleading in the following respects. First, the language  
 29 was not placed anywhere near the applicable text regarding strategies, shareholder fees, or

1 organization and management of the funds. Instead, it appeared on a page near the end of the  
 2 prospectus. The placement of the text seems deliberately designed to hide it from investors who  
 3 might be looking for it. Second, the statement that selling agents “may” receive additional fees  
 4 are materially misleading because in fact there already were set agreements to pay such fees, in  
 5 specific amounts to specific firms. Third, the statement does not disclose the amount of the  
 6 additional fees, nor the fact that the “additional fees” were *greater than* the amount of fees for  
 7 disclosed purposes such as shareholder servicing and 12b-1 fees, as set forth *infra*. Fourth, the  
 8 statement does not disclose that the source of the “additional payments” were fees charged to the  
 9 investors by the funds, and then sent by the funds to the investment advisor, or that the  
 10 investment advisor’s only source of income was fees earned from the funds. Fifth, the statement  
 11 does not disclose to whom the additional payments were being made, which made it impossible  
 12 for investors to determine if the selling agents with whom they were dealing had a conflict of  
 13 interest or were potentially biased. Sixth, the statement does not disclose that the payments were  
 14 made in exchange for preferential marketing treatment by the selling agents.

15 **August 1, 2003 Money Market Funds**

16 80. The August 1, 2003 prospectus for the Wells Fargo Money Market Funds is  
 17 substantially identical to the August 1, 2002 prospectus and is false and misleading for the same  
 18 reasons.

19 **August 1, 2004 Money Market Funds**

20 81. The August 1, 2004 prospectus for the Wells Fargo Money Market Funds is  
 21 substantially identical to the August 1, 2002 prospectus and is false and misleading for the same  
 22 reasons.

23 82. Additionally, the August 1, 2004 Money Markets Funds prospectus adds a brief  
 24 statement about “additional payments” which is slightly longer than the August 1, 2002  
 25 prospectus. It provides as follows:

26 In addition to payments received from the Funds, selling or  
 27 shareholder servicing agents may receive significant additional  
 28 payments directly from the adviser, the distributor, or their affiliates in  
 connection with the sale of Fund shares. These amounts may be fixed  
 dollar amounts or a percentage of sales or both, and may be up-front or

1 ongoing payments or both. Agents may agree to provide marketing or  
 2 servicing advantages to the Funds in return for the payments. Selling  
 3 or shareholder servicing agents, in turn, may pay some or all of these  
 4 amounts to their employees who recommend or sell Fund shares or  
 5 make investment decisions on behalf of clients. Payments made with  
 6 respect to the Funds may differ from those made with respect to other  
 7 mutual funds available through the agent and could influence the  
 8 agent's recommendations or decisions. Prospective investors should  
 9 consult with their selling or shareholder servicing agent if they wish to  
 10 request further information regarding these matters.

11 This additional disclosure is false and misleading in the nearly all the same respects as the  
 12 shorter disclosure used between August 1, 2002 and July 31, 2004. First, the language was not  
 13 placed anywhere near the applicable text regarding strategies, shareholder fees, or organization  
 14 and management of the funds. Instead, it appeared on a page near the end of the prospectus. The  
 15 placement of the text seems deliberately designed to hide it from investors who might be looking  
 16 for it. Second, the statement that selling agents "may" receive additional fees are materially  
 17 misleading because in fact there already were set agreements to pay such fees, in specific  
 18 amounts to specific firms. Third, the statement does not disclose the amount of the additional  
 19 fees, nor the fact that the "additional fees" were *greater than* the amount of fees for disclosed  
 20 purposes such as shareholder servicing and 12b-1 fees, as set forth *infra*. Fourth, the statement  
 21 does not disclose that the source of the "additional payments" were fees charged to the investors  
 22 by the funds, and then sent by the funds to the investment advisors, or that the investment  
 23 advisor's only source of income was fees earned from the funds. Fifth, the statement does not  
 24 disclose to whom the additional payments were being made, which made it impossible for  
 25 investors to determine if the selling agents with whom they were dealing had a conflict of  
 26 interest or were potentially biased.

27 **April 11, 2005 Money Market Funds**

28 83. The April 11, 2005 prospectus for the Wells Fargo Money Market Funds is  
 29 substantially identical to the August 1, 2004 prospectus and is false and misleading for the same  
 30 reasons.

1       84. Finally, the April 11, 2005 Money Market Funds prospectus discusses “additional  
 2 payments” with a slightly longer passage than the August 1, 2004 Money Market Funds  
 3 prospectus, as follows:

4                   In addition to payments made by the Funds for distribution and  
 5 shareholder servicing, the Adviser, the Funds’ distributor or their  
 6 affiliates, may pay out of their own assets, and at no cost to the Funds,  
 7 significant amounts to selling or shareholder servicing agents in  
 connection with the sale and distribution of shares of the Funds or for  
 services to the Funds and their shareholders.

8                   In return for these payments, the Funds may receive certain marketing  
 9 or servicing advantages including, without limitation, inclusion of the  
 10 Funds on a selling agent’s “preferred list”; providing “shelf space” for  
 11 the placement of the Funds on a list of mutual funds offered as  
 12 investment options to its clients; granting access to a selling agent’s  
 13 registered representatives; providing assistance in training and  
 14 educating the selling agent’s registered representatives and furnishing  
 15 marketing support and other related services. Additionally, the Funds  
 16 and their shareholders may receive certain services including, but not  
 17 limited to, establishing and maintaining accounts and records;  
 18 answering inquiries regarding purchases, exchanges and redemptions;  
 19 processing and verifying purchase, redemption and exchange  
 transactions; furnishing account statements and confirmations of  
 20 transactions; processing and mailing monthly statements, prospectuses,  
 21 shareholder reports and other SEC-required communications; and  
 22 providing the types of services that might typically be provided by a  
 23 Fund’s transfer agent (e.g., the maintenance of omnibus or omnibus—  
 24 like accounts, the use of the National Securities Clearing Corporation  
 25 for the transmission of transaction information and the transmission of  
 26 shareholder mailings).

27                   Payments made by the Funds’ Adviser, distributor or their affiliates,  
 28 for the advantages and services described above, may be fixed dollar  
 amounts, may be based on a percentage of sales and/or assets under  
 management or a combination of the above, and may be up-front or  
 ongoing payments or both. Such payments may be based on the  
 number of customer accounts maintained by the selling or shareholder  
 servicing agent, or based on a percentage of the value of shares sold to,  
 or held by, customers of the selling or shareholder servicing agent, and  
 may differ among selling and shareholder servicing agents.  
 In addition, representatives of the Funds’ distributor visit selling  
 agents on a regular basis to educate their registered representatives and  
 to encourage the sale of Fund shares. The costs associated with such  
 visits and any arrangement, such as sponsoring various contests and  
 promotions to encourage the sale of Fund shares, may be paid for by

1 the Adviser, the Funds' distributor or its affiliates, subject to  
 2 applicable NASD regulations.

3 This additional disclosure is false and misleading in the nearly all the same respects as the  
 4 shorter disclosures used between August 1, 2002 and April 10, 2005. First, the language was not  
 5 placed anywhere near the applicable text regarding strategies, shareholder fees, or organization  
 6 and management of the funds. Instead, it appeared on a page near the end of the prospectus. The  
 7 placement of the text seems deliberately designed to hide it from investors who might be looking  
 8 for it. Second, the statement that selling agents "may" receive additional fees is materially  
 9 misleading because in fact there already were set agreements to pay such fees, in specific  
 10 amounts to specific firms. Third, the statement does not disclose the amount of the additional  
 11 fees, nor the fact that the "additional fees" were *greater than* the amount of fees for disclosed  
 12 purposes such as shareholder servicing and 12b-1 fees, as set forth *infra*. Fourth, the statement  
 13 does not disclose that the source of the "additional payments" were fees charged to the investors  
 14 by the funds, and then sent by the funds to the investment advisor, or that the investment  
 15 advisor's only source of income was fees earned from the funds. Instead it states falsely that the  
 16 provision of these payments are at "no cost to the Funds." Fifth, the statement does not disclose  
 17 to whom the additional payments were being made, which made it impossible for investors to  
 18 determine if the selling agents with whom they were dealing had a conflict of interest or were  
 19 potentially biased.

20 **August 1, 2005 Money Market Funds**

21 85. The August 1, 2005 prospectus for the Wells Fargo Money Market Funds is  
 22 substantially identical to the April 11, 2005 prospectus and is false and misleading for the same  
 23 reasons.

24 **Exemplar Prospectus: October 1, 2000 Income Funds**

25 86. On or about October 1, 2000 Wells Fargo issued a single prospectus that covered  
 26 the following Wells Fargo Funds: Wells Fargo Corporate Bond Fund, Income Fund, Income Plus  
 27 Fund, Intermediate Government Income Fund, Limited Term Government Income Fund, Stable  
 28

1 Income Fund, Variable Rate Government Fund (collectively "Income Funds"). The October 1,  
 2 2000 Income Fund Prospectus provided in relevant part as follows:

3 87. First, the prospectus discussed the funds' "Fund—Objective—Principal Strategy"  
 4 and stated:

5 Corporate Bond Fund. Seeks a high level of current income, consistent with reasonable  
 6 risk. We invest primarily in investment grade corporate debt securities of any maturity.  
 7 Under normal market conditions we expect to maintain a dollar weighted average  
 8 maturity for portfolios of between 10 and 15 years. We may also invest in U.S.  
 Government obligations, and up to 25% of our assets in below investment grade  
 securities.

9 Income Fund. Seeks current income and total return. We invest in a broad spectrum of  
 10 U.S. issues, including U.S. Government obligations, mortgage- and other asset-backed  
 11 securities, and the debt securities of financial institutions, corporations, and others. We  
 12 target average portfolio duration in a range based around the average portfolio duration of  
 the mutual funds included in the Lipper Corporate A-Rated Debt Average (which is  
 currently about 5-6 years, but is expected to change frequently).

13 Income Plus Fund. Seeks to maximize income while maintaining prospects for capital  
 14 appreciation. We invest in corporate and government debt securities and income-  
 15 producing equity securities selected with particular consideration for their potential to  
 16 generate current income. We may buy debt securities that are below investment grade  
 (sometimes referred to as "junk bonds"), as well as debt rated in the lower investment  
 17 grade categories. An equity focus will be on securities issued by companies and  
 18 industries that tend to pay high ongoing dividends, such as utilities. We may also buy  
 preferred stock and other convertible securities, as well as common stock of any size  
 company.

19 Intermediate Government Income Fund. Seeks current income, consistent with safety of  
 20 principal. We invest primarily in fixed and variable rate U.S. Government obligations.  
 21 Under normal circumstances, we invest at least 65% of our total assets in U.S.  
 22 Government obligations and may invest up to 35% of our total assets in debt securities  
 that are not U.S. Government obligations. We target the average portfolio duration in a  
 range based on the average duration of 5 year U.S. Treasury securities.

23 Limited Term Government Income Fund. Seeks current income, while preserving capital.  
 24 We invest in short- to intermediate-term U.S. Government obligations. We may invest in  
 25 securities of any maturity. Under ordinary circumstances, we expect to maintain a dollar  
 weighted average maturity of between 2 and 5 years. We seek to preserve capital by  
 26 shortening average maturity when we expect interest rates to increase and to increase  
 total return by lengthening maturity when we expect interest rates to fall.

27 Stable Income Fund. Seeks stability of principal while providing low volatility total  
 28 return. The Fund is a Gateway fund that invests in short-term investment grade securities  
 which include mortgage-backed securities and U.S. Government obligations. We invest

1 in fixed and variable rate U.S. dollar-denominated fixed-income securities of U.S. and  
 2 foreign issuers, including U.S. Government obligations and the debt securities of  
 3 financial institutions, corporations, and others.

4 Variable Rate Government Fund. Seeks a high level of current income, while reducing  
 5 principal volatility, by investing primarily in adjustable rate mortgage securities. We  
 6 invest in adjustable rate mortgage securities issued or guaranteed by the U.S.  
 7 Government, its agencies and instrumentalities and we may also invest in U.S. Treasury  
 8 securities with remaining maturities of up to 5 years. We invest in obligations of any  
 9 maturity, but under ordinary conditions we will maintain a dollar weighted average  
 10 maturity of between 10 to 30 years.

11 88. This discussion of the funds' objectives and principal strategies is false and  
 12 misleading in that it does not disclose that an additional objective to increase investments in the  
 13 fund by use of a strategy of paying revenue-sharing kickbacks of fund assets to selling agents to  
 14 incentivize new investments.

15 89. Next, the prospectus discusses "Shareholder Fees" and "Annual Fund Operating  
 16 Expenses." *See Exhibit B attached hereto.*

17 90. The table setting forth "Shareholder Fees" and "Annual Fund Operating  
 18 Expenses" is false and misleading because it fails to state that portions of the "Annual Fund  
 19 Operating Expenses" are in fact paid as kickbacks to selling agents as described in this complaint  
 20 and because it implies that the only compensation to selling agents paid by shareholders' fees are  
 21 the "sales charges."

22 91. The prospectus next discusses "Organization and Management of the Funds" as  
 23 follows:

24 A number of different entities provide services to the Funds. This section shows how  
 25 the Funds are organized, lists the entities that perform different services, and explains  
 26 how these service providers are compensated. Further information is available in the  
 27 Statement of Additional Information for the Funds.

**About Wells Fargo Funds Trust**

28 Wells Fargo Funds Trust (the "Trust") was organized as a Delaware business trust on  
 29 March 10, 1999. The Board of Trustees of the Trust supervises each Fund's activities,  
 30 monitors its contractual arrangements with various service providers and decides  
 31 upon matters of general policy.

29 \* \* \*

1 The Board of Trustees of the Trust supervises the Funds' activities and approves the  
 2 selection of various companies hired to manage the Funds' operation. The major  
 3 service providers are described in the diagram below. Except for the advisors, which  
 4 require shareholder vote to change, if the Board believes that it is in the best interest  
 5 of the shareholders it may make a change in one of these companies.

6 \* \* \*

7 **The Investment Advisor**

8 Wells Fargo Bank provides portfolio management and fundamental security analysis  
 9 services as the advisor for the Funds. Wells Fargo Bank, founded in 1852, is the  
 10 oldest bank in the western United States and is one of the largest banks in the United  
 11 States. Wells Fargo Bank is a wholly owned subsidiary of Wells Fargo & Company, a  
 12 national bank holding company. As of June 30, 2000, Wells Fargo Bank and its  
 13 affiliates managed over \$161 billion in assets. For providing these services, Wells  
 14 Fargo Bank is entitled to receive fees as described in the "Summary of Expenses"  
 15 section at the front of this Prospectus.

16 **Dormant Investment Advisory Arrangements**

17 Under the existing investment advisory contract for the Funds, Wells Fargo Bank has  
 18 been retained as an investment advisor for Gateway Fund assets redeemed from a  
 19 core portfolio and invested directly in a portfolio of securities. Wells Fargo Bank does  
 20 not receive any compensation under this arrangement as long as a Gateway Fund  
 21 invests substantially all of its assets in one or more core portfolios. If a Gateway Fund  
 22 redeems assets from a core portfolio and invests them directly, Wells Fargo Bank  
 23 receives an investment advisory fee from the Gateway Fund for the management of  
 24 those assets.

25 **The Sub-Advisors**

26 Wells Capital Management Incorporated ("WCM"), a wholly owned subsidiary of Wells  
 27 Fargo Bank, is the sub-advisor for each of the Funds except the Stable Income Fund,  
 28 which invests all of its assets in a core portfolio with a substantially similar investment  
 objective and policies. As of June 30, 2000 WCM provided investment advice for assets  
 aggregating in excess of \$80 billion.

29 Galliard Capital Management, Inc. ("Galliard"), an investment advisor subsidiary of  
 30 Wells Fargo Bank, Minnesota, N.A. (Wells Fargo Bank, MN) formerly known as  
 31 Norwest Bank Minnesota, N.A. , is the investment sub-advisor for the core portfolio in  
 32 which the Stable Income Fund invests substantially all of its assets. As of June 30, 2000,  
 33 Galliard managed approximately \$6.4 billion in assets.

34 **The Administrator**

35 Wells Fargo Bank provides the Funds with administration services, including general  
 36 supervision of each Fund's operation, coordination of the other services provided to  
 37 each Fund, compilation of information for reports to the SEC and the state securities  
 38 commissions, preparation of proxy statements and shareholder reports, and general  
 supervision of data compilation in connection with preparing periodic reports to the

1 Trust's Trustees and officers. Wells Fargo Bank also furnishes office space and  
 2 certain facilities to conduct each Fund's business. For providing these services, Wells  
 3 Fargo Bank is entitled to receive a fee of 0.15% of the average annual net assets of  
 4 each Fund.

5 **Shareholder Servicing Plan**

6 We have a shareholder servicing plan for each Fund. Under this plan, we have  
 7 agreements with various shareholder servicing agents to process purchase and redemption  
 8 requests, to service shareholder accounts, and to provide other related services. For these  
 9 services, each Fund pays 0.25% of its average net assets.

10 **The Transfer Agent**

11 Boston Financial Data Services, Inc. ("BFDS") provides transfer agency and dividend  
 12 disbursing services to the Funds. For providing these services, BFDS receives an  
 13 annual fee, certain transaction-related fees, and is reimbursed for out-of-pocket  
 14 expenses incurred on behalf of the Funds.

15 92. The section discussing Organization and Management of the Funds is false and  
 16 misleading in at least the following respects: (1) It states that the fee paid to the investment  
 17 advisor is for "providing [investment advisory] services" when in fact a portion of that fee is not  
 18 for such services at all, but rather used to market the funds by way of kickbacks to selling agents;  
 19 (2) It states that the Fund pays a set percentage of assets for "shareholder servicing" when in fact  
 20 the amounts paid, including the kickbacks, were much larger; (3) It states that the transfer agent  
 21 receives fees for its services; in fact a portion of these fees were not for such services but were  
 22 redirected to selling agents as kickbacks; (4) It fails to disclose the existence of agreements with  
 23 selling agents by which a portion of fees paid by the funds were sent to those selling agents as  
 24 kickbacks or to state the amount of the kickbacks; (5) It states that the Board supervises the  
 25 activities of the Advisers when in fact it did not supervise or put a stop to revenue sharing  
 26 practices; (6) It implies that the Board is an independent entity when in fact it acts as an arm of  
 27 the Investment Adviser Defendant.

28 93. Finally, the prospectus discusses the "Distribution Plan" as follows:

29 **Distribution Plan**

30 We have adopted a Distribution Plan ("Plan") pursuant to Rule 12b-1 of the 1940 Act for  
 31 the Class B and Class C shares of the Funds. The Plan authorizes the payment of all or  
 32 part of the cost of preparing and distributing prospectuses and distribution-related  
 33 services, including ongoing compensation to *selling agents*. The Plan also provides that,

1 if and to the extent any shareholder servicing payments are recharacterized as payments  
 2 for distribution-related services, they are approved and payable under the Plan. The fees  
 3 paid under this Plan are as follows:

FUND	CLASS B	CLASS C
Corporate Bond Fund	0.75%	0.75%
Income Fund	0.75%	N/A
Income Plus Fund	0.75%	0.75%
Intermediate Government Income Fund	0.75%	0.75%
Limited Term Government Income Fund	0.75%	N/A
Stable Income Fund	0.75%	N/A
Variable Rate Government Fund	N/A	N/A

11 These fees are paid out of the Funds' assets on an ongoing basis. Over time, these fees  
 12 will increase the cost of your investment and may cost you more than paying other types  
 13 of sales charges.

14 This passage was false and misleading in the following respects: (1) By mentioning only Class  
 15 B and C shares, it implies that no ongoing fees were being paid for distribution-related services  
 16 by Class A shareholders, when in fact all shareholders were footing the bill for such services  
 17 through revenue sharing kickbacks; (2) It states that improperly paid shareholder servicing fees  
 18 will be subject to the rule 12b-1 cap, when in fact they were not, because they were paid along  
 19 with other revenue sharing kickbacks to the same selling agents; and (3) Defendants did not  
 20 comply with rule 12b-1 because they paid revenue sharing kickbacks without following the  
 21 requirements of that rule for Board approval, findings of benefit to investors, and full investor  
 22 disclosure.

23 **Additional Prospectuses**

24 **October 1, 2001 Income Funds**

25 94. The October 1, 2001 prospectus for the Income Funds is substantially identical to  
 26 the 2000 prospectus and is false and misleading for the same reasons stated above.

1 **October 1, 2002 Income Funds**

2 95. The October 1, 2002 prospectus for the Income Funds is substantially identical to  
 3 the 2000 prospectus and is false and misleading for the same reasons stated above.

4 96. Additionally, the October 1, 2002 prospectus adds a brief statement about  
 5 “additional payments” as follows:

6 In addition to payments received from the Funds, selling or  
 7 shareholder servicing agents may receive significant additional  
 8 payments directly from the Adviser, the Distributor, or their affiliates  
 in connection with the sale of Fund shares.

9 This additional disclosure is false and misleading in the following respects. First, the language  
 10 was not placed anywhere near the applicable text regarding strategies, shareholder fees, or  
 11 organization and management of the funds. Instead, it appeared on a page near the end of the  
 12 prospectus. The placement of the text seems deliberately designed to hide it from investors who  
 13 might be looking for it. Second, the statement that selling agents “may” receive additional fees  
 14 are materially misleading because in fact there already were set agreements to pay such fees, in  
 15 specific amounts to specific firms. Third, the statement does not disclose the amount of the  
 16 additional fees, nor the fact that the “additional fees” were *greater than* the amount of fees for  
 17 disclosed purposes such as shareholder servicing and 12b-1 fees, as set forth *infra*. Fourth, the  
 18 statement does not disclose that the source of the “additional payments” were fees charged to the  
 19 investors by the funds, and then sent by the funds to the investment advisors or that the  
 20 investment advisor’s only source of income was fees earned from the funds. Fifth, the statement  
 21 does not disclose to whom the additional payments were being made, which made it impossible  
 22 for investors to determine if the selling agents with whom they were dealing had a conflict of  
 23 interest or were potentially biased. Sixth, the statement does not disclose that the payments were  
 24 made in exchange for preferential marketing treatment by the selling agents.

25 **June 9, 2003 Income Funds**

26 97. The June 9, 2003 prospectus for the Wells Fargo Income Funds is substantially  
 27 identical to the October 1, 2002 prospectus and is false and misleading for the same reasons.

28 **October 1, 2003 Income Funds**

1       98. The October 1, 2003 prospectus for the Wells Fargo Income Funds is  
 2 substantially identical to the October 1, 2002 prospectus and is false and misleading for the same  
 3 reasons.

4 **October 1, 2004 Income Funds**

5       99. The October 1, 2004 prospectus for the Wells Fargo Income Funds is  
 6 substantially identical to the October 1, 2002 prospectus and is false and misleading for the same  
 7 reasons.

8       100. Additionally, the October 1, 2004 Income Funds prospectus adds a brief statement  
 9 about “additional payments” which is slightly longer than the October 1, 2002 prospectus. It  
 10 provides as follows:

11       In addition to payments received from the Funds, selling or  
 12 shareholder servicing agents may receive significant additional  
 13 payments directly from the adviser, the distributor, or their affiliates in  
 14 connection with the sale of Fund shares. These amounts may be fixed  
 15 dollar amounts or a percentage of sales or both, and may be up-front or  
 16 ongoing payments or both. Agents may agree to provide marketing or  
 17 servicing advantages to the Funds in return for the payments. Selling  
 18 or shareholder servicing agents, in turn, may pay some or all of these  
 amounts to their employees who recommend or sell Fund shares or  
 make investment decisions on behalf of clients. Payments made with  
 respect to the Funds may differ from those made with respect to other  
 mutual funds available through the agent and could influence the  
 agent’s recommendations or decisions. Prospective investors should  
 consult with their selling or shareholder servicing agent if they wish to  
 request further information regarding these matters.

19 This additional disclosure is false and misleading in the nearly all the same respects as the  
 20 shorter disclosure used between October 1, 2002 and September 30, 2004. First, the language  
 21 was not placed anywhere near the applicable text regarding strategies, shareholder fees, or  
 22 organization and management of the funds. Instead, it appeared on a page near the end of the  
 23 prospectus. The placement of the text seems deliberately designed to hide it from investors who  
 24 might be looking for it. Second, the statement that selling agents “may” receive additional fees  
 25 are materially misleading because in fact there already were set agreements to pay such fees, in  
 26 specific amounts to specific firms. Third, the statement does not disclose the amount of the  
 27 additional fees, nor the fact that the “additional fees” were *greater than* the amount of fees for  
 28 disclosed purposes such as shareholder servicing and 12b-1 fees, as set forth *infra*. Fourth, the

1 statement does not disclose that the source of the “additional payments” were fees charged to the  
 2 investors by the funds, and then sent by the funds to the investment advisors, or that the  
 3 investment advisor’s only source of income was fees earned from the funds. Fifth, the statement  
 4 does not disclose to whom the additional payments were being made, which made it impossible  
 5 for investors to determine if the selling agents with whom they were dealing had a conflict of  
 6 interest or were potentially biased.

7 **April 11, 2005 Income Funds**

8 101. The April 11, 2005 prospectus for the Wells Fargo Income Funds is substantially  
 9 identical to the October 1, 2004 prospectus and is false and misleading for the same reasons.

10 102. Finally, the April 11, 2005 Income Funds prospectus discusses “additional  
 11 payments” with a slightly longer passage than the October 1, 2004 Income Funds prospectus, as  
 12 follows:

13 In addition to payments made by the Funds for distribution and  
 14 shareholder servicing, the Adviser, the Funds’ distributor or their  
 15 affiliates, may pay out of their own assets, and at no cost to the Funds,  
 16 significant amounts to selling or shareholder servicing agents in  
 connection with the sale and distribution of shares of the Funds or for  
 services to the Funds and their shareholders.

17 In return for these payments, the Funds may receive certain marketing  
 18 or servicing advantages including, without limitation, inclusion of the  
 19 Funds on a selling agent’s “preferred list”; providing “shelf space” for  
 20 the placement of the Funds on a list of mutual funds offered as  
 21 investment options to its clients; granting access to a selling agent’s  
 22 registered representatives; providing assistance in training and  
 23 educating the selling agent’s registered representatives and furnishing  
 24 marketing support and other related services. Additionally, the Funds  
 25 and their shareholders may receive certain services including, but not  
 26 limited to, establishing and maintaining accounts and records;  
 27 answering inquiries regarding purchases, exchanges and redemptions;  
 28 processing and verifying purchase, redemption and exchange  
 transactions; furnishing account statements and confirmations of  
 transactions; processing and mailing monthly statements, prospectuses,  
 shareholder reports and other SEC-required communications; and  
 providing the types of services that might typically be provided by a  
 Fund’s transfer agent (e.g., the maintenance of omnibus or omnibus-  
 like accounts, the use of the National Securities Clearing Corporation  
 for the transmission of transaction information and the transmission of  
 shareholder mailings).

1 Payments made by the Funds' Adviser, distributor or their affiliates,  
 2 for the advantages and services described above, may be fixed dollar  
 3 amounts, may be based on a percentage of sales and/or assets under  
 4 management or a combination of the above, and may be up-front, or  
 5 ongoing payments or both. Such payments may be based on the  
 6 number of customer accounts maintained by the selling or shareholder  
 7 servicing agent, or based on a percentage of the value of shares sold to,  
 8 or held by, customers of the selling or shareholder servicing agent, and  
 9 may differ among selling and shareholder servicing agents.

10 In addition, representatives of the Funds' distributor visit selling  
 11 agents on a regular basis to educate their registered representatives and  
 12 to encourage the sale of Fund shares. The costs associated with such  
 13 visits and any arrangement, such as sponsoring various contests and  
 14 promotions to encourage the sale of Fund shares, may be paid for by  
 15 the Adviser, the Funds' distributor or its affiliates, subject to  
 16 applicable NASD regulations.

17 This additional disclosure is false and misleading in the nearly all the same respects as the  
 18 shorter disclosures used between October 1, 2002 and April 10, 2005. First, the language was  
 19 not placed anywhere near the applicable text regarding strategies, shareholder fees, or  
 20 organization and management of the funds. Instead, it appeared on a page near the end of the  
 21 prospectus. The placement of the text seems deliberately designed to hide it from investors who  
 22 might be looking for it. Second, the statement that selling agents "may" receive additional fees  
 23 is materially misleading because in fact there already were set agreements to pay such fees, in  
 24 specific amounts to specific firms. Third, the statement does not disclose the amount of the  
 25 additional fees, nor the fact that the "additional fees" were *greater than* the amount of fees for  
 26 disclosed purposes such as shareholder servicing and 12b-1 fees, as set forth *infra*. Fourth, the  
 27 statement does not disclose that the source of the "additional payments" were fees charged to the  
 28 investors by the funds, and then sent by the funds to the investment advisors, or that the  
 investment advisor's only source of income was fees earned from the funds. Instead it states  
 falsely that the provision of these payments are at "no cost to the Funds." Fifth, the statement  
 does not disclose to whom the additional payments were being made, which made it impossible

1 for investors to determine if the selling agents with whom they were dealing had a conflict of  
 2 interest or were potentially biased.

3 **October 1, 2005 Income Funds**

4 103. The October 1, 2005 prospectus for the Wells Fargo Income Funds is  
 5 substantially identical to the April 11, 2005 prospectus and is false and misleading for the same  
 6 reasons.

7 **Exemplar Prospectus: October 1, 2000 WealthBuilder Funds**

8 104. On or about October 1, 2000 Wells Fargo issued a single prospectus that covered  
 9 the following Wells Fargo Funds: Wells Fargo WealthBuilder Growth Portfolio, WealthBuilder  
 10 Growth Balanced Portfolio, and WealthBuilder Growth and Income Portfolio (collectively  
 11 “WealthBuilder Funds”). The October 1, 2000 WealthBuilder Fund Prospectus provided in  
 12 relevant part as follows:

13 105. First, the prospectus discussed the funds’ “Fund—Objective—Principal Strategy”  
 14 and stated:

15 Growth Portfolio. The Portfolio seeks long-term capital appreciation with no emphasis on  
 16 income. The Growth Portfolio blends equity mutual funds with diverse investment styles.  
 17 Included are: large company growth stocks--for their strong earnings growth potential;  
 18 large company value stocks--representing out-of-favor companies with relatively higher  
 19 dividends for greater return potential; small company stocks--for their dramatic growth  
 opportunities.

20 The Portfolio's diversification helps to moderate volatility by limiting the effect of one  
 21 style that is under-performing, while increasing the likelihood of participation when one  
 22 style is out-performing through the active asset allocation approach. The Portfolio seeks  
 to achieve its objective by allocating its assets among equity styles through a number of  
 affiliated and non-affiliated funds.

23 Growth Balanced Portfolio. The Portfolio seeks a balance of capital appreciation and  
 24 current income. The Growth Balanced Portfolio is a highly diversified investment,  
 25 consisting of both equity and fixed-income (bond) mutual funds, with an emphasis on  
 26 stocks. Stocks offer long-term growth potential, while bonds help to decrease risk and  
 provide income, making this investment appropriate for long-term investors who desire  
 less volatility than an all-stock portfolio.

27 The equity holdings are diversified across many investment styles, including large  
 28 company growth, large company value, small company, and international. The bond

1 holdings are also diversified across a wide range of income producing securities,  
 2 including U.S. Government bonds, corporate bonds, below investment grade bonds and  
 3 foreign issues. The Portfolio's diversification helps to moderate volatility by limiting the  
 4 effect of one asset class that is under-performing, while increasing the likelihood of  
 5 participation when one asset class is out-performing through an active stock/bond asset  
 6 allocation approach. The Portfolio seeks to achieve its objective by allocating its assets  
 7 across asset classes of stocks and bonds through a number of affiliated and non-affiliated  
 8 funds.

9  
 10 Growth and Income Portfolio. The Portfolio seeks long-term capital appreciation with a  
 11 secondary emphasis on income. The Growth and Income Portfolio is a diversified equity  
 12 investment. It holds mutual funds that employ different and complementary investment  
 13 styles to provide potential for both growth and income. Included are: large company  
 14 growth stocks--for their strong earnings growth potential; large company value stocks--  
 15 representing out-of-favor companies with relatively higher dividends for greater total  
 16 return potential; small company stocks--for their dramatic growth potential; and  
 17 international stocks--for increased diversification and global growth opportunities.

18 The Portfolio's emphasis on diversification helps to moderate volatility by limiting the  
 19 effect of one style that is under-performing, while also increasing the likelihood of  
 20 participation when one style is out-performing. The Portfolio seeks to achieve its  
 21 objective by allocating its assets among equity styles through a number of affiliated and  
 22 non-affiliated funds.

23 106. This discussion of the funds' objectives and principal strategies is false and  
 24 misleading in that it does not disclose that an additional objective to increase investments in the  
 25 fund by use of a strategy of paying revenue-sharing kickbacks of fund assets to selling agents to  
 26 incentivize new investments.

27 107. Next, the prospectus discusses "Shareholder Fees" and "Annual Fund Operating  
 28 Expenses." *See Exhibit B attached hereto.*

29 108. The table setting forth "Shareholder Fees" and "Annual Fund Operating  
 30 Expenses" is false and misleading because it fails to state that portions of the "Annual Fund  
 31 Operating Expenses" are in fact paid as kickbacks to selling agents as described in this complaint  
 32 and because it implies that the only compensation to selling agents paid by shareholders' fees are  
 33 the "sales charges."

34 109. The prospectus next discusses "Organization and Management of the Funds" as  
 35 follows:

36 A number of different entities provide services to the Portfolios. This section shows  
 37 how the Portfolios are organized, the entities that perform different services, and how

1 they are compensated. Further information is available in the Statement of Additional  
 2 Information for the Portfolios.

3 **About Wells Fargo Funds Trust**

4 Wells Fargo Funds Trust (the "Trust") was organized as a Delaware business trust on  
 5 March 10, 1999. The Board of Trustees of the Trust supervises each Portfolio's  
 6 activities, monitors its contractual arrangements with various service providers and  
 7 decides upon matters of general policy.

8 \* \* \*

9 The Board of Trustees of Wells Fargo Funds Trust supervises the Portfolios' activities  
 10 and approves the selection of various companies hired to manage the Portfolios'  
 11 operation. The major service providers are described in the diagram below. Except for  
 12 the advisors, which require shareholder vote to change, if the Board believes that it is  
 13 in the best interest of the shareholders it may make a change in one of these  
 14 companies.

15 \* \* \*

16 **The Investment Advisor**

17 Wells Fargo Bank provides portfolio management and fundamental security analysis  
 18 services as the advisor for each of the Portfolios. Wells Fargo Bank also serves as the  
 19 advisor and, in most cases, affiliates of Wells Fargo Bank serve as sub-advisor for each  
 20 affiliated Underlying Fund. Wells Fargo Bank, founded in 1852, is the oldest bank in the  
 21 western United States and is one of the largest banks in the United States. Wells Fargo  
 22 Bank is a wholly owned subsidiary of Wells Fargo & Company, a national bank holding  
 23 company. As of June 30, 2000, Wells Fargo Bank and its affiliates managed over \$161  
 24 billion in assets. For providing these services, Wells Fargo Bank is entitled to receive  
 0.35% of the average daily net assets of each Portfolio.

25 **Fees from Underlying Funds**

26 Wells Fargo Bank and its affiliates may receive fees from the Underlying Funds for  
 27 providing various services to the Underlying Funds. For example, Wells Fargo Bank  
 28 may receive investment advisory fees from the Underlying Funds or distribution fees  
 pursuant to a Rule 12b-1 plan or fees for providing shareholder services or sub-  
 transfer agent services. These fees are separate from and in addition to fees received  
 by Wells Fargo Bank and its affiliates for providing services to the Portfolios. These  
 fees may differ among the Underlying Funds. As investment advisor to each  
 Portfolio, Wells Fargo Bank selects Underlying Funds and makes allocation decisions  
 in accordance with the Portfolio's investment objective and consistent with the best  
 interests of the Portfolio's shareholders.

29 **The Administrator**

30 Wells Fargo Bank provides the Portfolios with administration services, including general  
 31 supervision of each Portfolio's operation, coordination of the other services provided to  
 32 each Portfolio, compilation of information for reports to the SEC and the state securities  
 33 commissions, preparation of proxy statements and shareholder reports, and general  
 34 supervision of data compilation in connection with preparing periodic reports to the

1 Trust's Trustees and officers. Wells Fargo Bank also furnishes office space and certain  
 2 facilities to conduct each Portfolio's business. For providing these services, Wells Fargo  
 3 Bank is entitled to receive a fee of up to 0.15% of the average annual net assets of each  
 Portfolio.

4 **The Transfer Agent**

5 Boston Financial Data Services, Inc. ("BFDS") provides transfer agency and dividend  
 6 disbursing services to the Portfolios. For providing these services, BFDS receives an  
 7 annual fee, certain transaction-related fees, and is reimbursed for out-of-pocket expenses  
 incurred on behalf of the Portfolios.

8 110. The section discussing Organization and Management of the Funds is false and  
 9 misleading in at least the following respects: (1) It states that the fee paid to the investment  
 10 advisor is for "providing [investment advisory] services" when in fact a portion of that fee is not  
 11 for such services at all, but rather used to market the funds by way of kickbacks to selling agents;  
 12 (2) It states that the Fund pays a pre-approved amount for "shareholder servicing" when in fact  
 13 the amounts paid, including the kickbacks, were much larger; (3) It states that the transfer agent  
 14 receives fees for its services; in fact a portion of these fees were not for such services but were  
 15 redirected to selling agents as kickbacks; (4) It fails to disclose the existence of agreements with  
 16 selling agents by which a portion of fees paid by the funds were sent to those selling agents as  
 17 kickbacks or to state the amount of the kickbacks; (5) It states that the Board supervises the  
 18 activities of the Advisers when in fact it did not supervise or put a stop to revenue sharing  
 19 practices; and (6) It implies that the Board is an independent entity when in fact it acts as an arm  
 20 of the Investment Adviser Defendant.

21 111. Finally, the prospectus discusses the "Distribution Plan" as follows:

22 **Distribution Plan**

23 We have adopted a Distribution Plan ("Plan") pursuant to Rule 12b-1 under the  
 24 Investment Company Act of 1940 for Portfolio shares. The Plan authorizes the payment  
 25 of all or part of the cost of preparing and distributing Prospectuses and distribution-  
 related services, including ongoing compensation to selling agents. The Plan also  
 26 provides that, if and to the extent any shareholder servicing payments are recharacterized  
 27 as payments for distribution-related services, they are approved and payable under the  
 Plan. The fees paid under this Plan are 0.75% per Portfolio.

1 These fees are paid out of the Portfolios' assets on an on-going basis. Over time, these  
 2 fees will increase the cost of your investment and may cost you more than paying other  
 types of sales charges.

3 This passage was false and misleading in the following respects: (1) It states that improperly  
 4 paid shareholder servicing fees will be subject to the rule 12b-1 cap, when in fact they were not,  
 5 because they were paid along with other revenue sharing kickbacks to the same selling agents;  
 6 and (2) Defendants did not comply with rule 12b-1 because they paid revenue sharing kickbacks  
 7 without following the requirements of that rule for Board approval, findings of benefit to  
 8 investors, and full investor disclosure.

9 **Additional Prospectuses**

10 **October 1, 2001 WealthBuilder Funds**

11 112. The October 1, 2001 prospectus for the WealthBuilder Funds is substantially  
 12 identical to the 2000 prospectus and is false and misleading for the same reasons stated above.

13 **October 1, 2002 WealthBuilder Funds**

14 113. The October 1, 2002 prospectus for the WealthBuilder Funds is substantially  
 15 identical to the 2000 prospectus and is false and misleading for the same reasons stated above.

16 114. Additionally, the October 1, 2002 WealthBuilder Funds prospectus adds a brief  
 17 statement about "additional payments" as follows:

18 In addition to payments received from the Portfolios, selling agents  
 19 may receive significant additional payments directly from the Adviser,  
 the Distributor, or their affiliates in connection with the sale of  
 20 Portfolio shares.

21 This additional disclosure is false and misleading in the following respects. First, the language  
 22 was not placed anywhere near the applicable text regarding strategies, shareholder fees, or  
 23 organization and management of the funds. Instead, it appeared on a page near the end of the  
 24 prospectus. The placement of the text seems deliberately designed to hide it from investors who  
 25 might be looking for it. Second, the statement that selling agents "may" receive additional fees  
 26 are materially misleading because in fact there already were set agreements to pay such fees, in  
 27 specific amounts to specific firms. Third, the statement does not disclose the amount of the  
 28 additional fees, nor the fact that the "additional fees" were *greater than* the amount of fees for

1 disclosed purposes such as shareholder servicing and 12b-1 fees, as set forth *infra*. Fourth, the  
 2 statement does not disclose that the source of the “additional payments” were fees charged to the  
 3 investors by the funds, and then sent by the funds to the investment advisor, or that the  
 4 investment advisor’s only source of income was fees earned from the funds. Fifth, the statement  
 5 does not disclose to whom the additional payments were being made, which made it impossible  
 6 for investors to determine if the selling agents with whom they were dealing had a conflict of  
 7 interest or were potentially biased. Sixth, the statement does not disclose that the payments were  
 8 made in exchange for preferential marketing treatment by the selling agents.

9 **October 1, 2003 WealthBuilder Funds**

10 115. The October 1, 2003 prospectus for the Wells Fargo WealthBuilder Funds is  
 11 substantially identical to the October 1, 2002 prospectus and is false and misleading for the same  
 12 reasons.

13 **October 1, 2004 WealthBuilder Funds**

14 116. The October 1, 2004 prospectus for the Wells Fargo WealthBuilder Funds is  
 15 substantially identical to the October 1, 2002 prospectus and is false and misleading for the same  
 16 reasons.

17 117. Additionally, the October 1, 2004 WealthBuilder Funds prospectus adds a brief  
 18 statement about “additional payments” which is slightly longer than the October 1, 2002  
 19 prospectus. It provides as follows:

20 In addition to payments received from the Portfolios, selling or  
 21 shareholder servicing agents may receive significant additional  
 22 payments directly from the adviser, the distributor, or their affiliates in  
 23 connection with the sale of Portfolio shares. These amounts may be  
 24 fixed dollar amounts or a percentage of sales or both, and may be up-  
 25 front or ongoing payments or both. Agents may agree to provide  
 26 marketing or servicing advantages to the Portfolios in return for the  
 27 payments. Selling or shareholder servicing agents, in turn, may pay  
 28 some or all of these amounts to their employees who recommend or  
 sell Portfolio shares or make investment decisions on behalf of clients.  
 Payments made with respect to the Portfolios may differ from those  
 made with respect to other mutual funds available through the agent  
 and could influence the agent’s recommendations or decisions.  
 Prospective investors should consult with their selling or shareholder  
 servicing agent if they wish to request further information regarding  
 these matters.

1 This additional disclosure is false and misleading in the nearly all the same respects as the  
 2 shorter disclosure used between October 1, 2002 and September 30, 2004. First, the language  
 3 was not placed anywhere near the applicable text regarding strategies, shareholder fees, or  
 4 organization and management of the funds. Instead, it appeared on a page near the end of the  
 5 prospectus. The placement of the text seems deliberately designed to hide it from investors who  
 6 might be looking for it. Second, the statement that selling agents “may” receive additional fees  
 7 are materially misleading because in fact there already were set agreements to pay such fees, in  
 8 specific amounts to specific firms. Third, the statement does not disclose the amount of the  
 9 additional fees, nor the fact that the “additional fees” were *greater than* the amount of fees for  
 10 disclosed purposes such as shareholder servicing and 12b-1 fees, as set forth *infra*. Fourth, the  
 11 statement does not disclose that the source of the “additional payments” were fees charged to the  
 12 investors by the funds, and then sent by the funds to the investment advisor, or that the  
 13 investment advisor’s only source of income was fees earned from the funds. Fifth, the statement  
 14 does not disclose to whom the additional payments were being made, which made it impossible  
 15 for investors to determine if the selling agents with whom they were dealing had a conflict of  
 16 interest or were potentially biased.

17 **April 11, 2005 WealthBuilder Funds**

18 118. The April 11, 2005 prospectus for the Wells Fargo WealthBuilder Funds is  
 19 substantially identical to the October 1, 2004 prospectus and is false and misleading for the same  
 20 reasons.

21 119. Finally, the April 11, 2005 WealthBuilder Funds prospectus discusses “additional  
 22 payments” with a slightly longer passage than the October 1, 2004 WealthBuilder Funds  
 23 prospectus, as follows:

24       In addition to payments made by the Funds for distribution and  
 25 shareholder servicing, the Adviser, the Funds’ distributor or their  
 26 affiliates, may pay out of their own assets, and at no cost to the Funds,  
 27 significant amounts to selling or shareholder servicing agents in  
 connection with the sale and distribution of shares of the Funds or for  
 services to the Funds and their shareholders.

1 In return for these payments, the Funds may receive certain marketing  
 2 or servicing advantages including, without limitation, inclusion of the  
 3 Funds on a selling agent's "preferred list"; providing "shelf space" for  
 4 the placement of the Funds on a list of mutual funds offered as  
 5 investment options to its clients; granting access to a selling agent's  
 6 registered representatives; providing assistance in training and  
 7 educating the selling agent's registered representatives and furnishing  
 8 marketing support and other related services. Additionally, the Funds  
 9 and their shareholders may receive certain services including, but not  
 10 limited to, establishing and maintaining accounts and records;  
 11 answering inquiries regarding purchases, exchanges and redemptions;  
 12 processing and verifying purchase, redemption and exchange  
 13 transactions; furnishing account statements and confirmations of  
 14 transactions; processing and mailing monthly statements, prospectuses,  
 15 shareholder reports and other SEC-required communications; and  
 16 providing the types of services that might typically be provided by a  
 17 Portfolio's transfer agent (e.g., the maintenance of omnibus or  
 18 omnibus-like accounts, the use of the National Securities Clearing  
 19 Corporation for the transmission of transaction information and the  
 20 transmission of shareholder mailings).

21 Payments made by the Funds' Adviser, distributor or their affiliates,  
 22 for the advantages and services described above, may be fixed dollar  
 23 amounts, may be based on a percentage of sales and/or assets under  
 24 management or a combination of the above, and may be up-front or  
 25 ongoing payments or both. Such payments may be based on the  
 26 number of customer accounts maintained by the selling or shareholder  
 27 servicing agent, or based on a percentage of the value of shares sold to,  
 28 or held by, customers of the selling or shareholder servicing agent, and  
 29 may differ among selling and shareholder servicing agents.

30 In addition, representatives of the Funds' distributor visit selling  
 31 agents on a regular basis to educate their registered representatives and  
 32 to encourage the sale of Fund shares. The costs associated with such  
 33 visits and any arrangement, such as sponsoring various contests and  
 34 promotions to encourage the sale of Portfolio shares, may be paid for  
 35 by the Adviser, the Portfolios' distributor or its affiliates, subject to  
 36 applicable NASD regulations.

37 This additional disclosure is false and misleading in the nearly all the same respects as the  
 38 shorter disclosures used between October 1, 2002 and April 10, 2005. First, the language was  
 39 not placed anywhere near the applicable text regarding strategies, shareholder fees, or  
 40 organization and management of the funds. Instead, it appeared on a page near the end of the  
 41 prospectus. The placement of the text seems deliberately designed to hide it from investors who

1 might be looking for it. Second, the statement that selling agents “may” receive additional fees  
 2 is materially misleading because in fact there already were set agreements to pay such fees, in  
 3 specific amounts to specific firms. Third, the statement does not disclose the amount of the  
 4 additional fees, nor the fact that the “additional fees” were *greater than* the amount of fees for  
 5 disclosed purposes such as shareholder servicing and 12b-1 fees, as set forth *infra*. Fourth, the  
 6 statement does not disclose that the source of the “additional payments” were fees charged to the  
 7 investors by the funds, and then sent by the funds to the investment advisor, or that the  
 8 investment advisor’s only source of income was fees earned from the funds. Instead it states  
 9 falsely that the provision of these payments are at “no cost to the Funds.” Fifth, the statement  
 10 does not disclose to whom the additional payments were being made, which made it impossible  
 11 for investors to determine if the selling agents with whom they were dealing had a conflict of  
 12 interest or were potentially biased.

13 **October 1, 2005 WealthBuilder Funds**

14 120. The October 1, 2005 prospectus for the Wells Fargo WealthBuilder Funds is  
 15 substantially identical to the April 11, 2005 prospectus and is false and misleading for the same  
 16 reasons.

17 **The Statements Of Additional Information Were Materially Misleading**

18 121. Each prospectus for each Wells Fargo Fund makes reference to the Statement of  
 19 Additional Information with the following (or substantially the following) language:

20 **YOU MAY WISH TO REVIEW THE FOLLOWING DOCUMENTS:**

21 **STATEMENT OF ADDITIONAL INFORMATION** supplements the disclosures  
 22 made by this Prospectus. The Statement of Additional Information has been filed with  
 23 the SEC and incorporated by reference into this Prospectus and is legally part of this  
 24 Prospectus.

25 122. The Statement of Additional Information for each of the funds was misleading in  
 26 the same fashion. For example, one Statement of Additional Information is provided for the  
 27 Disciplined Growth Fund, Diversified Equity Fund, Diversified Small Cap Fund, Equity Income  
 28 Fund, Equity Index Fund, Equity Value Fund, Growth Fund, Growth Equity Fund, Index Fund,  
 International Equity Fund, International Fund, Large Company Growth Fund, Small Cap Growth

1 Fund, Small Cap Opportunities Fund, Small Cap Value Fund, Small Company Growth Fund,  
 2 share classes A, B, C, O and Institutional, dated February 1, 2000, and states in relevant part as  
 3 follows:

4 123. First, the Statement of Additional Information states the following regarding the  
 5 duties of the investment advisor:

6 Investment Advisor. Subject to the general supervision of the Board, Wells Fargo  
 7 Bank provides investment advisory services to the Funds. As investment advisor,  
 8 Wells Fargo Bank furnishes investment guidance and policy direction in connection  
 9 with the daily portfolio management of the Funds. Wells Fargo Bank furnishes to the  
 Trust's Board of Trustees periodic reports on the investment strategies and  
 performance of each Fund.

10 The Funds operate under three types of advisory arrangements: (i) stand- alone  
 11 Funds with an investment advisor and sub-advisor; (ii) gateway feeder Funds that  
 12 invest in a single corresponding core portfolio of Wells Fargo Core Trust ("Core  
 Trust") and have "dormant" advisory arrangements at the gateway level; and (iii)  
 gateway blended Funds that invest in two or more core portfolios and have both  
 active and dormant advisory arrangements at the gateway level.

13 This statement is false and misleading in at least the following respects, as further described in  
 14 this Complaint: (1) the Board did not supervise the investment advisor, and (2) the investment  
 15 advisor did not report to the Board on the existence or scope of the revenue sharing  
 16 arrangements.

17 124. Next the Statement of Additional Information discusses the compensation of the  
 18 investment advisor. This information is provided in Exhibit C attached hereto.

19 This information is false and misleading because the fees paid did not in fact go for advisory  
 20 services, but instead a portion were used to pay revenue sharing kickbacks.

21 125. Next, the Statement of Additional Information discusses the Investment Sub-  
 22 Advisors. It states that "As compensation for sub-advisory services ... [the Sub-Advisors]  
 23 entitled to receive the following fees" and then lists a fee table. This information is false and  
 24 misleading because a portion of the fee paid was not for sub-advisory services but was  
 25 redistributed to selling agents, including Wells Fargo Investments and H.D. Vest, as revenue  
 26 sharing kickbacks.

27 126. Next, the Statement of Additional Information discusses the Administrator. It  
 28 provides as follows:

1 Administrator. The Trust has retained Wells Fargo Bank as Administrator on behalf  
 2 of each Fund. Under the Administration Agreement between Wells Fargo Bank and  
 3 the Trust, Wells Fargo Bank shall provide as administration services, among other  
 4 things: (i) general supervision of the Funds' operations, including coordination of the  
 5 services performed by each Fund's investment advisor, transfer agent, custodian,  
 6 shareholder servicing agent(s), independent auditors and legal counsel, regulatory  
 7 compliance, including the compilation of information for documents such as reports  
 8 to, and filings with, the SEC and state securities commissions; and preparation of  
 proxy statements and shareholder reports for each Fund; and (ii) general supervision  
 relative to the compilation of data required for the preparation of periodic reports  
 distributed to the Trust's officers and Board of Trustees. Wells Fargo Bank also  
 furnishes office space and certain facilities required for conducting the Funds'  
 business together with ordinary clerical and bookkeeping services. The  
 Administrator is entitled to receive a fee of up to 0.15% of each Fund's average daily  
 net assets on an annual basis.

9 This information is false and misleading because a portion of the fee paid was not for the  
 10 administrative services provided but instead but was redistributed to selling agents as revenue  
 11 sharing kickbacks.

12 127. Next, the Statement of Additional Information discusses the Distributor. It  
 13 provides as follows:

14 Distributor. Stephens Inc. ("Stephens," the "Distributor"), located at 111 Center  
 15 Street, Little Rock, Arkansas 72201, serves as Distributor for the Funds. The Funds  
 16 have adopted a distribution plan (a "Plan") under Section 12(b) of the 1940 Act and  
 Rule 12b-1 thereunder (the "Rule") for their Class B and Class C shares. The Plan  
 17 was adopted by the Trust's Board of Trustees, including a majority of the Trustees  
 who were not "interested persons" (as defined in the 1940 Act) of the Funds and who  
 had no direct or indirect financial interest in the operation of the Plan or in any  
 18 agreement related to the Plan (the "Non-Interested Trustees").

19 Under the Plan and pursuant to the related Distribution Agreement, the Class B and  
 20 Class C shares of the Funds pay Stephens up to 0.75% of the average daily net assets  
 attributable to each Class as compensation for distribution- related services or as  
 reimbursement for distribution-related expenses.

21 The actual fee payable to the Distributor by the above-indicated Funds and Classes is  
 22 determined, within such limits, from time to time by mutual agreement between the  
 Trust and the Distributor and will not exceed the maximum sales charges payable by  
 23 mutual funds sold by members of the National Association of Securities Dealers, Inc.  
 ("NASD") under the Conduct Rules of the NASD. The Distributor may enter into  
 24 selling agreements with one or more selling agents (which may include Wells Fargo  
 Bank and its affiliates) under which such agents may receive compensation for  
 25 distribution-related services from the Distributor, including, but not limited to,  
 commissions or other payments to such agents based on the average daily net assets  
 of Fund shares attributable to their customers. The Distributor may retain any portion  
 26 of the total distribution fee payable thereunder to compensate it for distribution-  
 related services provided by it or to reimburse it for other distribution-related  
 27 expenses.

8  
9  
10  
11  
12  
13  
1415       128. Next, the Statement of Additional Information discusses the rule 12b-1 plan as  
16 follows:17       General. The Plan will continue in effect from year to year if such continuance is  
18 approved by a majority vote of both the Trustees of the Trust and the Non-Interested  
19 Trustees. Any Distribution Agreement related to the Plan also must be approved by  
20 such vote of the Trustees and the Non-Interested Trustees. Such Agreement will  
21 terminate automatically if assigned, and may be terminated at any time, without  
22 payment of any penalty, by a vote of a majority of the outstanding voting securities of  
23 the relevant class of the Fund or by vote of a majority of the Non-Interested Trustees  
24 on not more than 60 days' written notice. The Plan may not be amended to increase  
25 materially the amounts payable thereunder without the approval of a majority of the  
26 outstanding voting securities of the Fund, and no material amendment to the Plan may  
be made except by a majority of both the Trustees of the Trust and the Non-  
Interested Trustees.27       The Plan requires that the Treasurer of Trust shall provide to the Trustees, and the  
28 Trustees shall review, at least quarterly, a written report of the amounts expended  
(and purposes therefor) under the Plan. The Rule also requires that the selection and  
nomination of Trustees who are not "interested persons" of the Trust be made by such  
disinterested Trustees.27       Wells Fargo Bank, an interested person (as that term is defined in Section 2(a)(19) of  
28 the 1940 Act) of the Trust, acts as a selling agent for the Funds' shares pursuant to  
selling agreements with Stephens authorized under the Plan. As a selling agent, Wells  
Fargo Bank has an indirect financial interest in the operation of the Plan. The Board

1 of Trustees has concluded that the Plan is reasonably likely to benefit the Funds and  
 2 their shareholders because the Plan authorizes the relationships with selling agents,  
 3 including Wells Fargo Bank, that have previously developed distribution channels  
 4 and relationships with the retail customers that the Funds are designed to serve.  
 5 These relationships and distribution channels are believed by the Board to provide  
 6 potential for increased Fund assets and ultimately corresponding economic  
 7 efficiencies (i.e., lower per-share transaction costs and fixed expenses) that are  
 8 generated by increased assets under management.

9  
 10 These statements are false and misleading in that: (1) The revenue sharing kickbacks, though  
 11 subject to rule 12b-1, were not approved in the method stated; (2) The statements falsely imply  
 12 that there were no payments from the funds for purposes subject to rule 12b-1 other than the  
 13 payments pursuant to the 12b-1 plan; (3) The revenue sharing payments did not benefit the funds  
 14 and their shareholders but rather decreased the value of investors' assets for the benefit of  
 15 Defendants; and (4) No economic efficiencies that benefited investors were derived from the  
 16 revenue sharing arrangements.

17 129. Next, the Statement of Additional Information discusses the Shareholder  
 18 Servicing Plan and Shareholder Servicing Agents. It states:

19 Shareholder Servicing Agent. The Funds have approved a Servicing Plan and have  
 20 entered into related Shareholder Servicing Agreements with financial institutions,  
 21 including Wells Fargo Bank. Under the agreements, Shareholder Servicing Agents  
 22 (including Wells Fargo Bank) agree to perform, as agents for their customers,  
 23 administrative services, with respect to Fund shares, which include aggregating and  
 24 transmitting shareholder orders for purchases, exchanges and redemptions;  
 25 maintaining shareholder accounts and records; and providing such other related  
 26 services as the Trust or a shareholder may reasonably request. For providing  
 27 shareholder services, a Servicing Agent is entitled to a fee from the applicable Fund  
 28 as indicated below on an annualized basis, of the average daily net assets of the class  
 29 of shares owned of record or beneficially by the customers of the Servicing Agent  
 30 during the period for which payment is being made. The amounts payable under the  
 31 Shareholder Servicing Plan and Agreements are shown below. The Servicing Plan  
 32 and related Shareholder Servicing Agreements were approved by the Trust's Board of  
 33 Trustees and provide that a Fund shall not be obligated to make any payments under  
 34 such Plan or related Agreements that exceed the maximum amounts payable under  
 35 the Conduct Rules of the NASD.

Fund	Fee
Diversified Equity	
Class A	0.25%
Class B	0.25%
Class C	0.25%
Institutional Class	N/A
Large Company Growth	

1	Class A	0.25%
2	Class B	0.25%
2	Class C	0.25%
3	Institutional Class	N/A
4	Small Cap Growth	
5	Class A	0.25%
5	Class B	0.25%
5	Class C	0.25%
5	Institutional Class	0.10%

6  
7 General. The Servicing Plan will continue in effect from year to year if such  
8 continuance is approved by a majority vote of the Trustees of the Trust, and the Non-  
9 Interested Trustees. Any form of Servicing Agreement related to the Servicing Plan  
10 also must be approved by such vote of the Trustees and the Non- Interested Trustees.  
11 Servicing Agreements may be terminated at any time, without payment of any  
12 penalty, by a vote of a majority of the Board of Trustees, including a majority of the  
13 Non-Interested Trustees. No material amendment to the Servicing Plan or related  
14 Servicing Agreements may be made except by a majority of both the Trustees of the  
15 Trust and the Non-Interested Trustees.

16 The Servicing Plan requires that the Administrator of the Trust shall provide to the  
17 Trustees, and the Trustees shall review, at least quarterly, a written report of the  
18 amounts expended (and purposes therefor) under the Servicing Plan.

19 This information is false and misleading because: (1) Defendants made revenue sharing  
20 payments to shareholder servicing agents (aka selling agents) far in excess of the disclosed  
21 shareholder servicing fees; (2) Defendants failed to secure the vote of trustees or non-interested  
22 trustees to approve such payments; and (3) Defendants failed to provide the trustees of written  
23 reports of such payments.

24 130. Finally, the Statement of Additional Information discusses the Custodian, as  
25 follows:

26 Custodian. Norwest Bank Minnesota, N.A. ("Norwest Bank"), located at Norwest  
27 Center, 6th and Marquette, Minneapolis, Minnesota 55479, acts as custodian for each  
28 Fund except for the International Equity Fund for which Investors Bank & Trust  
Company ("IBT"), located at 200 Clarendon Street, Boston, Massachusetts 02116,  
acts as custodian. The custodian, among other things, maintains a custody account or  
accounts in the name of each Fund, receives and delivers all assets for each Fund  
upon purchase and upon sale or maturity, collects and receives all income and other  
payments and distributions on account of the assets of each Fund and pays all  
expenses of each Fund. For its services as custodian, Norwest Bank is entitled to  
receive 0.02% of the average daily net assets of each Fund except the Gateway Funds.  
The Gateways Funds are not charged a custody fee at the Gateway level, provided  
that they remain Gateway Funds and Norwest Bank receives custodial fees for the  
Core Trust Portfolios. With respect to the International Equity Fund, IBT is entitled to  
receive a domestic custody fee of 0.01% of the average daily net assets of the Fund  
and transaction fees and basis point fees depending on the county in which the foreign  
assets are held.

1 This information is false and misleading because, in fact, a portion of the fees paid to the  
 2 custodian were not for “services as custodian” but instead were redistributed from the custodian  
 3 to other Wells Fargo entities that acted as selling agents for the funds, as “profit sharing”, a.k.a.  
 4 revenue sharing kickbacks. The recipients of these monies included Wells Fargo Investments,  
 5 H.D. Vest, and First Allied Securities.

6 **All Wells Fargo Funds Prospectuses and Statements Of Additional Information  
 Were Identically False And Misleading**

7  
 8 131. Every prospectus for every Wells Fargo Fund issued during the Class Period  
 9 contained identical or substantially identical statements in the false and misleading categories of  
 10 the Prospectus discussed above, namely, the fund’s “objective and principal strategies,” the  
 11 “Shareholder Fees,” and the “Organization and Management of the Funds.” Each of the  
 12 prospectuses also incorporated by reference Statements of Additional Information, which  
 13 contained identical or substantially identical statements in the false and misleading categories of  
 14 the Statement of Additional Information discussed above, namely, Duties of Investment Advisor,  
 15 Compensation of Investment Advisor, Investment Sub Advisors, Administrator, Distributor, 12b-  
 16 1 Plan, Shareholder Servicing Plan and Shareholder Servicing Agent, and Custodian. These  
 17 sections of each prospectus and Statement of Additional Information for each Wells Fargo Fund  
 18 were false and misleading during the entire Class Period in the same respects set forth above.

10  
11  
12  
13  
14  
1516 133. These so-called disclosures were inadequate because they merely described  
17 payments that “may” be made when, in truth, the Investment Adviser Defendant had *already*  
18 entered into firm kickback arrangements. These statements left the impression that the payment  
19 might or might not materialize when it was, in reality, already a done deal. Nor do these  
20 statements adequately disclose that the payments were for preferential marketing of the Wells  
21 Fargo Funds over other mutual funds and that those payments created inherent conflicts of  
22 interests.23 134. SEC enforcement actions confirm the insufficiency of Defendants’ disclosures.  
24 The SEC has ruled in similar cases that such prospectus disclosures are not adequate. *See* SEC  
25 Order Instituting Administrative and Cease-And-Desist Proceedings, Making Findings, and  
26 Imposing Remedial Sanctions, In the Matter of Massachusetts Financial Services Company, Mar.

9 **The Investment Adviser Knew of The Kickback Scheme**

10 135. According to internal Wells Fargo documents as well as sworn testimony from  
11 corporate representatives of Defendant WFFM, Defendants had actual knowledge of the

## PARAGRAPH REDACTED

144. Notably, several of the selling agents listed directly above already have been fined  
and censured by the SEC and/or NASD for the kickback arrangements at issue here. For  
example, on December 1, 2005, the SEC announced the fine and censure of American Express  
(now known as Ameriprise) because it “failed to adequately disclose millions of dollars in  
revenue sharing payments that it received from a select group of mutual fund companies.” *See*  
December 1, 20005 press release, *American Express Financial Advisors (now know as*  
*Ameriprise Financial Services, Inc.) to Pay \$30 Million to Settle Revenue Sharing Charges* at  
<http://www.sec.gov/news/press/2005-168.htm>. As explained in the SEC’s Cease-and-Desist  
Order brought against American Express:

### **AEFA Did Not Adequately Disclose Its Revenue Sharing Programs To Its Customers**

AEFA did not make adequate disclosures to its brokerage customers relating to  
its receipt of revenue sharing payments from the inception of the program  
through approximately August 2004. Instead, AEFA relied on incomplete  
disclosures in its brokerage application, in some of its brochures and in the  
prospectuses and Statements of Additional Information (“SAIs”) of the mutual  
fund families that participated in the Preferred Provider and Select Group  
programs to disclose its revenue sharing practices. Although the mutual fund  
families’ prospectuses and SAIs contained various disclosures concerning  
payments to broker-dealers distributing their funds, many of these documents  
did not adequately disclose the source and the amount of the revenue sharing  
payments to AEFA and the dimensions of the resulting conflicts of interest.

None of the disclosures made by the participating mutual fund families  
indicated that many of AEFA’s financial advisors were given financial  
incentives of paying reduced or no ticket charges for the sale of Preferred,  
Strategic, Select and Associate fund families at AEFA or that those financial  
advisors did not receive similar incentives for the sales of fund families that did  
not pay revenue sharing.

Moreover, these disclosures did not disclose the conflict of interest created by  
AEFA’s selection of mutual fund families for participation in its distribution  
system based in part on the financial incentives provided to AEFA, including

1 in some cases, the receipt of payments for distribution of fund shares through  
 2 "step-outs."  
 3

4 In the Matter of American Express Financial Advisors, Inc. (now known as Ameriprise  
 5 Financial Advisors, Inc.) Order Instituting Administrative and Cease-and-Desist  
 6 Proceedings, SEC File No. 3-12115 at 6 available at <http://www.sec.gov/litigation/admin/33-8637.pdf> .  
 7

8 145. Although the SEC did not disclose the names of any of the mutual fund  
 9 companies involved in paying revenue-sharing kickbacks to American Express, the internal  
 10 Wells Fargo documents discussed above reveal that Wells Fargo was one of the mutual fund  
 11 companies making such payments to American Express that were the subject of the SEC cease  
 12 and desist order based, in part, on inadequate disclosures in the prospectuses of the participants –  
 13 i.e. Wells Fargo. Additionally, in a parallel action by the New Hampshire Bureau of Securities  
 14 Regulation ("New Hampshire Bureau") against American Express for the type of kickback  
 15 payments at issue here, the New Hampshire Bureau identified Wells Fargo as one of the mutual  
 16 fund companies making the revenue-sharing kickback payments to American Express. *See State*  
*17 of New Hampshire Department of State Bureau of Securities Regulation, Staff Petition for Relief*  
*18 in the Matter of American Express Financial Advisors, Inc. INV04-122 at 5 available at*  
*19 http://www.sos.nh.gov/securities/EnforceOrderINV04-122.pdf*  
 20

21 146. Likewise, as stated above, both Wells Fargo Investments and H.D. Vest were  
 22 fined and censured by the NASD for their receipt of revenue-sharing kickbacks from Defendant  
 23 WFFM, among others.

13  
14  
15  
16  
17                   **The Amount Of Kickbacks Paid Was Material**

18       154. According to a Wells Fargo computation created in the *Siemers* action, just under  
19       \$360 million of the fees paid during the Class Period by the Wells Fargo Funds to the Investment  
20       Adviser Defendant were transferred to selling agents. Defendants have stated that of the almost  
21       \$360 million, only \$17 million was paid as 12b-1 fees. The remaining more than \$350 million  
22       were undisclosed kickbacks at the heart of this case. These kickbacks included \$101 million in  
23       revenue sharing payments, \$82 million in profit sharing payments, \$140 million in questionable  
24       and excessive “shareholder service fees” and \$8 million in “undifferentiated” payments. While  
25       the Prospectuses contain disclosures about the payments of shareholder servicing and 12b-1 fees,  
26       there are no disclosures whatsoever about the *larger amount of fees* being paid in the other  
27       forms.  
28

1 155. Plaintiffs believe, furthermore, that the true size of the payments is even larger  
 2 than disclosed in the Wells Fargo computation. For example, on April 1, 2004, Catherine Vacca  
 3 of WFFM wrote to Tom Stickey of the SEC, attaching a chart showing various revenue sharing  
 4 payments. Among these were payments to Bank of New York in the following amounts: year  
 5 2001: \$2,230,796; year 2002: \$3,239,973, year 2003: \$4,315,304. None of these amounts,  
 6 however, are shown in the computation provided by Wells Fargo in this case. Furthermore,  
 7 WFFM has produced records of payments to Bank of New York for "trailer fees" for period  
 8 December 2002 through December 2003 totaling \$7,616,120.32. Nevertheless, the computation  
 9 provided by Wells Fargo in the *Siemers* case shows payments only for 2003, with nothing for  
 10 12b-1 fees and a total paid of only \$1,609.442, broken down as \$738,087 in "Shareholder  
 11 Servicing" and \$871,355 in "Revenue Share."

12 156. Counsel for the Investment Adviser Defendant had admitted in the *Siemers* case  
 13 that it is still trying to find additional information to supplement the computation, as there is a  
 14 "data gap" in the payment record.

15 157. Had it been disclosed to investors at the time the investments were made that  
 16 hundreds of millions of dollars of their fees would not be used for the purposes disclosed to  
 17 investors in the prospectuses or Statements of Additional Information, no reasonable investor  
 18 would have invested in the Wells Fargo Funds. Had it been disclosed that the amounts of  
 19 shareholder servicing fees and 12b-1 fees described in the prospectuses were *less than half* of the  
 20 total amount of payments to selling agents taken out of fees charged by the funds, no reasonable  
 21 investor would have invested in the Wells Fargo Funds. Indeed, had he or she known the truth,  
 22 no reasonable investor would have agreed to any of the amounts being paid to selling agents,  
 23 including the shareholder servicing fees, 12b-1 fees, other fees, or the loads and contingent  
 24 deferred sales charges imposed on them, which, in total, amounted to billions of dollars.

25 **Wells Fargo Treated the Funds as One Common Unit**

26 158. The Defendants treated all of the Wells Fargo Funds as one unit. All Wells Fargo  
 27 Funds shared the same Board of Directors and had the same investment adviser, Defendant  
 28 WFFM.

14  
15  
16  
17  
18  
19  
20

21       161. The fact that Defendants treated the Wells Fargo Funds as one entity is further  
22 reflected by the fact that a single entity, WFFM, was responsible for drafting and creating the  
23 prospectuses for all the Funds. Because the Wells Fargo Funds were treated as one entity,  
24 several Wells Fargo Funds would appear on the same prospectus or Statement of Additional  
25 Information, sharing the same language.

26

**PARAGRAPH REDACTED**

27  
28

1  
2                   **PARAGRAPH REDACTED**  
3

4                   163. Furthermore, investors in one fund were permitted to transfer investments to any  
5 other fund without payment of a sales load. Thus an investor in any Wells Fargo fund has an  
6 interest in the integrity of the entire fund complex.

7                   **The Investment Adviser Defendant was Responsible for the False and Misleading**  
8                   **Statements in the Wells Fargo Funds' Prospectuses and SAIs**

9                   164. The Investment Adviser Defendant was responsible for the statements made in the  
10 Wells Fargo Funds Prospectuses and SAIs and had a duty to disclose all material information in  
11 the Prospectuses and SAIs. Section 10(b) of the Securities Exchange Act of 1934 requires  
12 mutual fund investment advisers to disclose all material information. Additionally, the SEC also  
13 imposes disclosure requirements on mutual fund investment advisers through its rules and  
14 regulations, including, but not limited to, the requirements of Form N-1A. Accordingly, when a  
15 mutual fund investment adviser fails to meet the disclosure requirements imposed by the federal  
16 securities laws and the SEC, the SEC has held mutual fund investment advisers liable under the  
17 federal securities laws for failure to disclose.

18                   165. The Wells Fargo Prospectuses and SAIs state that the Investment Adviser  
19 Defendant – WFFM – was directly involved in the preparation and dissemination of the false and  
20 misleading Prospectuses and SAIs. For example, the Prospectus for Wells Fargo Advantage  
21 Large Cap Stock Funds states as follows:

22                   **Organization and Management of the Funds**

23                   **The Administrator**

24                   Funds Management provides the [Wells Fargo] Funds with administrative  
25 services, including general supervision of each Fund's operation, coordination of  
26 the other services provided to each Fund, *compilation of information for reports*  
*to the SEC and the state securities commissions, preparation of proxy*  
*statements and shareholder reports, and general supervision of data*  
*compilation in connection with preparing periodic reports to the Trust's*  
*Trustees and officers.*

1 Prospectus for Wells Fargo Advantage Large Cap Stock Funds including the Wells Fargo  
 2 Advantage Capital Growth Fund, Wells Fargo Advantage Dividend Income Fund, Wells  
 3 Fargo Advantage Growth Fund, Wells Fargo Advantage Growth and Income Fund, Wells  
 4 Fargo Advantage Large Cap Growth Fund and Wells Fargo Advantage Value Fund  
 5 effective December 1, 2005 (emphasis added).

6 166. The Statements of Additional Information to the Wells Fargo Advantage Funds  
 7 Prospectuses further underscore the significant involvement of the Investment Adviser  
 8 Defendant:

9 **Administrator**

10 The [Wells Fargo Fund] Trust has retained Funds Management (the  
 11 “Administrator”) as administrator on behalf of the Portfolios pursuant to an  
 12 Administration Agreement. Under the Administration Agreement with the Trust,  
 13 Funds Management provides, among other things: (i) general supervision of the  
 14 Portfolios’ operations, including communication, coordination and supervision  
 15 services with regard to the Portfolios’ transfer agent, custodian, fund accountant  
 16 and other service organizations that render record-keeping or shareholder  
 17 communication services; (ii) ***coordination of the preparation and filing of  
 18 reports and other information materials regarding the Portfolios, including  
 prospectuses, proxies and other shareholder communications;*** (iii) ***development  
 and implementation of procedures for monitoring compliance with regulatory  
 requirements*** and compliance with the Portfolios’ investment objectives, policies  
 19 and restrictions; and (iv) any other administrative services reasonably necessary  
 for the operation of the Portfolios other than those services that are provided by  
 the Portfolios’ transfer agent, custodian and fund accountant. Funds Management  
 also furnishes office space and certain facilities required for conducting the  
 Portfolios’ business together with ordinary clerical and bookkeeping services.

20 Wells Fargo Growth Fund SAI effective October 21, 2003 (emphasis added).

21 167. Likewise, during her testimony as a corporate representative in the *Siemers*  
 22 action, Rabusch testified that WFFM created the Wells Fargo Funds Prospectuses and SAI’s at  
 23 issue here and that WFFM is “responsible for the disclosures in the prospectuses, the creation of  
 24 them, getting them out timely – the information in them.”

25 168. In situations identical to that presented here where a mutual fund investment  
 26 adviser is responsible for “compilation of information for reports to the SEC” and engaged in  
 27 providing “revenue-sharing” kickbacks, the SEC has held the investment adviser liable for  
 28 violating the disclosure requirements of the federal securities laws and Form N-1A. For

1 example, in the SEC's cease-and-desist action against investment adviser MFS filed March 31,  
 2 2004 the SEC stated that:

3 **MFS Did Not Adequately Disclose to MFS Shareholders that it Allocated  
 4 Fund Brokerage Commissions to Satisfy Strategic Alliances**

5 **MFS was responsible for ensuring that the MFS Funds' Prospectus and SAI  
 6 were in compliance with the requirements of Form N-1A.**

7 The information the Commission requires investment companies to disclose in  
 8 prospectuses and SAIS is set forth in Form N-1A. Specifically, Item 16(c) of the  
 9 Form N-1A requires a description in the SAI of "how the fund will select brokers  
 10 to effect securities transactions for the Fund" and required that "[i]f the Fund will  
 consider the receipt of products or services other than brokerage or research  
 services in selecting brokers, [the Fund should] specify those products or  
 services."

11 From at least January 1, 2000 to November 7, 2003, MFS Funds' SAIs disclosed  
 12 that MFS may consider sales of shares of the funds as a factor in the selection of  
 13 broker-dealers to execute the MFS Funds' portfolio transactions. The SAIs did  
 14 not make the distinction, however, between directing commissions in  
 15 "consideration of fund sales" and satisfying negotiated arrangements for specific  
 16 amounts with brokerage commissions. The SAIs did not adequately disclose to  
 shareholders that MFS had entered into bilateral arrangements in which it agreed  
 to allocate specific negotiated amounts of fund brokerage commissions, subject to  
 best execution, to broker-dealers for "shelf space" or heightened visibility within  
 their distribution systems.

17 As a result of the conduct described above, MFS willfully...

18 Violated Section 34(b) of the Investment Company Act, which provides in  
 19 pertinent part that it is "unlawful for any person to make any untrue statement of a  
 20 material fact in any registration statement filed or transmitted pursuant to" the  
 21 Investment Company Act and to "omit to state therein any fact necessary in order  
 22 to prevent the statements made therein, in light of the circumstances under which  
 23 they were made, from being materially misleading."

24 169. Likewise, in the SEC's November 8, 2006 cease-and-desist proceedings against  
 25 investment adviser Hartford Investment Financial Services, LLC and its distributor Hartford  
 26 Securities Distribution Company, Inc. the SEC held that:

27 The Retail and HLS Funds provided prospectuses and statements of additional  
 28 information ("SAI") to Fund shareholders. **Hartford Investment and HL  
 Advisors prepared and distributed the Retail and HLS Funds' prospectuses and  
 SAIs, and thus were responsible for ensuring that they were accurate.**

1 \* \* \*

2 Hartford Investment and HL Advisors omitted to state additional material facts to  
 3 shareholders regarding the use of directed brokerage. Specifically the Retail  
 4 Funds' SAI and the HLS Funds' prospectus state that they may direct brokerage  
 5 commissions to broker-dealers who also sold shares of the Retail and HLS Funds.  
 6 These representations were misleading.

7 \* \* \*

8 Section 17(a)(2) and 17(a)(3) of the Securities Act prohibits any person, in the  
 9 offer or sale of securities, from making any untrue statement of a material fact, or  
 10 omitting to state a material fact necessary in order to make the statement made, in  
 11 light of the circumstances under which they were made, not misleading...

12 Section 34(b) of the Investment Company Act prohibits any person from making  
 13 any untrue statement of a material fact, or omitting to state any fact necessary in  
 14 order to prevent the statements made therein, in the light of the circumstances  
 15 under which they are made, from being materially misleading, in any registration  
 16 statement, application, report, account, record, or other document filed or  
 17 transmitted pursuant to the Investment Company Act.

18 As a result of the conduct described above, Hartford Investment and HL Advisors  
 19 willfully violated Section 17(a)(2) and 17(a)(3) of the Securities Act.

20 SEC Order Instituting Administrative and Cease-and-Desist Proceedings, Making Findings and  
 21 Imposing Remedial Sanction In the Matter of Hartford Investment Financial Services, LLC, HL  
 22 Investment Advisors, LLC, and Hartford Securities Distribution Company, Inc. dated November  
 23 6, 2006, *available at* <http://www.sec.gov/litigation/admin/2006/33-8750.pdf> (emphasis added).

24 *See also* SEC Order Instituting Administrative and Cease-and-Desist Proceedings, Making  
 25 Findings and Imposing Remedial Sanction In the Matter of Putnam Investment Management,  
 26 LLC dated March 23, 2005, *available at* <http://www.sec.gov/litigation/admin/ia-2370.pdf>  
 27 ("[investment adviser] Putnam was primarily responsible for ensuring that the Putnam Funds'  
 28 Prospectuses and SAIs were in compliance with the requirements of Form N-1A in describing  
 Putnam's trading practices for the Putnam Funds"); SEC Order Instituting Administrative and  
 Cease-and-Desist Proceedings, Making Findings and Imposing Remedial Sanction In the Matter  
 of Franklin Advisers, Inc. and Franklin/Templeton Distributors, Inc., dated December 13, 2004  
*available at* <http://www.sec.gov/litigation/admin/34-50841.htm> ("The shelf space arrangements  
 also were not adequately disclosed to the FT Shareholders. [Investment adviser] FA [Franklin

1 Advisers, Inc.] was responsible for ensuring that the disclosures made in the funds' prospectuses  
 2 and Statements of Additional Information ("SAIs") accurately described how  
 3 [distributor/underwriter] FTDI chose the broker-dealers with which it worked.").

4 **THE KICKBACKS WERE FINANCED BY EXCESSIVE FEES CHARGED TO THE  
 5 WELLS FARGO FUNDS**

6 170. During the relevant time-frame, compensation and fees paid to the Investment  
 7 Adviser rose dramatically even though the services provided by these Defendants remained the  
 8 same, and no additional benefits were provided to the Funds or their investors in return for the  
 9 additional fees. As a result, the advisory fees were excessive.

10 171. A major reason for the dramatic increase in compensation to the Investment  
 11 Adviser Defendant was the growth in the size of the Wells Fargo Funds, resulting from  
 12 Defendants' use of Wells Fargo Fund assets to promote the sale of Wells Fargo Fund shares  
 13 through participation in revenue sharing or "Shelf Space" programs. These payments resulted in  
 14 the growth of the Wells Fargo Funds, which benefited the Investment Adviser Defendant  
 15 because it allowed its advisory and other asset-based fees to increase. The aforesaid Defendant  
 16 engaged in those programs in an effort to generate increased compensation even though many of  
 17 those programs were in violation of SEC and NASD rules and regulations. Defendants engaged  
 18 in such activity despite ample evidence that the increase in their compensation was not justified  
 19 by any increase in the quality or nature of the services which they provided to the Wells Fargo  
 20 Funds or their investors, or by additional benefits to the Wells Fargo Funds or their investors.

21 172. Although an increase in mutual fund assets can benefit investors through  
 22 economies of scale that decrease the expenses of operating such funds on a per share basis,  
 23 Defendants failed to reduce their fees to pass on the economies of scale to the Wells Fargo Funds  
 24 or their investors. Instead, they utilized the economies of scale for their own benefit.

25 173. The fee structure imposed by Defendants on the Wells Fargo Funds and their  
 26 investors far exceeded the fees that would be paid as a result of arm's-length bargaining. Fees  
 27 for essentially the same services that were paid by similar funds not affiliated with Defendants  
 28 were substantially less.

1       174. In addition, Wells Fargo Fund assets were used to pay large amounts of what  
 2 essentially were “Rule 12b-1” fees to distributors without any benefit accruing to the Wells  
 3 Fargo Funds or their investors from those payments, without being limited to class B and class C  
 4 shares, and without disclosure to investors.

5       175. Furthermore, the Directors of the Wells Fargo Funds (“Directors”) failed to  
 6 satisfy their duty to independently and conscientiously evaluate the Funds’ 12b-1 and advisory  
 7 fee arrangements, a factor which strongly supports a finding of fee excessiveness. The Directors  
 8 were unable to perform their duties as the “watchdogs” of the Wells Fargo Funds because they  
 9 failed to obtain enough information adequately to evaluate the Wells Fargo Funds’ distribution  
 10 fees as required by Rule 12b-1. As a result of the Directors’ failure to be adequately informed,  
 11 they were unable to evaluate whether Defendants’ use of Wells Fargo Fund assets for kickback  
 12 agreements was in the Wells Fargo Funds’ and their investors’ best interest and whether the fees  
 13 being charged were excessive. Moreover, the increase in the Wells Fargo Funds’ net assets,  
 14 accompanied by an increase in the expense ratios and Defendants’ failure to reduce their fees,  
 15 were red flags which the Directors disregarded. As a result, the Directors did not perform their  
 16 duties as “watchdogs” of the Wells Fargo Funds because they failed to ensure that any  
 17 economies of scale that were being realized from the increase in Wells Fargo Funds assets were  
 18 passed to the Wells Fargo Funds and their investors. The Directors’ failure to satisfy their duties  
 19 resulted in excessive fees being charged to the Wells Fargo Funds that were disproportionate to  
 20 the services rendered and were not the product of arm’s-length bargaining.

21       176. The fees charged to a mutual fund and its investors should be the equivalent of  
 22 fees that would have been negotiated within the bounds of arm’s-length bargaining. Directors  
 23 are responsible for negotiating the fees charged to the fund on behalf of the investors who,  
 24 individually, are unable to negotiate such fees. At the same time, investment advisers and their  
 25 affiliates have a fiduciary duty with respect to the fees that are charged to investors, in that such  
 26 fees must be reasonably related to the services provided.

27       177. Congress has underscored directors’ duties by adopting Section 15(c) of the  
 28 Investment Company Act, requiring directors to be adequately informed of the terms of any

1 investment advisory contracts, and giving them the authority to demand documents and other  
 2 information from investment advisers in order to make informed and independent decisions  
 3 when evaluating such contracts. See 15 U.S.C. § 80a-15(c). However, as alleged below, the  
 4 Directors were beholden to the Investment Adviser Defendant, failed to adequately inform  
 5 themselves and disregarded red flags showing that the advisory and distribution fees were  
 6 excessive. Furthermore, the Directors failed to hold the Investment Adviser Defendant  
 7 accountable for revenue sharing agreements entered into by them with various brokerage firms,  
 8 or for other Shelf Space payments for which the Investment Adviser charged the Funds, and  
 9 therefore their investors, excessive fees and commissions.

10 **The Excessive Fees At Issue**

11 178. **Investment Advisory Fees:** Investment advisory fees are calculated as a  
 12 percentage of assets under management. As the fund assets increase, the dollar amount of such  
 13 fees parallels this growth. Directors are charged with ensuring that such growth does not result  
 14 in a windfall to advisers where commensurate services are not provided. Investment advisory  
 15 fees are paid to investment advisers for managing the underlying portfolio, *i.e.*, choosing the  
 16 securities in which a mutual fund should invest and conducting the operations required to support  
 17 the management of the portfolio, and include the overhead and administrative costs involved in  
 18 conducting the business of the investment adviser.

19 179. **Rule 12b-1 Fees:** SEC Rule 12b-1 permits a fund to pay “12b-1” distribution  
 20 fees out of fund assets, but only if the fund has adopted a 12b-1 plan authorizing their payment,  
 21 and only if the Directors properly find that there is a reasonable likelihood that the plan will  
 22 benefit the fund and its investors. Distribution fees are comprised of fees paid to the distributors  
 23 for marketing and selling fund shares, including compensation for advertising, the printing and  
 24 mailing of prospectuses and sales literature to investors and payments to financial consultants  
 25 and others who sell fund shares. Like the investment advisory fees, 12b-1 fees are calculated as  
 26 a percentage of assets under management and the dollar amount of such fees increases with the  
 27 size of the fund.

1       180. **Service Fees And Administrative Fees:** Service and administrative fees are paid  
 2 to persons to respond to investor inquiries, furnish investors with information about their  
 3 investments, and to provide other services required to enable the functioning of the fund. These  
 4 two types of fees may pay for similar expenses or may significantly overlap, as described more  
 5 fully below. Unlike distribution fees, a fund may pay shareholder service and administrative fees  
 6 without adopting a 12b-1 plan. Accordingly, such fees are often not visible to investors and are  
 7 highly susceptible to manipulation by the investment advisor. Like the investment advisory fees  
 8 and the 12b-1 fees, the service and administrative fees are calculated as a percentage of assets  
 9 under management and the dollar amount of such fees increases with the size of the fund.

10      181. **Transfer Agency Fees:** Transfer agency fees are paid to an in-house, affiliated or  
 11 independent third party to handle sales and redemptions of fund shares, maintain shareholder  
 12 records, compute the net asset value (the “NAV”) of the fund daily, and pay out dividends and  
 13 capital gains. Like the investment advisory fees, the 12b-1 fees and the administrative/service  
 14 fees, the transfer agency fees are calculated as a percentage of assets under management and the  
 15 dollar amount of such fees increases with the size of the fund.

16      182. These foregoing fees are the principal components of a funds “expense ratio,”  
 17 which is the ratio of total expenses to net assets. The expense ratio determines the fund’s  
 18 efficiency and cost effectiveness, and consequently a lower number is desirable because it  
 19 reflects higher total returns.

20 **Factors That Show The Fees Charged To The Wells Fargo Funds And Their Investors  
 21 Were Not Reasonably Related To The Services Provided Them And Were Excessive**

22      183. Courts recognize that certain factors indicate that fees are excessive. In particular,  
 23 the following factors bear on whether the investment adviser and its affiliates are charging  
 24 excessive fees to a fund and its investors:

- 25       • the nature and quality of services being paid for by the fund and its  
 26            investors;
- 27       • whether the investment advisory fees are reduced to reflect the “fall-out  
 28            benefits” the advisers receive, which are those benefits other than the

1 advisory fees that flow to the adviser and its affiliates as a result of the  
 2 adviser's relationship with the fund;

- 3 • what fees other fund families or funds within the same fund family charge  
   4 for similar services to similar mutual funds;
- 5 • whether economies of scale were passed to the funds and their investors or  
   6 kept by the investment adviser; and
- 7 • whether the funds' directors or trustees exercised a sufficient level of care  
   8 and conscientiousness in approving the investment advisory and  
   9 distribution agreements.

10 184. These factors, when applied to the Wells Fargo Funds, demonstrate that the fees  
 11 charged to the Wells Fargo Funds and their investors were not reasonably related to the services  
 12 provided and were excessive.

13 **The Economies Of Scale Were Not Passed On To Investors**

14 185. While Defendants were profiting from the Funds' growth, they failed to pass the  
 15 economies of scale generated from such growth to the Funds and their investors. The legislative  
 16 history of Section 36(b) of the Investment Company Act of 1940 recognizes that an investment  
 17 adviser's failure to pass on economies of scale to the fund is the principal cause of excessive  
 18 fees:

19 It is noted ... that problems arise due to the economies of scale  
 20 attributable to the dramatic growth of the mutual fund industry. In  
 21 some instances these economies of scale have not been shared with  
 22 investors. Recently there has been a desirable tendency on the part  
 of some fund managers to reduce their effective charges as the  
 fund grows in size. Accordingly, the best industry practice will  
 provide a guide.

23 S. Rep. No. 91-184, at 5-6 (1969), as reprinted in 1970 U.S. Code Cong. & Ad. News, at 4901-  
 24 02.

25 186. An investment advisor's profit is a function of revenue minus the costs of  
 26 providing services. Defendants' incremental costs of providing advisory services to the Wells  
 27 Fargo Funds were nominal. The additional fees received by Defendants were disproportionate  
 28 given that the nature, quality and level of the services they provided remained the same. On a

1 per share basis, it does not cost more to manage additional assets in a growing fund because  
 2 economies of scale occur at both the fund complex and portfolio levels for various costs  
 3 incurred. For example, many of the costs, such as the costs of research for a particular  
 4 investment, remain fixed regardless of the amount of assets in a given fund devoted to that  
 5 investment. As has been noted, the mutual fund industry is a business in which economies of  
 6 scale are present and are statistically significant. *See Jim Saxton, Chairman, Joint Economic*  
 7 *Committee of the United States Congress, The Mutual Fund Industry: An Overview and Analysis*  
 8 *19 (2002) (citing William Baumol, The Economics of Mutual Fund Markets: Competition Versus*  
 9 *Regulation 186, 190 (Kluwer Academic 1990)), available at*  
 10 <http://www.house.gov/jec/mutual2.pdf>.

11       187. The growth of assets under management by the Investment Adviser Defendant  
 12 has generated substantial economies of scale which, to the great benefit of the Investment  
 13 Adviser, have not been passed on to the Funds and their investors through lower fees. Instead,  
 14 Defendants retained these economies of scale for themselves as a windfall and continued  
 15 charging greatly increased expenses without providing additional, commensurate services.

16       188. In regard to Wells Fargo Advantage Asset Allocation, industry analyst  
 17 Morningstar noted that “the fund’s rising costs disappoint us. Despite having below-average fees  
 18 for a front-load offering in this category, fees have steadily trended upward over the past  
 19 decade.” Lawrence Jones, *Morningstar’s Take: We think This Fund’s Aggressive Allocation*  
 20 *Stance and Increasing Costs Limit Its Appeal*, Dec. 1, 2005, <http://quicktake.morningstar.com>  
 21 (password required). Morningstar’s conclusions are supported by the increase in assets under  
 22 management between 2002 and 2005, when the Fund grew from \$1.13 billion to \$1.16 billion  
 23 and the expense ratio simultaneously increased from 1.84% to 1.90%.<sup>2</sup>

24       189. Additionally, in regards to Wells Fargo Small Cap Value Fund, Morningstar  
 25 analysts have observed that, “[t]he fund’s asset growth could have provided shareholders with

27       2   Wells Fargo Asset Allocation Fund, annual report for fiscal year ending Sept. 30, 2003 (Form  
 28 N-CSR) (Dec. 9, 2003); Wells Fargo Advantage Asset Allocation, annual report for fiscal year  
 ending Sept. 30, 2005 (Form N-CSR) (Dec. 7, 2005).

1 one benefit: a lower cost, had this fund's advisor lowered expenses significantly as assets grew.  
 2 Unfortunately, it has not done so. Lower costs could provide the fund a better opportunity to  
 3 replicate past successes with a less nimble offering." Lawrence Jones, *Morningstar's Take:*  
 4 *Could Wells Fargo Advantage Small Cap Value Become a Victim of Its Own Success*, Feb. 27,  
 5 2006, <http://quicktake.morningstar.com> (password required). The increase in assets under  
 6 management and the expense ratio demonstrates Morningstar's point.

7 190. Other Wells Fargo Funds illustrate the same historical trends with their expense  
 8 ratios:

- 9     • Between 2002 and 2005, Wells Fargo Advantage Growth Equity Fund  
 10    increased in assets from \$390,546,000 to \$560,779,000, and the Class B  
 11    expense ratio also increased from 2.22% to 2.25%;<sup>3</sup> and
- 12    • Between 2001 and 2005, Wells Fargo Advantage Large Company Growth  
 13    Fund increased from \$202,514,000 to \$524,323,000 and the expense ratio  
 14    remained constant.<sup>4</sup>

15 191. Additionally, when looking at how much higher Wells Fargo Funds' expense  
 16 ratios are than the expense ratios of similar sized funds that would experience the same  
 17 economies of scale, it is clear that the economies of scale were not passed on to investors. As  
 18 illustrated below, the Funds were, on average, more expensive than other funds:

19

20

21

22

23

24

---

25    <sup>3</sup> Wells Fargo Growth Equity Fund, annual report for fiscal year ending Sept. 30, 2003 (Form N-  
 26    CSR) (Dec. 9, 2003); Wells Fargo Advantage Growth Equity, annual report for fiscal year  
 26    ending Sept. 30, 2005 (Form N-CSR) (Dec. 7, 2005).

27    <sup>4</sup> Wells Fargo Advantage Large Company Growth Fund, annual report for fiscal year ended Sept.  
 28    30, 2001 (Form N-CSR); Wells Fargo Advantage Large Company Growth Fund, annual report  
 28    for fiscal year ended Sept. 30, 2005 (Form N-CSR).

Comparison of 2004 Fees on Wells Fargo Funds to CRSP <sup>5</sup>		
Value-Weighted <sup>6</sup> Benchmark of Same-Sized Funds <sup>7</sup>		
Retail Share Classes Only		
Differences in Terms of Basis Points		
Fund Name	S&P Objective	Expense Ratio bps Higher than Industry Average
Wells Fargo Advantage Small Cap Value Fund	Equity USA Small Co.	58
Wells Fargo Funds: Asset Allocation Fund	Asset Allocation USA Flexible	50
Wells Fargo Funds: Growth Equity Fund	Equity USA Growth	15
Wells Fargo Funds: Montgmry Small Cap Fund	Equity USA Small Co.	11

192. The above fund information is provided for illustrative purposes; the complained  
10 of conduct occurred across the Wells Fargo Funds.

12 193. Wells Fargo Funds' historical trend of failing to pass economies of scale to  
13 investors resulted in a huge windfall for the Investments Adviser Defendant, all to the detriment  
14 of investors. The fees were not reasonably related to the services provided to the Funds and  
15 therefore investors were paying excessive fees.

16 **The Illusory Breakpoints In The Funds' Advisory Agreements Illustrate That  
17 The Economies of Scale Were Not Passed On To The Funds And Their Investors**

18 194. A "fee breakpoint" has been explained as follows:

19 Many funds employ a declining rate structure in which the  
20 percentage fee rate decreases in steps or at designated breakpoints  
21 as assets increase.... The declining rate schedule reflects the  
22 expectation that costs efficiencies or scale economies will be  
23 realized in the management and administration of the fund's  
24 portfolio and operations as the fund grows.

25 <sup>5</sup> The University of Chicago Center for Research in Securities Prices ("CRSP") Benchmark is the  
value weighted average (defined below) of all funds in the same-size quartile that had the same  
CRSP Strategic Objective Designation.

26 <sup>6</sup> The value weighted benchmark is calculated by obtaining the contemporaneous monthly asset  
valuation for each fund and the averages of the funds' expense ratios that have the same strategic  
27 objective.

28 <sup>7</sup> Same-sized funds refers to funds that have similar size of class shares.

1 John P. Freeman & Stewart L. Brown, *Mutual Fund Advisory Fees: The Cost of Conflicts of*  
 2 *Interest*, 26 Iowa J. Corp. L. 609, 620 n.59 (2001).

3 195. While some of the advisory contracts for the Funds include breakpoints, many of  
 4 these breakpoints were meaningless because, as a practical matter, they did not pass any of the  
 5 economies of scale to Fund investors. For example, the Wells Fargo Advantage Asset Allocation  
 6 Fund lacked breakpoints until August 1, 2004. The breakpoints that were adopted were illusory  
 7 because after the Fund grew to \$1 billion in assets, its structure required the Fund to swell to \$3  
 8 billion in assets before any economies of scale would be passed to the investor. For example, as  
 9 of September 30, 2004, the Fund had \$1.1 billion in assets under management, but it would need  
 10 to grow by another \$2 billion before any more breakpoints would impact the Fund and pass any  
 11 economies of scale to the investors.<sup>8</sup>

12 196. Additionally, the investment advisers hired other companies, known as sub-  
 13 advisers, to do the day-to-day stock or bond picking for their portfolios. As former New York  
 14 Attorney General Eliot Spitzer noted when he testified in front of the Senate, typically when  
 15 parties engage in arms'-length negotiations, the sub-adviser agrees to be compensated with a  
 16 portion of the advisory fee governed by breakpoints that kick in as the fund grows larger. *See*  
 17 Rachel McTague, Spitzer Says Advisers Overcharged Funds; Fund Boards Breached Duty to  
 18 Shareholders, Securities Regulation & Law Report, Feb. 02, 2004, available at  
 19 <http://corplawcenter.bna.com/pic2/clb.nsf/id/BNAP-5VPRZJ?OpenDocument>. This "typical"  
 20 arrangement stands in sharp contrast to the facts in the instant matter. Despite the fact that the  
 21 advisers did negotiate lower breakpoint fees with the sub-advisers (that yield more profits for  
 22 them as the funds grow), the advisers continued to charge shareholders their full fee for  
 23 "management services," pocketing the difference. The charts below illustrate this phenomenon:  
 24  
 25  
 26

27  
 28 <sup>8</sup> Wells Fargo Advantage Asset Allocation Fund, annual report for fiscal year ending Sept. 30,  
 2004 (Form N-CSR) (Dec. 3, 2004).

1

2 **Wells Fargo Advantage Asset Allocation Advisory Fee Breakpoints**

3 **from 2/1/2005 Prospectus**

			<i>(under Sub-Adviser agrmt)</i>	
<b>Advisory Fees</b>	<b>Average Daily Net Assets</b>	<b>Fee %</b>	<b>Average Daily Net Assets</b>	<b>Fee %</b>
<b>after 8/1/2004</b>	0 - 499 million	0.65	<i>0-100 million</i>	<i>0.15</i>
	500 - 999 million	0.60	<i>over 100 million</i>	<i>0.10</i>
	1 - 2.99 billion	0.55		
	3 - 4.99 billion	0.525		
	over 4.99 billion	0.50		
	n/a	0.75		

12 197. While the sub-adviser's fee breakpoints apply to the Fund when its assets are over  
 13 \$100 million, the adviser's breakpoints do not kick in until the Fund's assets reach \$500 million.  
 14 Thus, when Wells Fargo Advantage Asset Allocation Fund 's assets increased from \$100 to \$500  
 15 million, the Investment Adviser Defendant received an additional 5 bps in fees without  
 16 performing any additional work as a result of the sub-advisers' breakpoints.

17 **Wells Fargo Advantage Growth Fund Advisory Fee Breakpoints**

			<i>(under Sub-Adviser agrmt)</i>	
	<b>Average Daily Net Assets</b>	<b>Fee %</b>	<b>Average Daily Net Assets</b>	<b>Fee %</b>
<b>Effective 2/1/2006</b>	0-499 million	0.75	<i>0-25 million</i>	<i>0.75</i>
	500-999 million	0.70	<i>25-50 million</i>	<i>0.60</i>
	1-2.99 billion	0.65	<i>50-275 million</i>	<i>0.50</i>
	3-4.99 billion	0.625	<i>over 275 million</i>	<i>0.30</i>
	over 5 billion	0.60		

24 198. Again, the sub-adviser's fee breakpoints apply to the Fund at \$25 million, \$50  
 25 million, and \$275 million, while the adviser's breakpoints do not kick in until the Fund's assets  
 26 reach \$500 million. Therefore, while the assets in Wells Fargo Advantage Growth Fund grew,  
 27 the Investment Adviser Defendant was receiving up to an additional 45 bps without performing  
 28 any additional work

1

2 **Wells Fargo Small Cap Fund Advisory Fee Breakpoints**

			<i>(under Sub-Adviser agrmt)</i>	
	<b>Average Daily Net Assets</b>	<b>Fee %</b>	<b>Average Daily Net Assets</b>	<b>Fee %</b>
<b>effective 8/1/2004</b>	0-499 million	0.90	<i>0-200 million</i>	<i>0.25</i>
	500-999 million	0.85	<i>over 200 million</i>	<i>0.2</i>
	1-2.99 billion	0.80		
	3-4.99 billion	0.775		
	over 4.99 billion	0.75		

9 **Wells Fargo Large Company Growth Fund Fee Breakpoints**

			<i>(under Sub-Adviser agrmt)</i>	
	<b>Average Daily Net Assets</b>	<b>Fee %</b>	<b>Average Daily Net Assets</b>	<b>Fee %</b>
<b>effective 8/1/2004</b>	0-499 million	.75	<i>0-200 million</i>	<i>0.25</i>
	500-999 million	.70	<i>over 200 million</i>	<i>0.2</i>
	1-2.99 billion	.65		
	3-4.99 billion	.625		
	over 4.99 billion	0.6		

16 **Wells Fargo Advantage Total Return Bond Fund Fee Breakpoints**

			<i>(under Sub-Adviser agrmt)</i>	
	<b>Average Daily Net Assets</b>	<b>Fee %</b>	<b>Average Daily Net Assets</b>	<b>Fee %</b>
<b>effective 8/1/2004</b>	0-499 million	.45	<i>0-200 million</i>	<i>0.25</i>
	500-999 million	.4	<i>over 200 million</i>	<i>0.2</i>
	1-2.99 billion	.35		
	3-4.99 billion	.325		
	over 4.99 billion	0.3		

24 199. Again, in each of the above funds, the sub-adviser's fee breakpoints apply to the  
 25 Fund when its assets are under \$200 million, but the adviser's breakpoints do not kick in until the  
 26 Fund's assets reach \$500 million. Thus, when the assets grew from \$200 to \$500 million in the  
 27 Small Cap Fund, Total Return Bond Fund, or Large Company Growth Fund, the Investment  
 28 Adviser Defendant received an additional 5 bps without performing any additional work.

1       200. The above fund information is provided for illustrative purposes; the complained  
 2 of conduct occurred across the Wells Fargo Funds.

3       201. As demonstrated above, the advisory fee breakpoints' lack of impact on fees  
 4 levied on the Funds and their clear contrast to the savings gleaned by the Investment Adviser  
 5 Defendant from the sub-advisers' contract further illustrates that the economies of scale were not  
 6 passed to the Funds' investors.

7 **The Nature and Quality of Services Does Not Justify The Excessive Fees**

8       202. The nature of the advisory services provided to the Wells Fargo Funds did not  
 9 justify the excessive expense ratios carried by the Funds. Defendants cannot justify their high  
 10 fees by arguing that their managers and analysts are of superior quality and provide superior  
 11 performance. The performance of these Funds was not up to par with other, similar funds in the  
 12 industry, and thus could not justify the higher fees.

13       203. In regard to Wells Fargo Advantage Asset Allocation Fund, analysts have noted  
 14 that, “[w]ith high volatility and middle performance, we have yet to see this strategy add the  
 15 value investors are paying for.” Lawrence Jones, *Morningstar's Take: We Think This Fund's*  
 16 *Aggressive Allocation Stance and Increasing Costs Limit Its Appeal*, Dec. 1, 2005,  
 17 <http://quicktake.morningstar.com> (password required).

18       204. When comparing Wells Fargo Advantage Emerging Markets Fund with  
 19 comparable funds, it underperformed its benchmark peers with the same S& P objective by  
 20 14.73%.

21       205. Additionally, most of the Wells Fargo Funds' returns were highly correlated with  
 22 the S&P 500 Index, indicating a level of performance that is consistent with the passive type of  
 23 fund management characteristics of an index fund, rather than the purported active fund  
 24 management for which the Investment Adviser Defendant is being paid.

<b>Correlation Between Monthly Returns on the Wells Fargo Funds (A Shares) and the S&amp;P 500 Market Index - January 2004 through December 2005</b>		
Ranked by Asset Size		
Fund Name	Correlation Coefficient	Total Net Assets as of 12/04
Wells Fargo Advantage Small Cap Value Fund	0.73*	\$601.1m
Wells Fargo Funds: Asset Allocation Fund	0.97*	\$915.5 m
Wells Fargo Funds: Growth Equity Fund	0.94*	\$21.7 m

\* denote statistical significance at the 1% level

206. The above fund information is provided for illustrative purposes; the complained of conduct occurred across the Wells Fargo Funds.

**The Fees Charged To The Funds And Their Investors Were Excessive Relative To Similar Funds Offered In The Industry**

207. When examining the expense ratios of other fund families that provide the same types of funds as Wells Fargo, it is apparent that the Investment Adviser Defendant charged higher fees than other investment advisers who manage the same type of portfolio. As noted by Morningstar, even while some of Wells Fargo's expense ratios have declined, "many still rank above their respective categories." *Morningstar.com, Stewardship Grade: Wells Fargo Advantage Asset Allocation Fund*, Aug. 25, 2004, <http://quicktake.morningstar.com> (password required).

208. Wells Fargo Advantage Asset Allocation Class B had a higher expense ratio than similar funds, with the Fund charging 1.90% when the category average was 1.22%. *Yahoo! Finance Profile*, Wells Fargo Advantage Asset Allocation B (SASBX), Feb. 28, 2006, <http://finance.yahoo.com/q/pr?s=sasbx>.

209. Wells Fargo Advantage Small Cap Value Fund Class B also carries an expense ratio that is significantly higher than the category average of its type of fund, charging 2.24% when the category average is 1.49%. *Yahoo! Finance Profile*, Wells Fargo Advantage Small Cap Value B (SMVBX), Feb. 28, 2006, <http://finance.yahoo.com/q/pr?s=smvbx>.

210. Wells Fargo Advantage Growth Equity Fund Class B share fees were also excessively high, carrying an expense ratio of 2.25% when the category average is 1.49%.

1 Yahoo! Finance Profile, Wells Fargo Advantage Growth Equity B (NVEBX), Feb. 28, 2006,  
 2 <http://finance.yahoo.com/q/pr?s=nvebx>.

3 211. As also illustrated below, the Wells Fargo Funds had a trend of carrying higher  
 4 expense ratios than comparable funds:

<b>Comparison of Wells Fargo Funds Fees to the CRSP Benchmark</b>		
<b>Benchmark is the Equally-Weighted Average<sup>9</sup> of all Funds Existing During 2004 With the same CRSP S&amp;P Objective as the Wells Fargo Funds</b>		
<b>All Share Classes Only</b>		
Differences in Terms of Basis Points		
<b>Fund Name</b>	<b>S&amp;P Objective</b>	<b>Expense Ratio - bps Higher than Industry Average</b>
Wells Fargo Advantage Small Cap Value Fund	Equity USA Small Co.	75
Wells Fargo Funds: Asset Allocation Fund	Asset Allocation USA Flexible	52
Wells Fargo Funds: Growth Equity Fund	Equity USA Growth	53
Wells Fargo Funds: Montgmry Small Cap Fund	Equity USA Small Co.	74

16 212. The above fund information is provided for illustrative purposes; the complained  
 17 of conduct occurred across the Wells Fargo Funds.

18 213. The lower fees charged by similar funds is also demonstrative of how Wells  
 19 Fargo Funds carry excessively high expense ratios. Additionally, it illustrates that investors can  
 20 obtain the same services for lower fees from other funds and that Wells Fargo's fees are not  
 21 reasonably related to the services they are providing investors.

22 **The Investment Adviser Defendant Placed The Expense Of  
Revenue Sharing Payments On The Funds And Their Investors**

23 214. The Investment Adviser also charged excessive fees by charging the Well Fargo  
 24 Funds and their investors for Defendants' revenue sharing expenses described above.

25  
 26  
 27 <sup>9</sup> Equally-weighted average means that all funds were given equal value when determining the  
 28 average of their expense ratio.

1       215. Revenue sharing arrangements are very appealing to investment advisers because  
 2 they can increase sales from three to ten fold. *See* Smita Madhur, *Revenue-Sharing Boosts*  
 3 *Mutual Fund Sales Tenfold*, Financial-Planning.com, Jan. 24, 2005, <http://www.financial-planning.com/pubs/fpi/20050124101.html>. At the same time, revenue sharing arrangements are  
 4 very expensive for investors because their high costs translate into higher and potentially  
 5 excessive fees levied upon shareholders.

7       216. Defendants' payments to brokers increased the fees levied on the Funds and their  
 8 investors because the Investment Adviser Defendant, in determining the amount it would charge  
 9 for its advisory fees, accounted for the costs of the revenue sharing agreements for which it paid  
 10 broker dealers and others, in order to ensure the recovery of its full profit after the revenue  
 11 sharing payments were made.

12 **The Investment Advisory Fees Were Excessive Because They Were Not**  
 13 **Reasonably Related To The Services Provided To The Funds Or Their Investors**

14       217. A report on revenue sharing by Cerulli Associates notes that advisory fees are the  
 15 most significant source of revenue sharing. Cerulli Associates, *Mutual Fund Revenue Sharing: Current Practices and Projected Implications* (2005). The advisory fee can be inflated in order  
 16 to finance the adviser's revenue sharing obligations and, as shown herein, the Investment  
 17 Adviser Defendant did just this with respect to the Wells Fargo Funds.

19       218. Investment advisory fees are meant to cover management of the invested funds,  
 20 including management and administrative activities related to managing the fund's portfolios.  
 21 *See Report of the SEC on the Public Policy Implications of Investment Company Growth*, H.R.  
 22 Rep. No. 89-2337 (1966).

23       219. The investment advisory fees implemented by the Investment Adviser Defendant  
 24 for revenue sharing do not fit either of these categories. As explained in the NASD Letter of  
 25 Acceptance, Waiver and Consent, "the investment adviser to the Wells Fargo Proprietary Funds  
 26 allocated revenue net of certain expenses to various Wells Fargo & Company affiliates, on their  
 27 sale of the Wells Fargo Funds proprietary mutual funds." H.D. Vest Investment Services, NASD  
 28 Letter Of Acceptance Waiver and Consent (No. CE1050007); June 8, 2005 NASD Press Release,

1 *supra* ¶57; *see also* WF Investments, LLC, NASD Letter of Acceptance, Waiver and Consent  
 2 (No. CE1050006).

3 220. The SEC has expressed concern over these practices, stating that, “[r]evenue  
 4 sharing arrangements not only pose potential conflicts of interest, but also may have the indirect  
 5 effect of reducing investors’ returns by increasing the distribution-related costs incurred by  
 6 funds. Even though revenue sharing is paid to broker-dealers directly by fund investment  
 7 advisers, rather than out of fund assets, it is possible that some advisers may seek to increase the  
 8 advisory fees that they charge the fund to finance those distribution activities . . . Moreover,  
 9 revenue sharing arrangements may prevent some advisers from reducing their current advisory  
 10 fees.” Confirmation Requirements and Point of Sale Disclosure Requirements for Transactions  
 11 in Certain Mutual Funds and Other Securities, and Other Confirmation Requirement  
 12 Amendments, and Amendments to the Registration Form for Mutual Funds, 69 Fed. Reg. 6438,  
 13 6441 n.21 (Feb. 10, 2004) (to be codified at 17 C.R.F. pts. 239, 240 and 274).

14 221. The nature of Defendants’ revenue sharing program was such that it strongly  
 15 incentivized broker-dealers to expand their marketing efforts on behalf of the Wells Fargo Funds.  
 16 As a result of such activities, the aggregate net assets—against which the management fees were  
 17 charged on a percentage basis—increased, with a consequent increase in the dollar amount of the  
 18 advisory fees. The Investment Adviser Defendant therefore received “something for nothing”  
 19 from the Wells Fargo Funds and their investors because the fees were not the result of any  
 20 increase or improvement in the services being provided, and did not reflect any legitimate  
 21 increase in the cost of the services being provided to the advisers and their affiliates.

22 222. In addition, the advisory fee payments made by the Funds and their investors that  
 23 were utilized for revenue sharing were charged in violation of Rule 12b-1. Advisory fees paid to  
 24 an investment adviser with the intent of allocating a certain amount towards distribution  
 25 practices, such as revenue sharing, are regulated under Rule 12b-1 and Section 36(b). As the  
 26 SEC explained, “Rule 12b-1 could apply . . . in certain cases in which the adviser makes  
 27 distribution related payments out of its own resources . . . ‘if any allowance were made in the  
 28 investment adviser’s fee to provide money to finance distribution.’” Investment Company

1 Institute, 1998 SEC No-Act. LEXIS 976, at \*16 (Oct. 30, 1998) (citing Payment of Asset-Based  
 2 Sales Loads By Registered Open-End Management Investment Companies, Investment  
 3 Company Act Release No. 16431, 1988 SEC LEXIS 1206 (June 13, 1988)) (emphasis added).  
 4 Defendants paid for part of these revenue sharing arrangements through advisory fees to  
 5 circumvent limits placed on such distribution payments by Rule 12b-1.

6 **Defendants Paid Massive Fees That Were Subject To Rule 12b-1 Fees But Provided No**  
**Benefit To The Wells Fargo Funds Or Their Investors In Return**

7  
 8 223. As discussed above, Rule 12b-1, promulgated by the SEC pursuant to the  
 9 Investment Company Act, prohibits mutual funds from directly or indirectly distributing or  
 10 marketing their own shares unless certain enumerated conditions set forth in Rule 12b-1 are met.  
 11 The Rule 12b-1 conditions are, amongst others, that payments for marketing must be made  
 12 pursuant to a written plan “describing all material aspects of the proposed financing of  
 13 distribution;” all agreements with any person relating to implementation of the plan must be in  
 14 writing; the plan must be approved by a vote of the majority of the board of directors; and the  
 15 board of directors must review, at least quarterly, “a written report of the amounts so expended  
 16 and the purposes for which such expenditures were made.” 17 C.F.R. § 270.12b-1(b).  
 17 Additionally, the directors “have a duty to request and evaluate, and any person who is a party to  
 18 any agreement with such company relating to such plan shall have a duty to furnish, such  
 19 information as may reasonably be necessary to an informed determination of whether such plan  
 20 should be implemented or continued.” 17 C.F.R. § 270.12b-1(d). The directors may continue the  
 21 plan “only if the directors who vote to approve such implementation or continuation conclude, in  
 22 the exercise of reasonable business judgment and in light of their fiduciary duties under state law  
 23 and sections 36(a) and (b) (15 U.S.C. § 80a-35(a) and (b)) of the Act that there is a reasonable  
 24 likelihood that the plan will benefit the company and its shareholders.” 17 C.F.R. § 270.12b-1(e).  
 25 As noted above, Rule 12b-1 fees are assessed as a percentage of assets under management and,  
 26 accordingly, grow proportionately with the size of the Funds. Here, the Defendants violated rule  
 27 12b-1 by paying revenue sharing kickbacks that were for the same purposes for which rule 12b-1  
 28

1 was designed, but without meeting the requirements of 12b-1 of Board approval, proof of  
 2 shareholder interests, and full disclosure.

3 224. Additionally, even excluding the revenue sharing payments and looking only at  
 4 the fees that Wells Fargo states were paid pursuant to 12b-1 plans, the fees charged to Wells  
 5 Fargo Funds were higher than those charged to comparable funds. As illustrated below, the  
 6 Funds on average, charged 12b-1 fees that were higher than other funds.

<b>Comparison of Wells Fargo Funds Fees to the CRSP Benchmark</b>		
<b>Benchmark is the Equally-Weighted Average of all Funds Existing During 2004 With the same CRSP S&amp;P Objective as the Wells Fargo Funds</b>		
<b>Retail Share Classes Only</b>		
Differences in Terms of Basis Points		
<b>Fund Name</b>	<b>S&amp;P Objective</b>	<b>12b-1 Fees - bps Higher than Industry Average</b>
Wells Fargo Advantage Small Cap Value Fund	Equity USA Small Co.	59
Wells Fargo Funds: Asset Allocation Fund	Asset Allocation USA Flexible	19
Wells Fargo Funds: Growth Equity Fund	Equity USA Growth	27
Wells Fargo Funds: Montgmry Small Cap Fund	Equity USA Small Co.	37

17 225. The above fund information is provided for illustrative purposes; the complained  
 18 of conduct occurred across the Wells Fargo Funds.

19 **The Directors' Failure To Act Independently And Conscientiously Resulted In**  
 20 **Defendants Charging Excessive Fees To The Funds And Their Investors**

21 226. Mutual funds are typically created and managed by investment advisers for a  
 22 profit. Investment advisers usually supervise a mutual funds' daily operations, and often select  
 23 affiliated persons to serve on the board of directors. As former SEC Commissioner Manuel  
 24 Cohen remarked when referring to testimony by investment advisers:

25 They also made the point that the investment advisor creates the  
 26 fund, and operates it in effect as a business. Many of them stated  
 27 that "It is our fund, we run it, we manage it, we control it," and I  
 28 don't think there is anything wrong with them saying it. They  
 were just admitting what is a fact of life. The investment advisor  
 does control the fund.

1 Freeman & Brown, Mutual Fund Advisory Fees, 26 Iowa J. Corp. L. at 615 n.24 (citing  
 2 Statement of Manuel Cohen, Commissioner, SEC, Investment Company Act Amendments of  
 3 1976: Hearings on H.R. 9510, H.R. 9511 Before the Subcomm. on Commerce and Fin. of the  
 4 Comm. on Interstate and Foreign Commerce (1967)).

5 227. As a result of the investment adviser's control of the fund, the relationship  
 6 between investment advisers and mutual funds contains many potential conflicts of interest. This  
 7 conflict arises because part of the fees the investment advisers charge, which reduce investors'  
 8 returns, represents revenue and a source of profit to the investment adviser. *See GAO Report,*  
 9 *Mutual Fund Fees: Additional Disclosure Could Encourage Price Competition* 14, 82 ("GAO  
 10 Report") (June 2000), *available at* <http://www.gao.gov/new.items/gg00126.pdf>.

11 228. Acting in the investors' best interests requires the Directors to exercise due care in  
 12 approving the fees charged to those Funds that the Directors have the responsibility to oversee.  
 13 This is why the expertise of the independent Directors, whether they are fully informed about all  
 14 facts bearing on the adviser's fee, and the extent of care and conscientiousness with which they  
 15 perform their duties are among the most important factors to be examined in evaluating whether  
 16 the compensation fund advisers and distributors receive is reasonable. *Gartenberg v. Merrill*  
 17 *Lynch Asset Mgmt., Inc.*, 694 F.2d 923, 930 (2d Cir. 1982).

18 229. One of the ways to evaluate whether the Directors fulfilled their duties with  
 19 adequate care and conscientiousness is to determine whether they acted independently in  
 20 approving the Funds' fee arrangements or whether the Directors' actions were controlled by the  
 21 Funds' investment advisers.

22 230. The Directors who served on the Board of Directors of the Wells Fargo Funds  
 23 during the relevant time period include: Robert C. Brown, J. Tucker Morse, Thomas S. Goho,  
 24 Peter G. Gordon, Richard M. Leach, Timothy J. Penny and Donald C. Willeke.

25 231. All the Directors are on the boards of all the Wells Fargo Funds. However, the  
 26 fee structures in place show that the Directors failed to earnestly considered the shareholders'  
 27 interests when negotiating the various fees of the Wells Fargo Funds.

1       232. A wealth of evidence demonstrates that the purportedly “non-interested”  
 2 Directors blindly followed the Investment Adviser Defendant’s suggested courses of action by  
 3 rubber-stamping fees and arrangements which prejudiced the Wells Fargo Funds’ investors.  
 4 This evidence also firmly establishes that, even if the Directors were considered “independent,”  
 5 they failed to fulfill their duties with the care and conscientiousness necessary to ensure that the  
 6 fees paid to Defendants from Wells Fargo Fund and investor assets were reasonable and not  
 7 excessive. Specifically, Directors failed to genuinely consider and recognize that the Wells  
 8 Fargo Funds should be considered individually instead of as part of a fund family unit; that no  
 9 economies of scale were passed to investors as the Wells Fargo Funds grew; that the fees were  
 10 significantly more expensive than comparable funds; and that the advisory fees should be  
 11 reduced to reflect the fall out benefits received by Defendants.

12       233. Directors breached their duties because their service on all the Wells Fargo Funds  
 13 allowed them to treat the Wells Fargo Funds as a unit of the Wells Fargo Fund complex, instead  
 14 of examining each fund individually and diligently. As industry analyst Morningstar notes,  
 15 “there is just one board for all mutual funds in the Wells Fargo complex. That structure could  
 16 make it more difficult for the board to focus on what is happening to each fund.”

17 Morningstar.com, *Stewardship Grade: Wells Fargo Advantage Asset Allocation Fund*, Aug. 24,  
 18 2004, <http://www.quicktake.morningstar.com> (password required). For example, the Wells  
 19 Fargo Fund complex would enter in agreements on behalf of all the Funds, instead of Directors  
 20 determining whether the administrative services and fees or shareholder services fees were  
 21 appropriate for the individual Funds. For example, according to the transfer agency and service  
 22 agreement dated August 10, 2004, the Wells Fargo Fund Trust, the registrant for all the Wells  
 23 Fargo mutual funds, entered into an arrangement with Boston Financial Data Services, evidenced  
 24 by an annual agreement approved by the Wells Fargo Board of directors on May 18, 2004.  
 25 These transfer agency agreements included ‘complex base fees’ to be applied to all of the  
 26 Portfolios of Wells Fargo Funds Trust and Wells Fargo Variable Trust Portfolios. Wells Fargo  
 27 Funds Trust, Transfer Agency & Service Agreement and Shareholder Servicing Plan, effective  
 28 Nov. 8, 1999 (Oct. 30, 2000), amended Mar. 1, 2003 (Exh. 99.B(H)(3)) (Aug. 30, 2003),

1 Schedule A amended Feb. 8, 2005 (EX-99.B(H)(3)) (Apr. 11, 2005). Administrative agreements  
 2 were also entered into by the Board on behalf of the Wells Fargo Trust incurring fees for the  
 3 retail class shares of 0.33%, regardless of each individual Fund's needs. Wells Fargo Funds  
 4 Trust, Administration Agreement, June 9, 2003 (Exh. 99.B(H)(1)) (Aug. 15, 2003), Appendix A  
 5 amended Aug. 10, 2004 (Exh. 99.B(H)(1)) (Apr. 11, 2005).

6 234. The Directors knew that the cost of these revenue sharing and directed brokerage  
 7 payments should have been borne by the Defendants as their own out-of-pocket expenses, yet  
 8 did nothing to prevent the siphoning of these payments from Fund and investor assets or to  
 9 appropriately reduce the advisory fee. The fact that the Directors did not even question the acts  
 10 or recommendations of the Defendants with respect to these programs (which only benefited  
 11 Defendants) demonstrates the Directors' failure to act as a "watchdog" of the Investment Adviser  
 12 Defendant.

13 235. Another of these instances was the Directors' lack of action with respect to the fee  
 14 levels and structures in place for the Wells Fargo Funds. Again, by failing to act to reduce the  
 15 Wells Fargo Funds' fees, the Directors neglected to represent the Wells Fargo Funds and their  
 16 investors with the degree of care and conscientiousness required of them.

17 236. Another example of the Directors following a course of action set by the  
 18 Investment Adviser Defendant instead of acting in the investors' best interest is found in the  
 19 Directors' failure to implement fee structures that had meaningful—or even any—breakpoints  
 20 for certain Wells Fargo Funds, while adopting them in others. The SEC has made clear that it is  
 21 the duty of the directors to carefully scrutinize the advisory and other fees to ensure that the  
 22 economies of scale are being passed to investors as Fund assets grow so that the increases in  
 23 advisory and other fees are not a windfall to the investment advisers and their affiliates:

24 If the fund or fund family is experiencing economies of scale, fund  
 25 directors have an obligation to ensure that fund shareholders share  
 26 in the benefits of the reduced costs by, for example, requiring that  
 27 the adviser's fees be lowered, breakpoints be included in the  
 28 adviser's fees, or that the adviser provide additional services under  
 the advisory contract. If the fund or fund family is not  
 experiencing economies of scale, then the directors may seek to  
 determine from the adviser how the adviser might operate more

1 efficiently in order to produce economies of scale as fund assets  
 2 grow.

3 SEC, Division of Investment Management: Report on Mutual Fund Fees and Expenses (Dec.  
 4 2000), *available at* <http://www.sec.gov/news/studies/feestudy.htm>.

5 237. While Plaintiffs and other Wells Fargo investors have contributed to the growth of  
 6 Fund assets, they received no benefits in return. The Directors continually allowed investor  
 7 assets to be used for only the benefit of the Investment Adviser Defendant and their affiliates.  
 8 As purportedly “independent” Directors, they had a duty to question the Investment Adviser  
 9 Defendant’s and its affiliates’ practices, and to ensure that any economies of scale that were  
 10 being realized from the increase in the Wells Fargo Funds’ assets were being passed on to  
 11 shareholders, the rightful recipients. The Directors ultimately failed to exercise the requisite care  
 12 and conscientiousness in performing their statutory duties by approving a course of action  
 13 suggested by the Investment Adviser Defendant that was of no benefit to the Wells Fargo Funds  
 14 or their investors. The Directors’ approval of such actions, which prejudiced the Wells Fargo  
 15 Funds and their investors, further demonstrates that they were controlled by the Investment  
 16 Adviser Defendant.

17 238. Additionally, the Directors failed to ensure that the economies of scale were  
 18 passed to the Wells Fargo Funds and their investors and that the Funds’ expense ratios are  
 19 reasonable in relation to comparable funds.

20 **Additional Scienter Allegations**

21 239. As alleged herein, the Investment Adviser and Registrant Defendant acted with  
 22 scienter in that they knew that the public statements issued or disseminated in the name of Wells  
 23 Fargo were materially false and misleading, knew that such statements would be issued or  
 24 disseminated to the investing public, and knowingly and substantially participated or acquiesced  
 25 in the issuance or dissemination of such statements as primary violations of the federal securities  
 26 laws. As set forth elsewhere herein in detail, the Investment Adviser and Registrant Defendant,  
 27 by virtue of their knowledge of the true facts regarding the kickback scheme, culpably  
 28 participated in the fraudulent scheme alleged herein. Defendants were highly motivated to allow

1 and facilitate the wrongful conduct alleged herein and participated in and/or had actual  
 2 knowledge of the fraudulent conduct alleged herein.

3 **Wells Fargo Investments Received Kickbacks From The Wells Fargo Funds.**

4 240. Throughout the Class Period, Wells Fargo Investments received undisclosed  
 5 kickbacks from the Wells Fargo Funds in exchange for steering investors into the Wells Fargo  
 6 Funds. Wells Fargo Investments received this kickback in the form of “profit sharing” payments  
 7 from WFFM. These “profit sharing” payments were in fact excessive fees paid by the Wells  
 8 Fargo Funds to Investment Adviser Defendant, which in turn were redistributed to Wells Fargo  
 9 Investments. *See* NASD Letter of Acceptance, Waiver and Consent against Wells Fargo  
 10 Investments, No. CE10500006.

11 241. Wells Fargo Investments received revenue from its affiliate, Funds Management,  
 12 for pushing Wells Fargo Funds based on customer assets held by the Wells Fargo Funds. *See*  
 13 Wells Fargo Investments, LLC, An Investor Guide to Mutual Funds 6 (Dec. 2005), available at  
 14 [http://a248.e.akamai.net/7/248/1856/f61e334331442a/www.wellsfargo.com/pdf/online\\_brokerage/mf\\_disc.pdf](http://a248.e.akamai.net/7/248/1856/f61e334331442a/www.wellsfargo.com/pdf/online_brokerage/mf_disc.pdf). However, unlike non-proprietary funds, the Investment Adviser Defendant did  
 15 not pay a negotiated fee rate to participate in revenue sharing arrangements with Wells Fargo  
 16 Investments. Instead, the Investment Adviser Defendant allocated revenue net of certain  
 17 expenses to the various Wells Fargo & Company affiliates, including Wells Fargo Investments,  
 18 based on Wells Fargo Investments’ sales of Wells Fargo Proprietary Funds. *See* Wells Fargo  
 19 Investments, LLC, NASD Letter of Acceptance, Waiver and Consent (No. CE1050006). As a  
 20 result, investors in the Wells Fargo Funds footed the bill for the financial incentives given to  
 21 Wells Fargo’s brokerage firms as kickbacks

22 242. Specifically, during the Class Period, Wells Fargo Investments received the  
 23 following amounts of revenue/profit sharing kickback payments from the Wells Fargo Funds:  
 24 2000 (November and December only) - \$1,006,932; 2001 - \$24,378,607; 2002 - \$40,547,822;  
 25 2003 - \$31,675,121; 2004 - \$41,219,661; and 2005 (through June) - \$23,958,166 for a total of  
 26 **\$162,786,309.** Additionally, during this same time period, Wells Fargo Investments received  
 27  
 28

1 \$123,972,137 in questionable shareholder service fees that are also alleged to be disguised  
 2 revenue sharing payments.

3 **Plaintiffs And Other Members Of The Class Have Suffered Damages As A Result Of**  
 4 **Defendants' Illegal And Improper Actions**

5 243. As a result of Defendants' conduct alleged above, Plaintiffs and the other  
 6 members of the Class have suffered damages. The damages suffered by Plaintiffs and the other  
 7 members of the Class were a foreseeable consequence of Defendants' omissions and conduct,  
 8 particularly in light of the fact that the net returns on the Wells Fargo Funds were diminished as a  
 9 result of the improper kickbacks paid to broker/dealers from the funds. Plaintiffs and other  
 10 members of the Class would not have purchased the Wells Fargo Funds, and paid the related fees  
 11 associated with them, had they known of the illegal and improper practices as alleged above. By  
 12 investing in the Wells Fargo Funds, Plaintiffs and other members of the Class received a return  
 13 on their investment that was substantially less than the return they would have received had they  
 14 invested the same dollars in a comparable fund. Alternatively, investors could have invested  
 15 fewer dollars in a non-Wells Fargo Fund to obtain a rate of return equal to or greater than that  
 16 obtained at a higher price from the comparable Wells Fargo Fund.

17 244. Additionally, Plaintiffs and other members of the Class were deceived into buying  
 18 shares of the Wells Fargo Funds at an artificially inflated value. Plaintiffs and other members of  
 19 the Class accepted, as an integral aspect of purchasing shares of the Wells Fargo Funds, that they  
 20 would be required to pay fees and expenses against their ownership interests in the Wells Fargo  
 21 Funds, with the understanding that those charges were legitimate outlays for services that would  
 22 benefit the mutual fund and contribute positively to its value. In truth, a significant portion of  
 23 those expenses was not being used to provide the services promised, but rather to increase the  
 24 sales of the funds to other investors and thus the profits of Wells Fargo. As a result, the values of  
 25 the Wells Fargo Funds were less than they appeared to be to members of the Class. The  
 26 damages sustained by Plaintiffs and the other members of the Class, as a result of the fees they  
 27 paid for shares of the Wells Fargo Funds, were a foreseeable consequence of Defendants' failure  
 28 to disclose.

1       245. Additionally, as a result of the dissemination of the materially false and  
 2 misleading information and failure to disclose material facts, as set forth above, the market prices  
 3 of the Wells Fargo Funds were distorted during the Class Period such that they did not reflect the  
 4 risks and costs of the continuing course of conduct alleged herein. In ignorance of the fact that  
 5 market prices of the shares were distorted, and relying directly or indirectly on the false and  
 6 misleading statements made by Defendants, or upon the integrity of the market in which the  
 7 securities trade, and/or on the absence of material adverse information that was known to or  
 8 recklessly disregarded by Defendants but not disclosed in public statements by Defendants  
 9 during the Class Period, Plaintiffs and the other members of the Class acquired the shares or  
 10 interest in the Wells Fargo Funds during the Class Period at distorted prices and were damaged  
 11 thereby.

12       **THE TRUTH BEGINS TO BE DISCLOSED**

13       246. On June 8, 2005, when the NASD censured and fined Wells Fargo Investments.  
 14 As detailed in the NASD's press release, the:

15       NASD found that the [Wells Fargo Investments], most of which  
 16 sold funds offered by hundreds of different mutual fund  
 17 complexes, operated "preferred partner" or "shelf space" programs  
 18 that provided certain benefits to a relatively small number of  
 19 mutual fund complexes in return for directed brokerage. The  
 20 benefits to mutual fund complexes of these quid pro quo  
 21 arrangement included, in various cases, higher visibility on the  
 22 firms' internal web sites, increased access to the firms' sales  
 23 forces, participation in "top producer" or training meetings, and  
 24 promotion of their funds on a broader basis than was available for  
 25 other funds

26       Press Release, NASD, NASD Charges 15 Firms With Directed Brokerage Violations, Imposes  
 27 Fines Totaling More Than \$34 Million (June 8, 2005), *available at* [http://www.nasd.com/web/  
 28 idcplg?IdcService=SS\\_GET\\_PAGE&ssDocName=NASDW\\_014340](http://www.nasd.com/web/idcplg?IdcService=SS_GET_PAGE&ssDocName=NASDW_014340) ("June 8, 2005 NASD  
 Press Release").

25       247. Then, in December 2005, Wells Fargo Investments issued a document entitled:  
 26 "**WELLS FARGO INVESTMENTS, LLC POTENTIAL CONFLICTS OF INTEREST**  
 27 **DISCLOSURE STATEMENT**". In this document, Wells Fargo Investments disclosed that:  
 28

- Wells Fargo Investments had entered into financial arrangements with a limited number of mutual fund companies (*i.e.* the Shelf Space Funds) that Wells Fargo Investments referred to as “Platform Participants”;
- among these funds were the Wells Fargo Funds
- in addition to payments received from third-party mutual fund families, Wells Fargo Investments received revenue from Wells Fargo Funds Management, LLC
- as a result of these payments, these limited number of mutual funds “receive enhanced access to Wells Fargo’s Investments’ sales force” [*i.e.* “financial consultants”] and meet with said “financial consultants” in training events, conference calls and private meetings; and
- “the above-referenced payments and compensation arrangements are ***in addition to the sales charges and fees that are disclosed in the fee tables, prospectuses and statements of additional information.***” (emphasis added).

In other words, in this document, Wells Fargo Investments admitted that it received the payments from the Wells Fargo Funds that are at issue in this Complaint, that said payments created “Potential Conflicts of Interests” and that, finally, such payments were not disclosed in either the Wells Fargo Funds’ prospectuses or statements of additional information.

248. Then on April 11, 2006, the First Amended Complaint in *Siemers* was filed, that was later upheld by the Court. A Wells Fargo corporate representative later testified in *Siemers* that Defendants continued to make the payments at issue here even after the filing of the First Amended Complaint in *Siemers*.

## CLASS ACTION ALLEGATIONS

249. Plaintiffs bring this action as a class action pursuant to Federal Rule of Civil Procedure 23(a) and (b)(3) on behalf of themselves and a class consisting of all persons or entities who purchased shares or like interests in any of the Wells Fargo Mutual Funds (except

1 the Wells Fargo Diversified Equity Fund, Montgomery Emerging Markets Fund and Small Cap  
2 Growth Fund), from November 4, 2000 through April 11, 2006 inclusive (the “Class Period”)  
3 and who were damaged thereby. Excluded from the class are Defendants, members of their  
4 immediate families and their legal representatives, heirs, successors, or assigns and any entity in  
5 which Defendants have or had a controlling interest (the “Classes”). Further, this Class shall be  
6 divided into the following Subclasses:

7 (a) All persons or entities who purchased shares or like interests in any of the  
8 Wells Fargo Large Cap Stock Funds during the Class Period and who were damaged thereby (the  
9 "Wells Fargo Large Cap Stock Fund Subclass"). The Wells Fargo Large Cap Stock Funds are:  
10 the C&B Tax-Managed Value Fund<sup>10</sup>; the Capital Growth Fund; the Dividend Income Fund; the  
11 Endeavor Select Fund; the Equity Index Fund; the Growth Fund; the Growth and Income Fund;  
12 the Large Cap Growth Fund; the Large Company Core Fund; and the U.S. Value Fund.  
13 Additional plaintiffs Emil De Bacco and Margaret Macht are the proposed class representatives  
14 with respect to the Wells Fargo Large Cap Stock Fund Subclass;

15 (b) All persons or entities who purchased shares or like interests in any of the  
16 Wells Fargo Small and Mid Cap Stock Funds during the Class Period and who were damaged  
17 thereby (the “Wells Fargo Small and Mid Cap Stock Fund Subclass”). The Wells Fargo Small  
18 and Mid Cap Stock Funds are: the C&B Mid Cap Value Fund; the Common Stock Fund; the  
19 Discovery Fund; the Enterprise Fund; the Mid Cap Disciplined Fund; the Mid Cap Growth Fund;  
20 the Opportunity Fund; the Small Cap Disciplined Fund; the Small Cap Opportunities Fund; and  
21 the Small Cap Value Fund. Lead Plaintiff Edward Lee and additional plaintiffs Margaret Macht  
22 and Edward Arsenault are proposed class representatives with respect to the Wells Fargo Small  
23 and Mid Cap Stock Fund Subclass;

24 (c) All persons or entities who purchased shares or like interests in any of the  
25 Wells Fargo International Stock Funds during the Class Period and who were damaged thereby  
26 (the “Wells Fargo International Stock Fund Subclass”). The Wells Fargo International Stock

<sup>27</sup> <sup>10</sup> Fund names vary slightly during the Class Period. The names of the funds stated herein are  
<sup>28</sup> intended to include all predecessor and successor funds.

1 Funds are: the Asia Pacific Fund; the International Core Fund; the International Equity Fund;  
 2 the International Value Fund; the Institutional Emerging Markets Fund; and the Overseas Fund.  
 3 Additional plaintiff Emil De Bacco is the proposed class representative with respect to the Wells  
 4 Fargo International Stock Fund Subclass;

5 (d) All persons or entities who purchased shares or like interests in any of the  
 6 Wells Fargo Specialty Funds during the Class Period and who were damaged thereby (the "Wells  
 7 Fargo Specialty Fund Subclass"). The Wells Fargo Specialty Funds are: the Specialized  
 8 Financial Services Fund; the Specialized Health Sciences Fund; and the Specialized Technology  
 9 Fund. Lead Plaintiff Edward Lee is the proposed class representative with respect to the Wells  
 10 Fargo Specialty Fund Subclass;

11 (e) All persons or entities who purchased shares or like interests in any of the  
 12 Wells Fargo Equity Gateway Funds during the Class Period and who were damaged thereby (the  
 13 "Wells Fargo Equity Gateway Fund Subclass"). The Wells Fargo Equity Gateway Funds are:  
 14 the C&B Large Cap Value Fund; the Diversified Small Cap Fund; the Equity Income Fund; the  
 15 Equity Value Fund; the Growth Equity Fund; the Index Fund; the Large Cap Appreciation Fund;  
 16 the Large Company Growth Fund; the Small Company Growth Fund; and the Small Company  
 17 Value Fund. Lead Plaintiff Edward Lee and additional plaintiffs Margaret Macht, Emil De  
 18 Bacco and Richard Hinton are proposed class representatives with respect to the Wells Fargo  
 19 Equity Gateway Fund Subclass;

20 (f) All persons or entities who purchased shares or like interests in any of the  
 21 Wells Fargo Money Market Funds during the Class Period and who were damaged thereby (the  
 22 "Wells Fargo Money Market Fund Subclass"). The Wells Fargo Money Market Funds are: the  
 23 California Tax-Free Money Market Fund; the Cash Investment Money Market Fund; the  
 24 Government Money Market Fund; the Liquidity Reserve Money Market Fund; the Minnesota  
 25 Money Market Fund; the Money Market Fund; the National Tax-Free Money Market Fund; the  
 26 100% Treasury Money Market Fund; the Overland Express Sweep Fund; and the Treasury Plus  
 27 Money Market Fund. Additional plaintiff Arnold Creek is the proposed class representatives  
 28 with respect to the Wells Fargo Money Market Fund Subclass;

1 (g) All persons or entities who purchased shares or like interests in any of the  
2 Wells Fargo Asset Allocation Funds during the Class Period and who were damaged thereby (the  
3 "Wells Fargo Asset Allocation Fund Subclass"). The Wells Fargo Asset Allocation Funds are:  
4 the Aggressive Allocation Fund; the Asset Allocation Fund; the Conservative Allocation Fund;  
5 the Growth Balanced Fund; the Index Allocation Fund; and the Moderate Balanced Fund.  
6 Additional plaintiff Richard Hinton is the proposed class representative with respect to the Wells  
7 Fargo Asset Allocation Fund Subclass;

8 (h) All persons or entities who purchased shares or like interests in any of the  
9 Wells Fargo Wealthbuilder Portfolio Funds during the Class Period and who were damaged  
10 thereby (the “Wells Fargo Wealthbuilder Portfolio Fund Subclass”). The Wells Fargo  
11 Wealthbuilder Portfolio Funds are: the Wealthbuilder Growth Balanced Portfolio; the  
12 Wealthbuilder Conservative Allocation Portfolio; the Wealthbuilder Moderate Balanced  
13 Portfolio; the Wealthbuilder Growth Allocation Portfolio; the Wealthbuilder Equity Portfolio;  
14 and the Wealthbuilder Tactical Equity Portfolio. Additional plaintiff Arnold Kreek is the  
15 proposed class representative with respect to the Wells Fargo Wealthbuilder Portfolio Fund  
16 Subclass; and

25        250. The members of the Class and the Subclasses are so numerous that joinder of all  
26 members is impracticable. While the exact number of the members of the Class and the  
27 Subclasses is unknown to Plaintiffs at this time and can only be ascertained through appropriate  
28 discovery, Plaintiffs believe that there are thousands of members of the Class and each of the

1 Subclasses. Record owners and other members of the Class and the Subclasses may be identified  
 2 from records maintained by Wells Fargo and may be notified of the pendency of this action by  
 3 mail, using a form of notice similar to that customarily used in securities class actions.

4 251. Plaintiffs' claims are typical of the claims of the members of the Class and the  
 5 Subclasses they seek to represent as all members of the Classes are similarly affected by  
 6 Defendants' wrongful conduct in violation of federal securities laws that is complained of herein.

7 252. Plaintiffs are adequate representatives of the members of the Class and the  
 8 Subclasses in that they are informed about the general nature of the claims asserted herein, have  
 9 hired and will supervise competent counsel, and will remain informed about the prosecution of  
 10 this suit.

11 253. Common questions of law and fact exist as to all members of the Class and the  
 12 Subclasses, which predominate over any questions solely affecting individual members. Among  
 13 the questions of law and fact common to the Class and the Subclasses are:

14 a. Whether the federal securities laws were violated by Defendants' acts as  
 15 alleged herein; and

16 b. To what extent the members of the Class and the Subclasses have  
 17 sustained damages and the proper measure of such damages.

18 254. A class action is superior to all other available methods for the fair and efficient  
 19 adjudication of this controversy since joinder of all members is impracticable. Furthermore, as  
 20 the damages suffered by individual members of the Class and the Subclasses may be relatively  
 21 small, the expense and burden of individual litigation make it virtually impossible for members  
 22 of the Class and the Subclasses to individually redress the wrongs done to them.

23 255. There will be no difficulty in the management of this action as a class action.  
 24 Most of the issues and evidence to be presented at trial are common to the Class including, but  
 25 not limited to, the overall Wells Fargo revenue-sharing program and the wording of the  
 26 prospectuses. Any difficulty in management of the action resulting from the need to prove the  
 27 existence and amount of excess/sham fees on a fund-by-fund basis is cured by the proposed  
 28 Subclasses, which group funds together by class (e.g., stock funds, money market funds, asset

1 allocation funds, etc.) and prospectus. In this manner, each Subclass contains a manageable  
 2 number of funds.

3 **COUNT I**

4 **ON BEHALF OF THE CLASS AGAINST WELLS FARGO FUNDS MANAGEMENT  
 AND WELLS FARGO FUNDS TRUST FOR VIOLATION OF SECTION 10(b) OF THE  
 EXCHANGE ACT AND RULE 10B-5 PROMULGATED THEREUNDER**

5 256. Plaintiffs repeat and reallege each and every allegation contained above as if fully  
 6 set forth herein.

7 257. During the Class Period, Defendants carried out a plan, scheme and course of  
 8 conduct which was intended to and, throughout the Class Period, did deceive the investing  
 9 public, including Plaintiffs and other Class and Subclass members, as alleged herein and caused  
 10 Plaintiffs and other members of the Class and Subclasses to purchase Wells Fargo Funds at  
 11 distorted prices and to otherwise suffer damages. In furtherance of this unlawful scheme, plan  
 12 and course of conduct, Defendants took the actions set forth herein.

13 258. Defendants (i) employed devices, schemes, and artifices to defraud; (ii) made  
 14 untrue statements of material fact and/or omitted to state material facts necessary to make the  
 15 statements made not misleading; and (iii) engaged in acts, practices, and a course of conduct  
 16 which operated as a fraud and deceit upon the purchasers of the Wells Fargo Funds, including  
 17 Plaintiffs and other members of the Class and the Subclasses, in an effort to enrich themselves  
 18 through undisclosed manipulative tactics by which they wrongfully distorted the pricing of their  
 19 securities in violation of Section 10(b) of the Exchange Act and Rule 10b-5. Defendants are  
 20 sued as primary participants in the wrongful and illegal conduct and scheme charged herein.

21 259. Defendants, individually and in concert, directly and indirectly, by the use, means  
 22 or instrumentalities of interstate commerce and/or of the mails, engaged and participated in a  
 23 continuous course of conduct to conceal adverse material information about the Wells Fargo  
 24 Funds' operations, as specified herein.

25 260. Defendants employed devices and artifices to defraud and engaged in a course of  
 26 conduct and scheme as alleged herein to unlawfully manipulate and profit from excessive fees  
 27 and/or commissions paid to them as a result of its undisclosed kickback arrangement described  
 28

1 above and thereby engaged in transactions, practices and a course of conduct which operated as a  
 2 fraud and deceit upon Plaintiffs and members of the Class and the Subclasses.

3       261. Defendants had actual knowledge of the misrepresentations and omissions of  
 4 material facts set forth herein, or acted with reckless disregard for the truth in that they failed to  
 5 ascertain and to disclose such facts, even though such facts were available to them. Defendants'  
 6 material misrepresentations and/or omissions were done knowingly or recklessly and for the  
 7 purpose and effect of concealing the truth.

8       262. As a result of the dissemination of the materially false and misleading information  
 9 and failure to disclose material facts, as set forth above, the market prices of the Wells Fargo  
 10 Funds were distorted during the Class Period such that they did not reflect the risks and costs of  
 11 the continuing course of conduct alleged herein. In ignorance of the fact that market prices of  
 12 the shares were distorted, and relying directly or indirectly on the false and misleading  
 13 statements made by the Defendants, or upon the integrity of the market in which the securities  
 14 trade, and/or on the absence of material adverse information that was known to or recklessly  
 15 disregarded by Defendants but not disclosed in public statements by the Defendants during the  
 16 Class Period, Plaintiffs and the other members of the Class and Subclasses acquired the shares or  
 17 interest in the Wells Fargo Funds during the Class Period at distorted prices and were damaged  
 18 thereby.

19       263. At the time of said misrepresentations and omissions, Plaintiffs and other  
 20 members of the Class and the Subclasses were ignorant of their falsity, and believed them to be  
 21 true. Had Plaintiffs and other members of the Class and the Subclasses known the truth  
 22 concerning the Wells Fargo Funds' operations, which Defendants did not disclose, Plaintiffs and  
 23 other members of the Class and the Subclasses would not have purchased or otherwise acquired  
 24 their shares, or, if they had acquired such shares during the Class Period, they would not have  
 25 done so at the distorted prices which they paid; and would not have paid the fees and costs  
 26 associated with ownership of the Wells Fargo Funds.

27       264. By virtue of the foregoing, Defendants have violated Section 10(b) of the  
 28 Exchange Act and Rule 10b-5 promulgated thereunder.

265. As a direct and proximate result of the wrongful conduct by Defendants, Plaintiffs and other members of the Class and Subclasses suffered damages in connection with their purchases and acquisitions of Wells Fargo Funds during the Class Period.

## **COUNT II**

**ON BEHALF OF THE CLASS AGAINST THE CONTROL PERSON DEFENDANT FOR  
VIOLATIONS OF SECTION 20(a) OF THE EXCHANGE ACT**

266. Plaintiffs repeat and reallege each and every allegation contained above as if fully set forth herein except for claims brought pursuant to the Securities Act.

267. This claim is brought pursuant to Section 20(a) of the Exchange Act against the Control Person Defendant.

268. The Control Person Defendant acted as a controlling person of the Investment Adviser and Registrant Defendants within the meaning of Section 20(a) of the Exchange Act for the reasons alleged herein. By virtue of their operational and management control of the Investment Adviser and Registrant Defendants' respective businesses and systematic involvement in the fraudulent scheme alleged herein, the Control Person Defendant had the power to influence and control and did influence and control, directly or indirectly, the decision-making and actions of the Investment Adviser and Registrant Defendants, including the content and dissemination of the various statements which Plaintiffs contend are false and misleading. The Control Person Defendant had the ability to prevent the issuance of the statements alleged to be false and misleading or could have caused such statements to be corrected.

269. In particular, the Control Person Defendant had direct and supervisory involvement in the operations of the Investment Adviser and Registrant Defendants and, therefore, is presumed to have had the power to control or influence the particular transaction giving rise to the securities violations as alleged herein, and to have exercised same.

270. As set forth above, the Investment Adviser and Registrant Defendants each violated Section 10(b) and Rule 10b-5 by their acts and omissions as alleged in this Complaint. By virtue of its positions as a controlling person, the Control Person Defendant is liable pursuant to Section 20(a) of the Exchange Act. As a direct and proximate result of the Investment

1 Adviser and Registrant Defendants' wrongful conduct, Plaintiffs and other members of the Class  
 2 and the Subclasses suffered damages in connection with their purchases of Wells Fargo Funds  
 3 securities during the Class Period.

4 **PRAYER FOR RELIEF**

5 WHEREFORE, Plaintiffs pray for relief and judgment as follows:

6 (a) Determining that this action is a proper class action and certifying the  
 7 Plaintiffs as Class and Subclass representatives under Rule 23 of the Federal Rules of Civil  
 8 Procedure;

9 (b) Awarding compensatory damages in favor of Plaintiffs and the Class and  
 10 Subclass members against Defendants, jointly and severally, for all damages sustained as a result  
 11 of Defendants' violations of the federal securities laws set forth above, in an amount to be  
 12 proven at trial, including interest thereon;

13 (c) Awarding Plaintiffs and the Class and Subclasses their reasonable costs  
 14 and expenses incurred in this action, including counsel fees and expert fees; and

15 (d) Such other and further relief as the Court may deem just and proper.

16 **JURY TRIAL DEMANDED**

17 Plaintiffs hereby demand a trial by jury.
